Planning for Nature Conservation Mike Alexander, 2012-12-05 The first edition of Mike Alexander's Management Planning
for Nature Conservation brought a new dimension to the modern literature on conservation management This second edition
a significant enhancement of the original deals with the development both conceptual and practical of adaptive management
planning for nature conservation It is about preparing management plans and guides the reader through the entire process
Case studies including a conservation and access plan demonstrate the planning process in action This approach to planning
can be applied to any place which is managed entirely or in part for wildlife It can be applied to the management of species
or habitats in any circumstance regardless of site designation The process is fully compatible with the Convention on
Biological Diversity's ecosystem approach to conservation management Mike Alexander has long been at the forefront of
developing management planning for conservation with experience ranging from Uganda to Estonia and from Costa Rica to
Wales He is the General Secretary of the Conservation Management System Consortium a group of organisations with a
common aim of raising standards and developing best practice in conservation management and planning In 2012 Mike
Alexander was elected a Fellow of the Society of Biology in recognition of his contribution to nature conservation and in
particular management planning This book has drawn on the experiences and expertise of the CMS consortium and other

leaders in both conservation research and wildlife management from around the world It is essential reading for professional conservation managers and any student studying management planning for conservation within a range of degree and postgraduate courses

A History of Nature Conservation in Britain David Evans, 2002-11 This 2nd and fully revised edition offers insights into the campaign for countryside access and protection and considers topical concerns afresh It examines unwelcome choices for the future and Britain's role in the global conservation debate

The Edge of Cymru Julie Brominicks, 2023-03-06 In the course of a year Julie Brominicks walked around the edge of Wales having left her job in environmental education at the Centre for Alternative Technology in Machynlleth As an English incomer and a Welsh learner with a long association with the country she was interested in what Wales meant and how she did or didn't fit in to it The result is a fascinating alternative travelogue which merges topography history environmentalism and observation of nature to produce the long view of Wales discovering the roots of the present in the past sometimes the distant past Brominicks' observations of the places and people she discovers around Wales are lively and well written although this is her journey in many senses of that word the narrative is at least as interested in who she meets and what she sees especially of ordinary life She brings the everyday to life in thought provoking ways her book a new way of looking at the place where we live and the people with whom we live our lives knowingly and unknowingly Her writing is lyrical studded with engaging and striking coinages and images which take the reader along the journey with her both entertained and informed *The Edge of Cymru* is a refreshingly new way of looking at place identity memory and belonging especially through an environmental lens It rewards the reader whether they are interested in Wales specifically or the world generally Bursts with beautiful descriptive prose which picks up the minutia of each moment Brominicks skilfully examines broad social environmental political economic and even geological changes without the book feeling dry as accessible as a novel and would make a great holiday read as much as a bedside book
