Nature Of The Self:

The Nature of the Self Francis John Mott, 1959 *Nature of the Self* S. K. Leung, 2000 Proposes a radical theory on the existential confirmation and understanding of the Self **Nature's Self** Robert S. Corrington, 1996 The drama of the unfolding of the spirit Corrington argues is one of the most powerful struggles within the human process The spirit is in and of nature and can never lift the self outside of nature For Corrington's ecstatic naturalism there is no realm of the supernatural only dimensions and orders within nature *Nature's Primal Self* Nam T. Nguyen, 2011-12-28 Nature's Primal Self examines Corrington's thought called ecstatic naturalism in juxtaposition to both C. S. Peirce's pragmatic and semiotic concept of the self and Karl Jaspers' existential elucidation of Existenz Peirce's and Jaspers' anthropocentrism is thus corrected by Corrington's ecstatic naturalism Ecstatic naturalism as a new movement is both a semiotic theoretical method and a metaphysics that probes deeply into the ontological divide between nature naturing and nature natured Author Nam T. Nguyen attempts to achieve three goals first to present and elucidate the underlying philosophical concepts of Charles Peirce Karl Jaspers and Robert Corrington second to critique the anthropocentric self of Peirce's semiotic pragmatism and of Jaspers' existential anthropology periechontology from the standpoint of ecstatic naturalism and third to introduce the concept of nature's primal self radically grounded in the perspective of ecstatic naturalism as a judicious more encompassing and richer framework compared to Peirce's semiotic construction of the self and Jaspers' existential concept of Existenz

Gorman, 2023-03-29 This study explores the relationship between the individual person the self the divine and other people in the writings of the apostle Paul and the Roman Stoic Epictetus It does so by examining self involving actions expressed with reflexive pronouns myself yourself etc in various kinds of sentences for example Examine yourself and You do not belong to yourself After situating the topic within the fields of linguistics and ancient Greek the study then examines the reflexive constructions in Epictetus's Discourses showing that reflexive texts express fundamental aspects of his ethic of rational self interest in imitation of the indwelling rational deity Next the investigation examines the 109 reflexive constructions in Paul providing an exegesis of each reflexive text and then synthesizing the results Paul's reflexive phrases are essential statements of his theology and ethics expressing an interconnected narrative Christology narrative apostolic identity and narrative ethic Most importantly the study finds that for Epictetus concern for others is a rational means to self realization whereas for Paul concern for others is a community ethic grounded in the story of the indwelling Christ and is the antithesis of self interest

Thoreau's Nature Jane Bennett, 2002-04-03 Thoreau s Nature Ethics Politics and the Wild explores how Thoreau crafted a life open to the Wild a term that marks the startling element of foreignness in every object of experience however familiar Thoreau s encounters with nature Bennett argues allowed him to resist his all too human tendency toward intellectual laziness social conformity and political complacency Bennett pursues this theme by constructing a series of dialogues between Thoreau and our contemporaries Foucault on identity and power Haraway on the nature culture of division Hollywood celebrities on the Walden Woods Project the National Endowment for the Humanities on politics and art and Kafka on the question of political idealism The pertinence to the late 20th century of Thoreau s pursuit of independent judgment ecological foresight and moral nobility becomes apparent through these engagements Dao Companion to Chinese Buddhist Philosophy Youru Wang, Sandra A. Wawrytko, 2019-01-31 Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a

quasi religious stereotype and judged on its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy
