Davis, 2020-10-14 Mind Value and Cosmos On the Relational Nature of Ultimacy is an investigation into the nature of ultimacy and explanation particularly as it relates to the status of and relationship among Mind Value and the Cosmos It draws its stimulus from longstanding axianoetic convictions as to the ultimate status of Mind and Value in the western tradition of philosophical theology and chiefly from the influential modern proposals of A N Whitehead Keith Ward and John Leslie What emerges is a relational theory of ultimacy wherein Mind and Value Possibility and Actuality God and the World are revealed as ultimate only in virtue of their relationality The ultimacy of relationality what Whitehead calls mutual immanence uniquely illuminates enduring mysteries surrounding any and all existence necessary divine existence the nature of the possible and the world as actual As such it casts fresh light upon the whence and why of God the World and their ultimate presuppositions **Ecology and Justice—Citizenship in Biotic Communities** David R. Keller, 2019-03-30 This is the first book to outline a basic philosophy of ecology using the standard categories of academic philosophy metaphysics axiology epistemology aesthetics ethics and political philosophy The problems of global justice invariably involve ecological factors Yet the science of ecology is itself imbued with philosophical questions Therefore studies in ecological justice the sub discipline of global justice that relates to the interaction of human and natural systems should be preceded by the study of the philosophy of ecology This book enables the reader to access a philosophy of ecology and shows how this philosophy is inherently normative and provides tools for securing ecological justice The moral philosophy of ecology directly addresses the root cause of ecological and environmental injustice the violation of fundamental human rights caused by the inequitable distribution of the benefits economies and costs diseconomies of industrialism Philosophy of ecology thus has implications for human rights pollution poverty unequal access to resources sustainability consumerism land use biodiversity industrialization energy policy and other issues of social and global justice This book offers an historical and interdisciplinary exegesis The analysis is situated in the context of the Western intellectual tradition and includes great thinkers in the history of ecological

environmentalethics info **Quantitative Eco-nomics** Peter Bartelmus, 2008-04-19 This thought provoking and colorful book cuts through the fog of vision and advocacy by comparing and applying new quantitative tools of both environmental and ecological economics Environmental accounts and empirical analyses provide operational concepts and measures of the sustainability of economic performance and growth The text raises doubts however about the measurability of sustainable development Further reading sections are provided at the end of each chapter **Sustainability Economics** , 2013 The book is a concise introduction to an emerging field within economics Drawing on numerous disciplines including environmental science environmental and ecological economics and optimal growth theory sustainability remains a hazy and complex subject The author set out with two objectives one to bring some order into the proliferating measures models and management of sustainability and two to facilitate access to a complex inter disciplinary subject area The book points to practical ways of assessing and enhancing the long term environmental and economic sustainability of our economies The result is a fully international study that should bridge the gap between disciplines and prove to be an essential guide to anyone interested in one of the most important concepts in the social sciences **Integral Yoga Psychology** Debashish

Banerji,2020-05-28 Integral Yoga Psychology is a new attempt to position the Integral Yoga of Sri Aurobindo and the Mother within the frame of yoga psychology as an inquiry related to transpersonal and whole person psychologies This book contains 11 essays by leading scholar practitioners of integral yoga sketching its possibility space as a psychology It attempts this through a hermeneutics of the texts of Sri Aurobindo and the Mother as well as their own and their disciples practices and experiences It also makes a beginning at locating the field in its larger contexts through comparative qualitative and empirical studies as well as probing the clinical possibilities of its models **Faith and Reason** Donald A.

Crosby,2012-01-02 Few words are as widely misconceived as the word faith Faith is often set in stark opposition to reason considered antithetical to scientific thought and heavily identified with religion Donald Crosby s revealing book provides a more complex picture discussing faith and its connection to the whole of human life and human knowledge Crosby writes about that existential faith that underlies shapes and supports a person s life and its sense of purpose and direction Such faith does not make a person religious and being secular does not mean one rejects all forms of faith Throughout the book Crosby makes the case that faith is fundamentally involved in all processes of reasoning and that reason is an essential part of all dependable forms of faith Crosby elaborates the major components of faith and goes on to look at the mutually dependent relationships between faith and knowledge faith and scientific knowledge and faith and morality The work s final chapters examine crises of faith among several noted thinkers as well as the author s own journey of faith from plans for the ministry to pastor to secular philosopher and religious naturalist Untying the Gordian Knot Timothy E.

Eastman,2020-12-10 In Untying the Gordian Knot Process Reality and Context Timothy E Eastman proposes a new creative synthesis the Logoi framework which is radically inclusive and incorporates both actuality and potentiality to show how the fundamental notions of process logic and relations woven with triads of input output context and quantum logical distinctions can resolve a baker s dozen of age old philosophic problems Further Eastman leverages a century of advances in quantum physics and the Relational Realism interpretation pioneered by Michael Epperson and Elias Zafiris and augmented by the independent research of Ruth Kastner and Hans Primas to resolve long standing issues in understanding quantum physics Adding to this Eastman makes use of advances in information and complex systems semiotics and process philosophy to show how multiple levels of context combined with relations including potential relations both local and local global can provide a grounding for causation emergence and physical law Finally the Logoi framework goes beyond standard ways of knowing that of context independence science and context focus arts humanities to demonstrate the inevitable role of ultimate context meaning spiritual dimension as part of a transformative ecological vision which is urgently needed in these times of human and environmental crises *Principles of Subjective Anthropology* Binggong Chen,2023-03-27 This book puts forward the concept of subjective anthropology and outlines a theoretical system that will allow subjective anthropology to qualify as a new academic discipline in its own right In an effort to respond to the field s proper role as the science of humanity

subjective analysis has been introduced into the study of anthropology The book fills two distinct gaps in our knowledge and understanding of modern man offering detailed descriptions of personality and of groups while also advancing the theory of structure and choice The book formulates seven basic principles of subjective anthropology and divides anthropology into three major branches subjective anthropology cultural anthropology and biological or physical anthropology which can be further divided into sub branches The book pursues three key goals advancing and developing the theoretical system of subjective anthropology reconstructing the discipline of anthropology and establishing a Chinese anthropology with Chinese characteristics Chinese visions and Chinese styles
