Neubauer, Alexander Neubauer, 1996 Examining the interactive roles of nature and nurture in psychological and physical development Neubauer and Neubauer show how each person is greater than the sum of his or her parts They discuss how temperament tastes and skills unfold throughout life and the need for this to remain unimpeded *Indivisible by Two* Nancy L. Segal, 2005 A leading expert on twins delves into the stories behind her research to reveal the profound joys and real life traumas of 12 remarkable sets of twins triplets and quadruplets Segal unravels these moving stories with an eye for the challenges that life as a twin or triplet or quadruplet can pose to parents friends and spouses as well as the twins themselves *Psychology* Peter O. Gray, 2010-01-04 An introductory text that explores psychology's major theories and the evidence that supports and refutes them This title incorporates research helping students to probe for the purposes and biological origins of behaviour the whys and hows of human psychology

Deliberately Divided Nancy L. Segal, 2021-11-08 A 2022 Choice Reviews Outstanding Academic Title Takes the first in depth look at the New York City adoption agency that separated twins and triplets in the 1960s and the controversial and disturbing study that tracked the children's development while never telling their adoptive parents that they were raising a singleton twin In the early 1960s the head of a prominent New York City Child Development Center and a psychiatrist from Columbia University launched a study designed to track the development of twins and triplets given up for adoption and raised by different families The controversial and disturbing catch None of the adoptive parents had been told that they were raising a twin the study's investigators insisted that the separation be kept secret Here Nancy Segal reveals the inside stories of the agency that separated the twins and the collaborating psychiatrists who along with their cadre of colleagues observed the twins until they turned twelve This study far outside the mainstream of scientific twin research was not widely known to scholars or the general public until it caught the attention of documentary filmmakers whose recent films *Three Identical Strangers* and *The Twinning Reaction* left viewers shocked angered saddened and wanting to know more Interviews with colleagues friends and family members of the agency's psychiatric consultant and the study's principal investigator as well as a former agency administrator research assistants journalists ethicists attorneys and most importantly the twins and their families who were unwitting participants in this controversial study are riveting Through records letters and other documents Segal further discloses the investigators attempts to engage other agencies in separating twins their efforts to avoid media exposure their worries over informed consent issues in the 1970s and the steps taken toward avoiding lawsuits while hoping to enjoy the fruits of publication Segal's spellbinding stories of the twins separation loss and reunion offers readers the behind the scenes details that until now have been lost to the archives of history *Thinking About Psychology* Charles T. Blair-Broeker, Randal M. Ernst, 2003-03-21 This book will be an ally for teachers striving to ignite a passion in their students for psychology's many relevant findings and for students wanting to satisfy a growing curiosity about themselves

their families their friends and the world of people around them      *Complexities* Susan McKinnon, Sydel Silverman, 2005-06  
Recent years have seen a growing impetus to explain social life almost exclusively in biological and mechanistic terms and to dismiss cultural meaning and difference This book presents evidence to contest such theories and to provide a multifaceted account of the complexity and variability of the human condition      **Identical Strangers** Elyse Schein, Paula Bernstein, 2007-10-02 As seen in the hit documentary *Three Identical Strangers* A poignant memoir of twin sisters who were split up as infants became part of a secret scientific study then found each other as adults Reader's Digest Editors Choice WINNER OF A BOOKS FOR A BETTER LIFE AWARD Elyse Schein had always known she was adopted but it wasn't until her mid thirties while living in Paris that she searched for her biological mother What she found instead was shocking She had an identical twin sister What's more after being separated as infants she and her sister had been for a time part of a secret study on separated twins Paula Bernstein a married writer and mother living in New York also knew she was adopted but had no inclination to find her birth mother When she answered a call from her adoption agency one spring afternoon Paula's life suddenly divided into two starkly different periods the time before and the time after she learned the truth As they reunite taking their tentative first steps from strangers to sisters Paula and Elyse are left with haunting questions surrounding their origins and their separation And when they investigate their birth mother's past the sisters move closer toward solving the puzzle of their lives Praise for *Identical Strangers* Remarkable powerful an extraordinary experience The reader is left to marvel at the reworking of individual identities required by one discovery and then another Boston Sunday Globe Absorbing Wired A fascinating memoir Weaving studies about twin science into their personal reflections Schein and Bernstein provide an intelligent exploration of how identity intersects with bloodlines A must read for anyone interested in what it means to be a family *Bust Identical Strangers* has all the heart stopping drama you'd expect But it has so much more the authors emotional honesty and clear eyed insights turn this unique story into a universal one As you accompany the twins on their search for the truth of their birth you witness another kind of birth the germination and flowering of sisterly love Deborah Tannen 1 New York Times bestselling author of *You Just Don't Understand* A transfixing memoir Publishers Weekly
