hermeneutics Though focused on adaptations of Judeo Christian religious traditions it also samples Native American African American and Buddhist forms of ecospirituality It begins with Colonial New England writers such as Anne Bradstreet and Jonathan Edwards re examines pivotal figures such as Henry Thoreau and John Muir and takes account of writings by Mary Austin Rachel Carson and many others along the way The book concludes with an assessment of the spiritual renaissance underway in current environmental writing as represented by five noteworthy poets and by authors such as Wendell Berry Annie Dillard Marilynne Robinson Peter Matthiessen and Barry Lopez This engaging study should appeal not only to students of literature but also to those interested in ethics and environmental studies religious studies and American cultural history
