## Naval History Of World War I:

Naval History of World War I Paul G Halpern, 2012-04-15 There have been a number of studies published on the activities of British and German navies during World War I but little on naval action in other arenas This book offers for the first time a balanced history of the naval war as a whole viewed from the perspective of all participants in all major theaters The author's earlier examination *The Naval War in the Mediterranean 1914-1918* centered on submarine activities and allied efforts to counteract this new menace With this welcome sequel he again takes the reader beyond those World War I operations staged on the North Sea Halpern's clear and authoritative voice lends a cohesiveness to this encompassing view of the Italians and Austrians in the Adriatic the Russians Germans and Turks in the Baltic and Black Seas and French and British in the Mediterranean Important riverine engagements notably on the Danube also are included along with major colonial campaigns such as Mesopotamia and the Dardanelles The role of neutral sea powers such as the Swedes in the Baltic and the Dutch in the East Indies is examined from the perspective of how their neutrality affected naval activity Also discussed is the part played by the U S Navy and the often overlooked but far from negligible role of the Japanese navy The latter is viewed in the context of the opening months of the war and in the Mediterranean during the height of the submarine crisis of 1917

*A Naval History of World War I* Paul G. Halpern, 1994 This book aims to provide a definitive work on the First World War at sea It aims to cover in a single volume many aspects of the naval war and to treat the conflict from the viewpoints of all the participants rather than just the Anglo German perspective *A Naval History of World War I* represents a major contribution to our understanding of the operation tactics and strategy of the First World War The book covers the activities of the French and British in the Mediterranean the Italians and Austrians in the Adriatic and the Russians Germans and Turks in the Baltic and Black Seas Detailing the Royal Navy's campaign against the German raiders the colonial campaigns and the major overseas expeditions Professor Halpern examines not only naval operations but leadership policy strategy tactics and technology and relates these to the wider political diplomatic and economic aspects of the war Covering lesser known conflicts such as the Rumanian campaign and the Danube Flotillas As Well As The Historic Battles Of Jutland The Dardanelles and the anti submarine warfare the author presents a fully comprehensive and accessible treatment The book is intended for all serious students of the First World War

**The Naval History of the World War ...: U.S. in the war** Thomas Goddard Frothingham, **The Naval History of the World War: The United States in the war, 1917-1918** Thomas Goddard Frothingham, 1971 **The Naval History of the World War ...: The United States in the War, 1917-1918** Thomas

Goddard Frothingham, 1926 **The Great War at Sea** Lawrence Sondhaus, 2014-08-07 New naval history of the First World War which reveals the contribution of the war at sea to Allied victory **The Naval History of the World War** Thomas G. Frothingham, 1926-02-05 Excerpt from *The Naval History of the World War* Offensive Operations 1914-1915 After the War Of 1870 Germany had steadily gained power under the shrewd policies of Bismarck who skillfully took advantage of the enmity

between Great Britain and Russia at the end of the Russo-Turkish War of 1877 and made Germany a dominating power in Europe at the Congress of Berlin at which the treaties were drawn up after that war. In 1879 the alliance between Germany and Austria-Hungary had been made which became the Triple Alliance when joined by Italy. But Great Britain was influenced by anti-Russian policies and in fact had even fostered the growth of Germany as a buffer against Russia. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com). This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

*World War I* Buckley Barry Barrett, 1995-01-01 Barrett provides a complete guide to the Dewey Decimal and Library of Congress classification of subjects relating to the First World War. *Navies of Europe* Lawrence Sondhaus, 2014-06-11 Europe ruled the waves for most of the modern era and even when its navies were eclipsed in size by the US force they continued to dominate world wars. In this unique history of Europe's naval forces Larry Sondhaus charts the development of naval warfare from the transition to steam to recent actions in the Persian Gulf. Combining detailed technical information with an in-depth comparison of warfare and tactics across some of the key conflicts of the modern world, this is an absorbing account of European and British seapower past and present. *The Naval History of the World War ...* By Thomas G. Frothingham. With Maps and Diagrams Military Historical Society of Massachusetts (BOSTON, Mass.), 1924. *The United States in World War I* James T. Controvich, 2023-05-08 With the centennial of the First World War rapidly approaching, historian and bibliographer James T. Controvich offers in *The United States in World War I: A Bibliographic Guide* the most comprehensive up-to-date reference bibliography yet published. Organized by subject, this bibliography includes the full range of sources: vintage publications of the time, books, pamphlets, periodical titles, theses, dissertations, and archival sources held by federal and state organizations as well as those in public and private hands, including historical societies and museums. As Controvich's bibliographic accounting makes clear, there were many facets of World War I that remain virtually unknown to this day. Throughout Controvich's bibliography tracks the primary sources that tell each of these stories and many others besides during this tense period in American history. Each entry lists the author, title, place of publication, publisher, date of publication, and page count, as well as descriptive information concerning illustrations, plates, photos, maps, diagrams, and plans. The armed forces section carries additional information on rosters, awards, citations, and killed and wounded in action lists. *The United States in World War I: A Bibliographic Guide* is an ideal research tool for students and scholars of World War I and American history. **Atlas of American Military History** James C. Bradford, 2003 From the Battle of Bunker Hill to the Battle of Midway, from Vietnam to the Persian Gulf, from George Washington to Douglas MacArthur, *The Atlas of American*

Military History covers the full span of America at war exploring the personalities methods strategies and historical contexts of each conflict Following a loose chronological framework this book examines every significant military campaign and war in which the United States has been engaged both domestically and internationally from the Revolutionary War to the present Written by trusted military historians each section combines analysis with a strong narrative account and an assessment of major campaigns and battle taking up the American viewpoint as well as those of its allies and opponents Military method weaponry and communication technology receive detailed treatment in the text and in the maps The center point of the book is its stunning color maps including historical military cartography specially commissioned maps and graphic reconstructions These maps show troop ship and aircraft movements of major campaigns and battles the theaters of fighting the balance of forces and the wider strategic picture It also features hundreds of illustrations appendixes and a glossary and information on military commanders events treaties code names and civilian personalities Edited by noted historian James Bradford The Atlas of American Military History is a beautiful and informative volume for history buff and general reader alike

**The Naval History of the World War ...: Offensive operations, 1914-1915** Thomas Goddard Frothingham, 1924

**Historical Dictionary of the United States Navy** James M. Morris, Patricia M. Kearns, 2011-04-01 The United States Navy has evolved in the last century and a half from humble and often frustrating beginnings during and after the Revolutionary War to become the strongest navy in the world with responsibilities that span the globe. The story of the Navy from its birth through the Civil War and other 19th-century conflicts through its victories of World War I and World War II and down to the current efforts in the Middle East to maintain the peace not only for the United States but also for other nations as the world's primary peacekeeper has been one of responding to the call of duty as captured by its unofficial motto *Non sibi sed patriae* (Not self but country). No other nation's navy past or present can match its successes and history. The second edition of *Historical Dictionary of the United States Navy* covers U.S. Naval developments, personnel, and engagements from the colonial times to the present day. This is done through a chronology, an introductory essay, an extensive bibliography, and over 600 cross-referenced dictionary entries on people, places, events, and other terminology of the Navy. This book is an excellent access point for students, researchers, and anyone wanting to know more about the United States Navy.

**The Dardanelles Campaign, 1915** Fred R. van Hartesveldt, 1997-11-20 The passage of time has not slowed the production of books and articles about World War I. This volume provides a guide to the historiography and bibliography of the Dardanelles Campaign, including the Gallipoli invasion. It focuses on military history but also provides information on political histories that give significant attention to the handling of the Dardanelles Campaign. The opening section of the book provides background information about the campaign, discusses the major sources of information, and lays out the major interpretative disputes. A comprehensive annotated bibliography follows. This book nicely complements the two earlier volumes on World War I battles: *The Battle of Jutland* by Eugene Rasor and *The Battles of the Somme* by Fred R. van Hartesveldt.
