N'ayez Pas Peur Andre Frobard Dialogue Avec Jeanpaul II:

The Legacy of John Paul II Gerald O'Collins, Michael A. Hayes, 2008-10-30 An indispensable book on the important themes present in John Paul II's theology Pope Benedict XVI has written I consider it my essential and personal mission not so much to produce many new documents but to see to it that John Paul's documents are assimilated because they are a very rich treasure the authentic interpretation of Vatican II This volume responds to that challenge in helping readers and students to understand the important themes in John Paul II's theology which is crucial because his influence is already as great as that of almost any other Pope and his teachings and writings need to be studied carefully by Christians of all denominations John Paul II's writings were prolific covering topics as important as ethics politics theology and comparative religion as well as a number of philosophical works published before he became Pope Heirs of the Fisherman John-Peter Pham, 2004-11-30 The death of Pope John Paul II and consequent election of Pope Benedict XVI has shed light on a political process that the world has not been privy to for almost twenty six years People from around the world gathered in St Peter's Square wondering who the next Vatican leader would be and how the election process really worked while everyone from international news correspondents to local priests added their own opinions to the debate In Heirs of the Fisherman former Vatican insider John Peter Pham presents a candid portrait of the modern Vatican the only account to reveal the striking changes to papal succession procedures made by John Paul II Blending political and ecclesiastical history Pham goes beyond a mere description of the complex rituals to offer rare insight into the dramatic shifts inside the College of Cardinals whose 100 members now hail from 50 nations around the globe He takes us into the secret conclave where the electors were kept under lock and key until they had selected a new pope He also includes a chapter devoted to the intrigues of the 20th century where the first conclave had an emperor's veto and the last was won by the first non Italian in four centuries because the Italians were bitterly divided With a new Preface Afterword and appendices that include an English translation of the last will and testament of Pope John Paul II Heirs of the Fisherman is an illuminating history and must have guide to this vitally important world event It will continue to be an indispensable reference to observers of future Catholic Church politics
