A Companion to Greek Religion Daniel Ogden,2010-02-01 This major addition to Blackwell s Companions to the Ancient World series covers all aspects of religion in the ancient Greek world from the archaic through the classical and into the Hellenistic period Written by a panel of international experts Focuses on religious life as it was experienced by Greek men and women at different times and in different places Features major sections on local religious systems sacred spaces and ritual and the divine      **Homer's Allusive Art** Bruno Currie,2016-10-06 What kind of allusion is possible in a poetry derived from a centuries long oral tradition and what kind of oral derived poetry are the Homeric epics Comparison of Homeric epic with South Slavic heroic song has suggested certain types of answers to these questions yet the South Slavic paradigm is neither straightforward in itself nor necessarily the only pertinent paradigm Augustan Latin poetry uses many sophisticated and highly self conscious techniques of allusion which can this book contends be suggestively paralleled in Homeric epic and some of the same techniques of allusion can be found in Near Eastern poetry of the third and second millennia BC By attending to these various paradigms this challenging study argues for a new understanding of Homeric allusion and its place in literary history broaching the question of whether there can have been historical continuity in a poetics of allusion stretching from the Mesopotamian epic of Gilgamesh via the Iliad and Odyssey to the Aeneid and Metamorphoses despite the enormous disparities of time and place and of language and culture including those represented by the cuneiform tablet the papyrus roll and by an oral performance culture The fundamental methodological problems are explored through a series of interlocking case studies treating of how the Odyssey conceivably alludes to the Iliad and also to earlier poetry on Odysseus homecoming the Iliad to earlier poetry on the Ethiopian hero Memnon the Homeric Hymn to Demeter to earlier poetry on Hades abduction of Persephone and early Greek epic to Mesopotamian mythological poetry pre eminently the Babylonian epic of Gilgamesh      **Founding Gods, Inventing Nations** William F. McCants,2012 From the dawn of writing in Sumer to the sunset of the Islamic empire Founding Gods Inventing Nations traces four thousand years of speculation on the origins of civilization Investigating a vast range of primary sources some of which are translated here for the first time and focusing on the dynamic influence of the Greek Roman and Arab conquests of the Near East William McCants looks at the ways the conquerors and those they conquered reshaped their myths of civilization s origins in response to the social and political

consequences of empire The Greek and Roman conquests brought with them a learned culture that competed with that of native elites The conquering Arabs in contrast had no learned culture which led to three hundred years of Muslim competition over the cultural orientation of Islam a contest reflected in the culture myths of that time What we know today as Islamic culture is the product of this contest whose protagonists drew heavily on the lore of non Arab and pagan antiquity McCants argues that authors in all three periods did not write about civilization s origins solely out of pure antiquarian interest they also sought to address the social and political tensions of the day The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire
