Subject Guide to Books in Print ,1997 Hong Kong's Transitions, 1842–1997 Judith M. Brown,Rosemary Foot,1997-06-12 The reversion of Hong Kong to China on 1 July 1997 is an event of major historical significance This volume examines this dramatic event from a long term perspective against the background of earlier turning points in Hong Kong s

political economic and social history It also explores Hong Kong s links with China and Britain in this troubled last decade of colonial rule and offers a basis for assessing the territory s possible future as a part of the Chinese state Tourism in South and Southeast Asia C. Michael Hall, Stephen Page, 2012-10-12 Tourism in South and South East Asia is a comprehensive and solid introduction to tourism in South and South East Asia with a specific appeal both to institutions in the region and other institutions who wish to expose students to one of the most dynamic tourism regions in the world Despite downturns in outbound tourism due to the current economic crisis inbound tourism from outside the region has continued to increase with governments placing more emphasis on the economic significance of tourism than ever Tourism in South and South East Asia is the first tourism book to deal comprehensively with the implications of the Asian economic crisis for tourism With South and South East Asia set to be the fastest growing area of tourism activity in the world well into the next century Tourism in South and South East Asia is an essential text for students both within and outside of this region Dealing with concepts themes and issues which are pertinent to tourism development planning marketing and management these two internationally known authors have produced an authoritative text that covers all aspects of this topic through the use of illustrative and relevant case studies The European Union and East Asia Christopher M. Dent, 1999-08-12 The European Union and East Asia analyses the economic relationship that has evolved between the European Union and East Asia and the future prospects especially in the wake of the recent financial crisis that has shaken the latter region Work in Southeast Asia Lisa Law, 2012-10-12 Southeast Asian sex workers are stereotypically understood as passive victims of the political economy and submissive to western men The advent of HIV AIDS only compounds this image Sex Work in Southeast Asia is a cultural critique of HIV AIDS prevention programmes targetting sex tourism industries in Southeast Asia

Regions and Development Sheila Page,2020-12-15 At the 1996 EADI Conference the papers presented in the World Trade and Trade Policy workshop looked at the new trends in regionalism from a variety of points of view for different institutions They considered the effects of regions their implications for policy and performance in the developing countries and for international economic institutions and tried to interpret them in terms of economic and political theory

Globalisation and China's Diplomacy Stuart Harris,2002 Strategies for Asia-Pacific Shipping Jeff Hawkins,Richard Gray,2019-07-30 This title was first published in 2000 This text focuses on one geographical and economical area the Asia Pacific region on one type of decision makers commercial shipowners and on one type of business strategy corporate level strategy to show economic change and how organizations manage that change This book discusses the challenges that shipowners face to take advantage of that growth It also looks at the lack of information on strategic decision making that could assist the shipowners in taking advantage of the economic situation The chapters cover the types of business strategies available and how to select the criteria for selecting one of those strategies

Migration and Development Ronald Skeldon,2014-09-19 The first text that specifically links both international and internal migration with development at a

global level The world is divided into a series of functionally integrated development zones which are identified not simply on the basis of their level of development but also through their spatial patterns and historical experience of migration Migration and Development stresses the importance of migration in discussing regional rather than simply country differences These variations in mobility are placed within the context of a global hierarchy although regional national and local cultural and social conditions are certainly not ignored in this wide ranging work **Interconnected Worlds: Tourism in Southeast Asia** K.C. Ho,2001-07-05 Examines the political discourse behind tourism presenting some questions regarding the tensions associated with the interconnections This title focuses on deterritorialisation and the development of fresh regionalisms paying specific attention to collaborative efforts in tourism development **State and Society in the** Philippines Patricio N. Abinales, Donna J. Amoroso, 2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country's recurring dilemma on the one hand is the state's persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book's historical sweep starts with the polities of the pre colonial era and continues through the first year of Rodrigo Duterte's controversial presidency Frontiers of Development Economics Gerald M. Meier, Joseph E. Stiglitz, 2001 With contributions from 35 leading economists this forward looking book explores the future of development economics against the background of the past half century of development thought and practice Outstanding representatives of the past two generations of development economists assess development thinking at the turn of the century and look to the unsettled questions confronting the next generation The volume offers a thorough analysis of the broad range of issues involved in development economics and it is especially timely in its critique of what is needed in development theory and policy to reduce poverty An overriding issue is whether in the future development economics is to be regarded simply as applied economics or whether the nature and scope of development economics will constitute a need for a special development theory to supplement general economic theory Frontiers of Development Economics is an ideal reference for all those working in the international development community
