Pacific-basin Capital Markets Research S. Ghon Rhee, Rosita P. Chang, 1990

Selected Works of Merton H. Miller:

A Celebration of Markets: Volume 2 Merton H. Miller, 2002-06-02 Widely regarded as one of the founders of modern corporate finance Merton H Miller was awarded a Nobel Prize in 1990 for his work in the theory of finance and financial economics Selected Works of Merton H Miller gathers together in two volumes a selection of Miller's most influential contributions over more than fifty years of active research A common theme running throughout both volumes is Miller's conviction about the utility of market based approaches to topics as diverse as dividend policy bank regulation the structure of securities markets and competition between research universities and teaching colleges Miller was perhaps best known for a series of highly influential papers he cowrote in the 1950s and 1960s with fellow Nobel laureate Franco Modigliani that advanced a set of capital structure theorems later dubbed the M and M propositions In brief the M and M propositions state that the actions of investors firms and capital markets will cause the market value of a firm to be independent of its capital structure In other words a corporation's value depends on its investments in people ideas and physical capital goods and not on the mix of bonds stocks and other securities used to finance the investments Four of these papers are reprinted here together with important later work by Miller in macroeconomics corporate capital structure management science asset pricing and the economic and regulatory problems of the financial services industry Diverse and innovative the papers in Selected Works of Merton H Miller will interest students and practitioners of economics finance and business as well as policymakers responsible for market regulation *International Finance*, *Price Interdependence Among Equity Markets in the Asia-Pacific Region* Eduardo Roca, 2020-11-26 This title was first published in 2000 An investigation of the issue of financial markets interdependence or integration through the application of recently developed and powerful techniques in time series econometrics The text provides coverage of theoretical analysis and applications in the context of the Asia Pacific region *International Finance* Dilip Das, 2003-09-02 In this updated fourth edition author Maurice Levi successfully integrates both the micro and macro aspects of international finance He successfully explores managerial issues and focuses on problems arising from financial trading relations between nations whilst covering key topics such as organization of foreign exchange markets determination of exchange rates the fundamental principles of international finance foreign exchange risk and exposure fixed and flexible exchange rates This impressive new edition builds and improves upon the popular style and structure of the original With new data improved pedagogy and coverage of all of the main developments in international finance over the last few years this book will prove essential reading for students of economics and business

The Palgrave Companion to Chicago Economics Robert A. Cord, 2023-01-01 The University of Chicago has been and continues to be one of the most important global centres for economics With six chapters on themes in Chicago economics and 33 chapters on the lives and work of Chicago economists this volume shows how economics became established at the

University how it produced some of the world's best known economists including Frank Knight Milton Friedman and Robert Lucas and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of Chicago economics *Security Market Imperfections in Worldwide Equity Markets* Donald B. Keim, William T. Ziemba, 2000-03-13 The study of security market imperfections namely the predictability of equity stock returns is one of the fundamental research areas in financial modelling These anomalies which are not consistent with existing theories concern the relation between stock returns and variables such as firm size and earnings to price ratios and seasonal effects such as January and turn of the month This book provides the most complete and current account of work in the area Leading academics and investment researchers have combined to produce a comprehensive coverage of the subject including both cross sectional and time series analyses as well as discussing the measurement of risk and prediction models that have been used by institutional investors The studies cover many worldwide markets including the US Japan Asia and Europe The book will be invaluable for courses in financial engineering investment and portfolio management and as a reference for investment professionals seeking an up to date source on return predictability

Taiwan Enterprises in Global Perspective Xiaohu (Shawn) Wang, 2020-04-28 This volume was conceived to further the understanding of the transformation of the Taiwan economy over the past four decades and thus to throw light on issues in development theory and policy especially for other developing economies It is built on the micro foundation of a series of enterprise field studies which were conducted by a consortium of eight Taiwan universities under the auspices of Taiwan's National Science Council Although Taiwan's status as one of the four dragons and a rapidly growing Asian Pacific economy is well understood information on its development remains relatively scarce Publications of most international organizations rarely include Taiwan as an entity and scholarly analysis of the causes of the Taiwan miracle are often speculative Those based on empirical research are by and large at the macro level few are based on field studies of one of the most critical factors Taiwan's enterprises This volume aims to fill the void and goes a long way toward developing a micro perspective on this important economy **Taiwan's Enterprises in Global Perspective** Nian-Tzu Wang, 1992 Aims to further the understanding of the transformation of the Taiwan economy over the past four decades and thus to throw light on issues in development theory and policy especially for other developing economies Included is a series of enterprise field studies
