First year at Vailima** Robert Louis Stevenson, 1911 *The Pacific* Donald B. Freeman, 2013-03-07 In this fascinating and exciting overview Donald B Freeman explores the role of the Pacific Ocean in human history Covering over one third of the globe the Pacific Ocean plays a vital role in the lives and fortunes of more than two billion people who live on its rim lands and islands It has played a crucial part in shaping the histories of the different Pacific cultures towards which it has appeared in a variety of different guises Exploring the ocean's place in human history this wide ranging book draws together the long and varied physical economic cultural and political history of the Pacific from Prehistory through to the present day It takes an interdisciplinary approach to show the changing viewpoints of those who explored exploited and settled the Pacific including the inhabitants of its Asian and American rim lands The book draws on new research in a variety of areas such as early Pacific migrations impacts of European colonization the effects of climate change and current economic and political developments It provides a uniquely broad overview that will be of vital interest to students and to all those with an interest in World History **A Voyage to the Pacific Ocean** James Cook, 1831 **Voyage To Australia And The Pacific** Edward Duyker, 2013-05-31 In 1791 Admiral Bruny d Entrecasteaux sailed with two ships from Revolutionary France to search for his compatriot the explorer La Perouse who was missing in the Pacific Over a period of nearly two years he had held his ideologically divided expedition together Without his exceptional maritime skills his men and one cross dressing woman might all have died or played out the destructive fury of the Revolution on the quarterdeck before reaching Java More than two centuries later d Entrecasteaux's account of his voyage remains a profound affirmation of his achievements His humane sensitive and even joyful encounters with the peoples of Australia and the Pacific make this a remarkably appealing book Although d Entrecasteaux failed to discover the fate of La Perouse and perished in the attempt his voyage was more than a mere rescue mission Between 1791 and 1793 the expedition discovered the Derwent estuary and the D Entrecasteaux Channel between Bruny Island and mainland Tasmania and Esperance Bay and the Archipelago of the Recherche in Western Australia D Entrecasteaux's voyage also recorded some of the earliest observations of the Aboriginal people of Tasmania and south western Australia and detailed accounts of the islands and peoples of the Pacific including New Zealand Tonga New Caledonia the Solomon Islands and New Guinea D Entrecasteaux died suddenly off the coast of New Guinea reportedly afflicted by symptoms of scurvy in July 1793 Captain Cook and the Pacific John McAleer, Nigel Rigby, 2017-01-01 British Royal Navy Captain James Cook's voyages of exploration across and around the Pacific Ocean were a marvel of maritime achievement and provided the first accurate map of the Pacific The expeditions answered key scientific economic and geographic questions and inspired some of the most influential images of the Pacific made by Europeans Now readers can immerse themselves in the adventure through

Producing the Pacific Mercedes Maroto Camino, 2005-01-01 Producing the Pacific offers the reader an interdisciplinary reading of the maps narratives and rituals related to the three Spanish voyages to the South Pacific that took place between 1567 and 1606 These journeys were led by Ivarro de Menda a Pedro Fernandez de Quir's and Isabel Barreto the first woman ever to become admiral of and command a fleet Mercedes Maroto Camino presents a cultural analysis of these journeys and takes issue with some established notions about the value of the past and the way it is always rewritten from the perspective of the present She highlights the social political and cultural environment in which maps and narratives circulate suggesting that their significance is always subject to negotiation and transformation The tapestry created by the interpretation of maps narratives and rituals affords a view not only of the minds of the first men and women who traversed the Pacific but also of how they saw the ocean its islands and their peoples Producing the Pacific should therefore be of relevance to those interested in history voyages colonialism cartography anthropology and cultural studies The study of these cultural products contributes to an interpretive history of colonialism at the same time that it challenges the beliefs and assumptions that underscore our understanding of that history
