**Pagan Love Story**, 2001-03-01      The History and Anatomy of Auctorial Self-Criticism in the European Middle Ages

Anita Obermeier, 2023-12-28 This study outlines the history and anatomy of the European apology tradition from the sixth century BCE to 1500 for the first time The study examines the vernacular and Latin tales lyrics epics and prose compositions of Arabic English French German Greek Icelandic Italian Spanish and Welsh authors Three different strands of the apology tradition can be proposed The first and most pervasive strand features apologies to pagan deities and later to God The second most important strand contains literary apologies made to an earthly audience usually of women A third strand occurs more rarely and contains apologies for varying literary offenses that are directed to a more general audience The medieval theory of language privileges an imitation of the Christian master narrative and a hierarchical medieval view of authorship These notions express a medieval philosophical concern about language and its role and therefore the role of the author in cosmic history Despite the fact that women apologize for different purposes and reasons their examples illustrate on yet another level the antifeminist subtext inherent in the entire apology tradition Overall the apology tradition characterized by interauctoriality intertextuality and intratextuality enables self critical authors to refer not only backward but also primarily forward making the medieval apology a progressive strategy that engenders new literature This study would be relevant to all medievalists especially those interested in literature and the history of ideas      *Philippine Short Stories, 1925-1940*

Leopoldo Y. Yabes, 1997 This anthology puts together some sixty six short stories in English written by Filipino authors within forty years following the introduction of English in the Philippines Originally published in periodicals now long out of circulation they have been given this more enduring form through the efforts of Leopoldo Y Yabes a well known literary critic scholar and educator Students of Philippine literature will find this anthology invaluable as a reference and will appreciate the discussion and information provided by the editor in his introductory essays      *Romanticism* James Barbour, Thomas Quirk, 2016-03-31 First published in 1986 This outstanding collection of major essays by some of America s finest literary scholars and critics provides students of American literature with a unique perspective of America s Romantic literature

Some of these essays make connections between authors or define Romanticism in terms of one of the works others address major issues during the period others offer a framework for specific works and finally some give interpretations for the reader All of the essays offer distinctive voices that will engage students in this rich and memorable period of American literature      *Story and Reality* Robert Paul Roth, 2004-12-10 No Christian will dispute the importance of properly understanding the gospel And throughout the centuries the function of theology has been to aid that understanding In good part as the author of this challenging study indicates theology has turned to philosophy history sociology or yet other disciplines in an effort to make its own message clear that is theology has used philosophical or historical or sociological concepts of reality and has then attempted to impose upon reality so defined a deeper theological significance But that effort

Robert Roth believes can never be completely successful since each of these disciplines valuable as they are in themselves are compelled by their nature to reduce both reality and theology to the level of what is human thus leaving out the very thing that theology is all about God Roth contends that theology must use as its model what he terms story the kind of large comprehensive tale or myth that takes into account the basic facts of the universe and human existence The nature of story he tells us is essentially dramatic filled with tension between opposing forces The conflict between good and evil for example or between hope and despair has always characterized great literature And it is precisely those same conflicts that characterize reality Little wonder that God s account of reality the gospel is cast in story form Story and Reality is an exciting and unusual approach to the question of what constitutes God s message to humanity it offers as well new insights into the nature of literature and the role story can play in helping us properly apprehend reality Roth demands an effort on the part of his readers but it is an effort that will be richly repaid The Outlook ,1905 Chaucer Reads "The Divine Comedy" Karla Taylor,1989 A Stanford University Press classic *A New Literary History of Modern China* David Der-wei Wang,2017-05-22 Featuring over 140 Chinese and non Chinese contributors this landmark volume edited by David Der wei Wang explores unconventional forms as well as traditional genres emphasizes Chinese authors influence on foreign writers as well as China s receptivity to outside literary influences and offers vibrant contrasting voices and points of view **The Price of Scarlet** Brianna Noll,2017-02-21 A honeycomb long vacated by honeybees still possesses an echo of the swarm a lingering song Living things are made and make themselves My bones came first Like long needles they knitted muscle and tendon and tissue and skin Filled themselves with marrow In her debut collection Brianna Noll fuses the scientific and fantastic posing probing questions that explore the paradoxes of experience Interweaving themes of creation art and nature the poet gives voice to animate and inanimate figures such as woolly mammoths star nosed moles cells mylar balloons and puzzle boxes Her vivid poems obscure the line between what is literal and what is figurative The result is alchemic and ethereal each verse intricately layered with sharp observation as well as emotional and intellectual exploration and questioning Collectively the poems draw significantly on Japanese culture and language in their imagery with cultural nuances and implications embedded in words and expressions They tend to be tied not to subjects but to ways of seeing and considering the world Noll s lyrical voice reflects a curious and imaginative approach that results in tight poems typically enjambed which build together into a thoughtful collection Her work offers ways of seeing and considering the world that exceed our lived experience begging the reader to consider how far we are willing to go when faced with roadblocks doubts and uncertainties
