Rokeah, 2022-07-11 and Jews David Charles Riede, J. Edwards, 1996 Publisher Her Share of the Blessings Ross Shepard Kraemer, 1994-01-20 In this pathbreaking volume Ross Shepard description Kraemer provides the first comprehensive look at women's religions in Greco Roman antiquity. She vividly recreates the religious lives of early Christian Jewish and pagan women with many fascinating examples Greek women s devotion to goddesses rites of Roman matrons Jewish women in rabbinic and diaspora communities Christian women s struggles to exercise authority and autonomy and women s roles as leaders in the full spectrum of Greco Roman religions In every case Kraemer reveals the connections between the social constraints under which women lived and their religious beliefs and practices The relationship among female autonomy sexuality and religion emerges as a persistent theme Analyzing the

monastic Jewish Therapeutae and various Christian communities Kraemer demonstrates the paradoxical liberation which women achieved by rejection of sexuality the body and the female In the epilogue Kraemer pursues the disturbing implications such findings have for contemporary women Based on an astonishing variety of primary sources Her Share of the Blessings is an insightful work that goes beyond the limitations of previous scholarship to provide a more accurate portrait of women in the Greco Roman world On Pagans, Jews, and Christians Arnaldo Momigliano, 1987-11 An analysis of the relationships between pagan Greece imperial Rome Judaism and Christianity **Response to the Other** Robert P. Vande Kappelle, 2020-10-20 Human beings seek meaning and purpose To do so we tell stories about the past which we call history and stories about what will occur in the future constructed from memory and imagination History is not a subject we study but one we live History is our medium as water is to fish No period of antiquity is more informative and influential for Western civilization than the Greco Roman the period from the time of Alexander the Great to the fall of the Roman Empire an age that saw the emergence of Judaism and Christianity twin traditions shaped against the background of pagan dominance The meeting between Jew and Greek Christian and pagan revolutionized the ancient world It represented a crucial moment in the history of Western society when politics economics culture and religion took a new turn In time these separate streams mingled and merged forming the single and ever widening current that gave birth to modernity Moving against the stream of religious exclusivism this book does not seek to further the cause of one particular religious perspective but rather to gain insight on how ancient pagans Jews and Christians interacted with one another This study advances contemporary attempts at dialogue and cooperation enabling people of differing agendas to focus their energy on finding solutions to problems plaguing our planet Response to the Other has much to offer specialists and non specialists alike This work can be used as a study guide the guestions at the end of each chapter suitable for individual or group use Gate of Christendom Nora Berend, 2001-05-17 Modern life in increasingly heterogeneous societies has directed attention to patterns of interaction often using a framework of persecution and tolerance This study of the economic social legal and religious position of three minorities Jews Muslims and pagan Turkic nomads argues that different degrees of exclusion and integration characterized medieval non Christian status in the medieval Christian kingdom of Hungary between 1000 and 1300 A complex explanation of non Christian status emerges from the analysis of their economic social legal and religious positions and roles Existence on the frontier with the nomadic world led to the formulation of a frontier ideology and to anxiety about Hungary's detachment from Christendom which affected policies towards non Christians The study also succeeds in integrating central European history with the study of the medieval world while challenging such current concepts in medieval studies as frontier societies persecution and tolerance ethnicity and the other **Apologetics in the** Roman Empire Mark J. Edwards, Martin Goodman, Simon Price, Chris Rowland, 1999-06-17 This book is the first to tackle the origins and purpose of literary religious apologetic in the first centuries of the Christian era by discussing on their own terms

texts composed by pagan and Jewish authors as well as Christians Previous studies of apologetic have focused primarily on the Christian apologists of the second century These and other Christian authors are represented also in this volume but in addition experts in the religious history of the pagan world in Judaism and in late antique philosophy examine very different literary traditions to see to what extent techniques and motifs were shared across the religious divide Each contributor has investigated the probable audience the literary milieu and the specific social political and cultural circumstances which elicited each apologetic text In many cases these questions lead on to the further issue of the relation between the readers addressed by the author and the actual readers and the extent to which a defined literary genre of apologetic developed These studies ranging in time from the New Testament to the early fourth century and including novel contributions by specialists in ancient history Jewish history ancient philosophy the New Testament and patristics will put the study of ancient religious apologetic on to a new footing Pagans and Christians in Late Antiquity A. D. Lee, 2000 In this book A D Lee charts the rise to dominance of Christianity in the Roman empire Using translated texts he explains the fortunes of both Pagans and Christians from the upheavals of the 3rd Century to the increasingly tumultuous times of the 5th and 6th centuries The book also examines important themes in Late Antiquity such as the growth of monasticism the emerging power of bishops and the development of pilgrimage and looks at the fate of other significant religious groups including the Jews Zoroastrians and Manichaeans Jews, Christians and Jewish Christians in Antiquity James Carleton Paget, 2010 The book which consists of some previously published and unpublished essays examines a variety of issues relevant to the study of ancient Judaism and Christianity and their interaction including polemic proselytism biblical interpretation messianism the phenomenon normally described as Jewish Christianity and the fate of the Jewish community after the Bar Kokhba revolt a period of considerable importance for the emergence not only of Judaism but also of Christianity The volume typically for a collection of essays does not lay out a particular thesis If anything binds the collection together it is the author's attempt to set out the major fault lines in current debate about these disputed subjects and in the process to reveal their complex and entangled character A Century of Miracles Harold Allen Drake, 2017 The fourth century of our common era began and ended with a miracle Constantine s famous Vision of the Cross at one end and Theodosius victory bearing prayer at the other In this book historian H A Drake shows how miracles in this century forever altered the way Christians pagans and Jews Between Pagan and Christian Christopher P. Jones, 2014-03-10 Who and what understood themselves and each other was pagan depended on the outlook of the observer as Christopher Jones shows in this fresh and penetrating analysis Treating paganism as a historical construct rather than a fixed entity Between Christian and Pagan uncovers the fluid ideas rituals and beliefs that Christians and pagans shared in Late Antiquity Memory in Jewish, Pagan and Christian Societies of the Graeco-Roman World Doron Mendels, 2004-07-29 The ten studies in this book explore the phenomenon of public memory in societies of the Graeco Roman period Mendels begins with a concise discussion of the historical canon that

emerged in Late Antiquity and brought with it the distorted memory of ancient history in Western culture The following nine chapters each focus on a different source of collective memory in order to demonstrate the patchy and incomplete associations ancient societies had with their past including discussions of Plato's Politeia a site of memory of the early church and the dichotomy existing between the reality of the land of Israel in the Second Temple period and memories of it Throughout the book Mendels shows that since the societies of Antiquity had associations with only bits and pieces of their past these associations could be slippery and problematic constantly changing multiplying and submerging Memories true and false oral and inscribed provide good evidence for this fluidity *Magic in the Roman World* Naomi Janowitz,2001 A lively volume exploring the use and abuse of the word magic in late antique texts
