Painter Of Darkness Leon Golub And His Times:

A Painter of Darkness Gerald Marzorati, 1992-01-01 **Leon Golub** Jon Bird, 2000 Now in his late 70s Leon Golub is a leading exponent of history painting painting as a narrative symbolic expression of global social and political relations and of the realities of power In this book published to accompany a major retrospective exhibition traveling to Ireland England and the United States Jon Bird examines the artist's work from the classically influenced early paintings through depictions of conflict and masculine aggression to compelling images of the last two decades Despite the widespread critical attention his work has received the range and extent of his practice and its complex interweaving of the iconographic traditions of both high and popular art have not been properly examined As a history painter Golub is acutely aware of the antecedents to his own imagery and symbolism part of Jon Bird's critical project is to track and define the artist's relationship to modernism Making a case for Golub's practice of critical realism that also takes account of the unconscious Bird focuses on two themes that dominate Golub's work how his art figures the body as a sign for social and psychic identity and what might be termed the symbolic expression of social space *American Artists Against War, 1935-2010* David McCarthy, 2015-07-07 Artists against war and fascism Doom End your silence A network of artist activists Not in our name Kill for Peace Matthew Israel, 2013-07-15 The book addresses chronologically the most striking reactions of the art world to the rise of military engagement in Vietnam then in Cambodia Guillaume LeBot Critique d'art The Vietnam War 1964-1975 divided American society like no other war of the twentieth century and some of the most memorable American art and art related activism of the last fifty years protested U.S. involvement At a time when Pop Art Minimalism and Conceptual Art dominated the American art world individual artists and art collectives played a significant role in antiwar protest and inspired subsequent generations of artists This significant story of engagement which has never been covered in a book length survey before is the subject of Kill for Peace Writing for both general and academic audiences Matthew Israel recounts the major moments in the Vietnam War and the antiwar movement and describes artists' individual and collective responses to them He discusses major artists such as Leon Golub Edward Kienholz Martha Rosler Peter Saul Nancy Spero and Robert Morris artists groups including the Art Workers Coalition AWC and the Artists Protest Committee APC and iconic works of collective protest art such as AWC's Q And Babies A And Babies and APC's The Artists Tower of Protest Israel also formulates a typology of antiwar engagement identifying and naming artists' approaches to protest These approaches range from extra-aesthetic actions advertisements strikes walk outs and petitions without a visual aspect to advance memorials which were war memorials purposefully created before the war's end that criticized both the war and the form and content of traditional war memorials Accessible and informative Art Libraries Society of North America A Concise History Of American Painting And Sculpture Matthew Baigell, 2018-02-23 This clear thorough and reliable survey of American painting and sculpture from colonial times to the present day covers all the major artists and their works outlines the social and cultural backgrounds of

each period and includes 409 illustrations integrated with the text Although some determining factors in American art are considered Matthew Baigell views the rich and diverse achievements of American art as the result of the efforts and talents of a pluralistic society rather than as fitting into a particular mold This edition includes corrections and revisions to the text an updated bibliography and 13 new illustrations

H.C. Westermann at War David McCarthy, 2004 This book examines the antiwar work of one American artist in relation to the cultural history of the Cold War The study provides new and detailed information on this important artist while also contributing to the study of masculinity dissent art violence and war in the last half of the twentieth century The study clearly reveals that artists protests against American foreign policy began well before the official U S entry in the Vietnam War and that not all combat veterans looked back fondly on their experience of the Good War Finally in drawing attention to the challenges of being a man in a hostile world Westermann s art enters into a much broader consideration of gender long before this issue became topical in contemporary art director of the American Studies Program at Rhodes College in Tennessee

Modern Jewish Art Ori Soltes, 2019-01-07 In *Modern Jewish Art* Definitions Problems and Opportunities Ori Z Soltes considers both the emerging and evolving discussion on and the expanding array of practitioners of Jewish art in the past two hundred years He notes the developing problem of how to define Judaism in the 19th century as a religion a culture a race a nation a people and thus the complications for placing Jewish art under the extended umbrella of religion and the arts The fluidity with which one must engage the subject is reflected in the broadening conceptual and visual vocabulary the extended range of subject foci and media and the increasingly rich analytical approaches to the subject that have surfaced particularly in the past fifty years Well known and little known artists are included in a far ranging discussion of painting sculpture photography video installations ceremonial objects and works that blur the boundaries between categories

Leon Golub Leon Golub, 1997 Even in his earliest work Leon Golub rejected the formalism of Abstract Expressionism and countered it with an activist political approach to figurative painting This collection of his writings includes interviews with the artist

Paper Graveyards Eduardo Cadava, 2021-10-26 A generously illustrated training manual for reading images discussing work by Félix Nadar Roland Barthes Fazal Sheikh Susan Meiselas and others *Paper Graveyards* is neither a work of traditional art history nor one of literary criticism It is not strictly a history of ideas either notwithstanding its very obvious erudition Rather in drawing upon all of these methods and approaches and with extraordinary attention to language and style Cadava s writing examines the spectacular explosion of images during the last twenty years as a prompt to discuss not simply specific images but the role and place of these images in our everyday life Considering work by Félix Nadar Roland Barthes Leon Golub

Nancy Spero Fazal Sheikh Susan Meiselas and others Cadava delineates different modes of reading that taking their point of departure from the conviction that the past the present and the future are always bound together provide us with a training manual of sorts for understanding visual material in the twenty first century In the process these generously illustrated essays actively expand our sense of literacy by reconstructing the networks of relations that inhabit the plural worlds of images and create a critical genealogy of what we still call an image even when with every day that passes we perhaps understand less and less what this might mean

Jim Kobak's Kirkus Reviews, 1990 *Jewish-American Artists and the Holocaust* Matthew Baigell, 1997 Jewish themes in American art were not very visible until the last two decades although many famous twentieth century artists and critics were and are Jewish Few artists responded openly to the Holocaust until the 1960s when it finally began to act as a galvanizing force allowing Jewish American artists to express their Jewish identity in their work Baigell describes how artists initially deflected their responses into abstract forms or by invoking biblical and traditional figures and then in more recent decades confronted directly Holocaust imagery and memory He traces the development of artistic work from the late 1930s to the present in a moving study of a long overlooked topic in the history of American art
