Szabo, 2007 During the 1870s Cheyenne and Kiowa prisoners of war at Fort Marion Florida graphically recorded their responses to incarceration in drawings that conveyed both the present reality of imprisonment and nostalgic memories of home The Silberman Collection is an unusually complete group of images that illustrate the artists fascination with the world outside the southern plains their living conditions and survival strategies as prisoners and their reminiscences of pre reservation life Indigenous War Painting of the Plains Arni Brownstone, 2024-07-23 In the nineteenth and early twentieth centuries the Indigenous peoples of the Great Plains practiced an archival art narrating war exploits in large scale paintings executed on animal hide robes shirts tipi covers and tipi liners Essentially autobiographical the paintings were worn and lived in by the men whose war exploits they portrayed and were made to be read by the public at large Executed in a pictorial narrative style and documenting actual events these paintings blend visual art and history Indigenous War Painting of the Plains is the first comprehensive look at this important North American art form covering the full corpus of war paintings from fourteen tribes across the plains Two impediments have previously made such a book impractical photography alone falls short of rendering war paintings for the printed page and only about half of the surviving works have reliable documentation on their cultural origins Arni Brownstone surmounts these difficulties by producing precise electronic redrawings and by using well documented paintings to inform poorly documented examples bolstered by a careful examination of collection histories Featuring some 300 photographs and electronic redrawings the book focuses on 83 paintings organized into four chapters covering the paintings of tribes associated with a specific geographical sphere of artistic influence Four appendixes feature paintings combined with translations by Indigenous collaborators who had intimate knowledge of the depicted events

Offering vivid access to the key works of war painting preserved in 37 museums throughout North America and Europe *Indigenous War Painting of the Plains* illuminates distinctions between painting styles of different tribes reveals how they influenced one another and changed over time and conveys a deep understanding of how war painting developed in relation to profound social changes in Plains Indian cultures **Native Moderns** Bill Anthes,2006-11-03 This lavishly illustrated art history situates the work of pioneering mid twentieth century Native American artists within the broader canon of American modernism **American Indian Art Magazine** ,2003 **Crafting an Indigenous Nation** Jenny Tone-Pah-Hote,2019-01-10 In this in depth interdisciplinary study Jenny Tone Pah Hote reveals how Kiowa people drew on the tribe s rich history of expressive culture to assert its identity at a time of profound challenge Examining traditional forms such as beadwork metalwork painting and dance Tone Pah Hote argues that their creation and exchange were as significant to the expression of Indigenous identity and sovereignty as formal political engagement and policymaking These cultural forms she argues were sites of contestation as well as affirmation as Kiowa people used them to confront external pressures express national identity and wrestle with changing gender roles and representations Combatting a tendency to view Indigenous cultural production primarily in terms of resistance to settler colonialism Tone Pah Hote expands existing work on Kiowa culture by focusing on acts of creation and material objects that mattered as much for the nation s internal and familial relationships as for relations with those outside the tribe In the end she finds that during a time of political struggle and cultural dislocation at the turn of the twentieth century the community s performative and expressive acts had much to do with the persistence survival and adaptation of the Kiowa nation **Jaune Quick-to-See Smith** Carolyn Kastner,2013-10-15 The first full length critical analysis of the paintings of Jaune Quick to See Smith this book focuses on Smith s role as a modernist in addition to her status as a wellknown Native American artist With close readings of Smith s work Carolyn Kastner shows how Smith simultaneously contributes to and critiques American art and its history Smith has distinguished herself as a modernist both in her pursuit of abstraction and her expressive technique but too often her identity as a Native American artist has overshadowed these aspects of her work Addressing specific themes in Smith s career Kastner situates Smith within specific historical and cultural moments of American art comparing her work to the abstractions of Kandinsky and Mir as well as to the pop art of Rauschenberg and Johns She discusses Smith s appropriation of pop culture icons like the Barbie doll reimaged by the artist as Barbie Plenty Horses As Kastner considers how Smith constructs each new series of artworks within the artistic social and political discourse of its time she defines her contribution to American modernism and its history Discussing the ways in which Smith draws upon her cultural heritage both Native and non Native Kastner demonstrates how Smith has expanded the definitions of American and modernist art

Material Vernaculars Jason Baird Jackson,2016-10-03 The role of objects and images in everyday life are illuminated incisively in *Material Vernaculars* which combines historical ethnographic and object based methods across a diverse range

of material and visual cultural forms The contributors to this volume offer revealing insights into the significance of such practices as scrapbooking folk art produced by the elderly the wedding coat in Osage ceremonial exchanges temporary huts built during the Jewish festival of Sukkot and Kiowa women s traditional roles in raiding and warfare While emphasizing local vernacular culture the contributors point to the ways that culture is put to social ends within larger social networks and within the stream of history While attending to the material world these case studies explicate the manner in which the tangible and intangible the material and the meaningful are constantly entwined and co constituted

Arapaho Women's Quillwork Jeffrey D. Anderson, 2013-02-11 More than a hundred years ago anthropologists and other researchers collected and studied hundreds of examples of quillwork once created by Arapaho women Since that time however other types of Plains Indian art such as beadwork and male art forms have received greater attention In Arapaho Women s Quillwork Jeffrey D Anderson brings this distinctly female art form out of the darkness and into its rightful spotlight within the realms of both art history and anthropology Beautifully illustrated with more than 50 color and black and white images this book is the first comprehensive examination of quillwork within Arapaho ritualized traditions Until the early twentieth century and the disruption of removal porcupine quillwork was practiced by many indigenous cultures throughout North America For Arapahos quillwork played a central role in religious life within their most ancient and sacred traditions Quillwork was manifest in all life transitions and appeared on paraphernalia for almost all Arapaho ceremonies Its designs and the meanings they carried were present on many objects used in everyday life such as cradles robes leanback covers moccasins pillows and tipi ornaments liners and doors Anderson demonstrates how through the action of creating quillwork Arapaho women became central participants in ritual life often studied as the exclusive domain of men He also shows how quillwork challenges predominant Western concepts of art and creativity adhering to sacred patterns passed down through generations of women it emphasized not individual creativity but meticulous repetition and social connectivity an approach foreign to many outside observers Drawing on the foundational writings of early nineteenth century ethnographers extensive fieldwork conducted with Northern Arapahos and careful analysis of museum collections Arapaho Women s Quillwork masterfully shows the importance of this unique art form to Arapaho life and honors the devotion of the artists who maintained this tradition for so many generations

Mound Builders and Monument Makers of the Northern Great Lakes, 1200-1600 Meghan C L Howey, 2012-11-20 Rising above the northern Michigan landscape prehistoric burial mounds and impressive circular earthen enclosures bear witness to the deep history of the region s ancient indigenous peoples These mounds and earthworks have long been treated as isolated finds and have never been connected to the social dynamics of the time in which they were constructed a period called Late Prehistory In Mound Builders and Monument Makers of the Northern Great Lakes 1200 1600 Meghan C L Howey uses archaeology to make this connection She shows how indigenous communities of the northern Great Lakes used earthen structures as gathering places for ritual and social interaction which maintained

connected egalitarian societies in the process Examining every available ceramic sherd from every northern earthwork Howey combines regional archaeological investigations with ethnohistory analysis of spatial relationships and collaboration with tribal communities to explore changes in the area s social setting from 1200 to 1600 During this time cultural shifts such as the adoption of maize horticulture led to the creation of the earthen constructions Burial mounds were erected marking claims to resources and defining areas for local ritual gatherings while massive circular enclosures were constructed as intersocietal ceremonial centers Together Howey shows these structures made up part of an interconnected purposefully designed cultural landscape When societies incorporated the earthworks into their egalitarian social and ritual behaviors the structures became something more ceremonial monuments The first systematic examination of earthen constructions in what is today Michigan Mound Builders and Monument Makers of the Northern Great Lakes 1200 1600 reveals complicated indigenous histories that played out in the area before European contact Howey s richly illustrated investigation increases our understanding of the diverse cultures and dynamic histories of the pre Columbian ancestors of today s Great Lake tribes **Edgar Heap of Birds** Bill Anthes,2015-08-27

For over three decades contemporary Native American artist Hock E Aye Vi Edgar Heap of Birds has pursued a disciplined practice in multiple media having shown his paintings drawings prints and text based conceptual art throughout numerous national and international galleries and public spaces In the first book length study of this important artist Bill Anthes analyzes Heap of Birds s art and politics in relation to the international contemporary art scene Native American history and settler colonialism Foregrounding how Heap of Birds roots his practice in Cheyenne spirituality and an indigenous way of seeing and being in the world Anthes describes how Heap of Birds likens his art to sharp rocks weapons delivering trenchant critiques of the loss of land life and autonomy endured by Native Americans Whether appearing as interventions in public spaces or in a gallery Heap of Birds s carefully honed artworks pose questions about time modernity identity power and the meaning and value of contemporary art in a global culture A Strange Mixture Sascha T. Scott,2015-01-21

Attracted to the rich ceremonial life and unique architecture of the New Mexico pueblos many early twentieth century artists depicted Pueblo peoples places and culture in paintings These artists encounters with Pueblo Indians fostered their awareness of Native political struggles and led them to join with Pueblo communities to champion Indian rights In this book art historian Sascha T Scott examines the ways in which non Pueblo and Pueblo artists advocated for American Indian cultures by confronting some of the cultural legal and political issues of the day Scott closely examines the work of five diverse artists exploring how their art was shaped by and helped to shape Indian politics She places the art within the context of the interwar period 1915 30 a time when federal Indian policy shifted away from forced assimilation and toward preservation of Native cultures Through careful analysis of paintings by Ernest L Blumenschein John Sloan Marsden Hartley and Awa Tsireh Alfonso Roybal Scott shows how their depictions of thriving Pueblo life and rituals promoted cultural preservation and challenged the pervasive romanticizing theme of the

vanishing Indian Georgia O Keeffe s images of Pueblo dances which connect abstraction with lived experience testify to the legacy of these political and aesthetic transformations Scott makes use of anthropology history and indigenous studies in her art historical narrative She is one of the first scholars to address varied responses to issues of cultural preservation by aesthetically and culturally diverse artists including Pueblo painters Beautifully designed this book features nearly sixty artworks reproduced in full color

Shifting Grounds Kate Morris,2019-03-22 Foregrounds the importance of landscape within twenty first century Indigenous art A distinctly Indigenous form of landscape representation is emerging among contemporary Indigenous artists from North America For centuries landscape painting in European art typically used representational strategies such as single point perspective to lure viewers and settlers into the territories of the old and new worlds In the twentieth century abstract expressionism transformed painting to encompass something beyond the visual world and later minimalism and the Land Art movement broadened the genre of landscape art to include sculptural forms

and site specific installations In *Shifting Grounds* art historian Kate Morris argues that Indigenous artists are expanding and reconceptualizing the forms of the genre expressing Indigenous attitudes toward land and belonging even as they draw upon mainstream art practices The resulting works evoke all five senses from the overt sensuality of Kay WalkingStick's tactile paintings to the eerie soundscapes of Alan Michelson's videos to the immersive environments of Kent Monkman's dioramas this art resonates with a fully embodied and embedded subjectivity *Shifting Grounds* explores themes of presence and absence survival and vulnerability memory and commemoration and power and resistance illuminating the artists' engagement not only with land and landscape but also with the history of representation itself
