Gr. 708 in the Saltykov-Schedrin State Public Library, Leningrad Dionysius of Fournas, Paul Hetherington, 1974 Approaches to Byzantine Architecture and its Decoration Mark J. Johnson, Amy Papalexandrou, 2016-12-05 The fourteen essays in this collection demonstrate a wide variety of approaches to the study of Byzantine architecture and its decoration a reflection of both newer trends and traditional scholarship in the field The variety is also a reflection of Professor Curcic's wide interests which he shares with his students These include the analysis of recent archaeological discoveries recovery of lost monuments through archival research and onsite examination of material remains reconsidering traditional typological approaches often ignored in current scholarship fresh interpretations of architectural features and designs contextualization of monuments within the landscape tracing historiographic trends and mining neglected written sources for motives of patronage The papers also range broadly in terms of chronology and geography from the Early Christian through the post Byzantine period and from Italy to Armenia Three papers examine Early Christian monuments and of these two expand the inquiry into their architectural afterlives Others discuss later monuments in Byzantine territory and monuments in territories related to Byzantium such as Serbia Armenia and Norman Italy No Orthodox church being complete without interior decoration two papers discuss issues connected to frescoes in late medieval Balkan churches Finally one study investigates the continued influence of Byzantine palace architecture long after the fall of Constantinople **The Oxford Handbook of Byzantine Art and Architecture** Ellen C. Schwartz, 2021-11-19 Byzantine art has been an underappreciated field often treated as an adjunct to the arts of the medieval West if considered at all In illustrating the richness and diversity of art in the Byzantine world this handbook will help establish the subject as a distinct field worthy of serious inquiry Essays consider Byzantine art as art made in the eastern Mediterranean world including the Balkans Russia the Near East and north Africa between the years 330 and 1453 Much of this art was made for religious purposes created to enhance and beautify the Orthodox liturgy and worship space as well as to serve in a royal or domestic context Discussions in this volume will consider both aspects of this artistic creation across a wide swath of geography and a

long span of time The volume marries older object based considerations of themes and monuments which form the backbone of art history to considerations drawing on many different methodologies sociology semiotics anthropology archaeology reception theory deconstruction theory and so on in an up to date synthesis of scholarship on Byzantine art and architecture The Oxford Handbook of Byzantine Art and Architecture is a comprehensive overview of a particularly rich field of study offering a window into the world of this fascinating and beautiful period of art

Visual Arts in the Worshiping Church DeBoer,2016 Although numerous studies have examined biblical and theological rationales for using the visual arts in worship this book by Lisa J DeBoer fills in a piece of the picture missing so far the social dimensions of both our churches and the various art worlds represented in our congregations The first part of the book looks at Orthodoxy Catholicism and Protestantism in turn including case studies of specific congregations showing how each tradition s use of the visual arts reveals an underlying ecclesiology DeBoer then focuses on six themes that emerge when Orthodox Catholic and Protestant uses of the visual arts are examined together the arts as expressions of the church s local and universal character the meanings attributed to particular styles of art for the church the role of the arts in enculturating the gospel and more DeBoer s Visual Arts in the Worshiping Church will focus and deepen the thinking of pastors worship leaders artists students and laypeople regarding what the arts might do in the midst of their congregations

The Riddle of the Image Spike Bucklow,2014-03-15 From monumental church mosaics to fresco wall paintings the medieval period produced some of the most impressive art in history But how in a world without the array of technology and access to materials that we now have did artists produce such incredible works often on an unbelievably large scale In The Riddle of the Image research scientist and art restorer Spike Bucklow discovers the actual materials and methods that lie behind the production of historical paintings Examining the science of the tools and resources as well as the techniques of medieval artists Bucklow adds new layers to our understanding and appreciation of paintings in particular and medieval art more

generally He uses case studies including The Wilton Diptych one of the most popular paintings in the National Gallery in London and the altarpiece in front of which English monarchs were crowned for centuries and analyses of these works presenting previously unpublished technical details that shed new light on the mysteries of medieval artists The first account to examine this subject in depth for a general audience The Riddle of the Image is a beautifully illustrated look at the production of medieval paintings

Icons in the Western Church Jeana Visel, 2016 Within the Eastern tradition of Christianity the eikon or religious image has long held a place of honor In the greater part of Western Christianity however discomfort with images in worship both statues and panel icons has been a relatively common current particularly since the Reformation In the Roman Catholic Church after years of using religious statues the Second Vatican Council s call for noble simplicity in many cases led to a stripping of images that in some ways helped refocus attention on the eucharistic celebration itself but also led to a starkness that has left many Roman Catholics unsure of how to interact with the saints or with religious images at all Today Western interest in panel icons has been rising yet we lack standards of quality or catechesis on what to do with them This book makes the case that icons should have a role to play in the Western Church that goes beyond mere decoration Citing theological and ecumenical reasons Visel argues that with regard to use of icons the post Vatican II Roman Catholic Church needs to give greater respect to the Eastern tradition While Roman Catholics may never interact with icons in quite the same way that Eastern Christians do we do need to come to terms with what icons are and how we should encounter them

The Sign of the Cross Daniel Rancour-Laferrriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour-Laferrriere's book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion

Devotion to St. Anne in Texts and Images Elena Ene D-Vasilescu, 2018-06-21 St Anne was popular with representatives of various segments of society from monks nuns members of the clergy royal patrons to churchgoers of every rank This book looks into both the public and private worship of this holy woman and brings to the surface some underexposed aspects of it It does so through the examination of manuscripts monumental art relics sculpture and texts of various genres The contributors employ a historical as well as a theological perspective on how the cult of St Anne sometimes also with glimpses concerning that of Joachim established itself referring to areas in Europe which are not frequently discussed in English language scholarship This new contribution to the field of hagiography will be of interest to academics from a variety of research fields including theologians Byzantinists art and church historians and historians of a larger scope

Images of the Byzantine World Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings

in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena

Mary, the Apostles, and the Last Judgment Stanislava Kuzmova, Andrea-Bianka Znorovszky, 2020-12-31 This volume presents a timely contribution to the growing body of scholarship on the apocryphal writings and their reception in the Middle Ages especially in connection with visual representation It aims to bridge what often remains disconnected the visual art and the written text the early Christian roots and medieval reception the East and the West as well as methodologies of various disciplines The studies in this volume firstly investigate issues related to the Virgin Mary and through them also the status function and identity of women Mary and the female element thus represent significant models and or background figures in fields pertaining to theology religious studies textual studies manuscript studies and art history in a trans disciplinary perspective Secondly the studies focus on the apostles and the Last Judgment their visual representations and the use of apocryphal sources The volume is divided in two parts according to two major topics Part I dealing with Mary in the Apocrypha and Part II focusing on the Apostles and the Last Judgment
