Impressionism John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes The Impressionists at First Hand (Second) (World of Art) Bernard Denvir, 2023-11-14 An updated edition of this classic collection of letters critical reviews and reminiscences by impressionist artists and their contemporaries The impressionists Claude Monet douard Manet Edgar Degas Berthe Morisot Camille Pissarro Pierre Auguste Renoir Alfred Sisley and others are probably the most popular of all artistic schools Their struggle to impose a new vision is one of the most absorbing stories in the whole history of art With imagination and insight art historian Bernard Denvir brings impressionism into focus by showing it through the eyes of the artists themselves and their contemporaries against the background of the time Through letters critical reviews statements and reminiscences of the people who were there the story of this groundbreaking art movement comes alive This was the age of innovation political liberalization emergent photography and modern ideas about perception The impressionists had new ways of painting but they also had a new world to paint This revised edition now features full color reproductions of art throughout and an updated bibliography **Mapping Impressionist Painting in Transnational Contexts** Emily C. Burns, Alice M. Rudy Price, 2021-05-03 This book offers microhistories related to the transnational circulations of impressionism in the late nineteenth and early twentieth centuries The contributors rethink the role of French impressionism in shaping these iterations by placing France within its global and imperialist context and arguing that impressionisms might be framed through the mobility studies concept of constellations of mobility Artists engaging with impressionism in France as in other global contexts relied on responded to appropriated and resisted elements of form and content based on fluid and interconnected political realities and market structures Written by scholars and curators the chapters demand reconsideration of impressionism as a historical construct and the meanings assigned to that term This project frames future discussion in art history cultural studies and global studies on the politics of appropriating impressionism **The Impressionists at First Hand** Bernard Denvir, 2023-09-07 The Impressionists Monet Manet Degas

Morisot Pissarro Renoir Sisley and others are probably the most popular of all artistic schools Their struggle to impose a new vision is one of the most absorbing in the whole history of art With imagination and insight art historian Bernard Denvir brings Impressionism into focus by showing it through the eyes of the artists themselves and their contemporaries against the background of the time Through letters critical reviews statements and reminiscences whether explosive or appreciative blinkered or perceptive of the people who were there the story of this ground breaking art movement comes alive This was the age of innovation political liberalization emergent photography and modern ideas about perception The Impressionists had new ways of painting but they also had a new world to paint This revised edition now features full colour reproductions of art throughout and an updated bibliography

Color in the Age of Impressionism Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumi re brothers perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visuality Color in the Age

of Impressionism adds a dynamic new layer to our understanding of visual and material culture *Pissarro, Neo-Impressionism, and the Spaces of the Avant-Garde* Martha Ward, 1996-07 Martha Ward tracks the development and reception of neo impressionism revealing how the artists and critics of the French art world of the 1880s and 1890s created painting s first modern vanguard movement Paying particular attention to the participation of Camille Pissarro the only older artist to join the otherwise youthful movement Ward sets the neo impressionists individual achievements in the context of a generational struggle to redefine the purposes of painting She describes the conditions of display distribution and interpretation that the neo impressionists challenged and explains how these artists sought to circulate their own work outside of the prevailing system Paintings Ward argues often anticipate and respond to their own conditions of display and use and in the case of the neo impressionists the artists relations to market forces and exhibition spaces had a decisive impact on their art Ward details the changes in art dealing and chronicles how these and new freedoms for the press made artistic vanguardism possible while at the same time affecting the content of painting She also provides a nuanced account of the neo impressionists engagements with anarchism and traces the gradual undermining of any strong correlation between artistic allegiance and political direction in the art world of the 1890s Throughout there are sensitive discussions of such artists as Georges Seurat and Paul Signac as well as Pissarro Yet the touchstone of the book is Pissarro s intricate relationship to the various factions of the Paris art world **Impressionists: Unveiling the Secrets of the Masters**
