Cosentino, 1984      The Representation of the Struggling Artist in America, 1800-1865 Erika Schneider, 2015-04-23

The Representation of the Struggling Artist in America 1800 1865 analyzes how American painters sculptors and writers active between 1800 and 1865 depicted their response to a democratic society that failed to adequately support them financially and intellectually Without the traditional European forms of patronage from the church or the crown American artists faced unsympathetic countrymen who were unaccustomed to playing the role of patron and less than generous in rewarding creativity It was in this unrewarding landscape that American artists in the first half of the nineteenth century employed the struggling or starving artist image to satirize the country s lack of patronage and immortalize their own struggles Through an examination of artists journals letters and biographies as well as the development of art academies and exhibition venues this study traces the evolution of a young nation that went from considering artists as mere craftsmen to recognizing them as important members of a civilized society

earliest and most successful political insiders financiers philanthropists and shapers of the emerging cultural elite during the era before the Gilded Age He was a college dropout Georgetown College who became one of the richest men in Washington A controversial figure in his own time and ours Corcoran was a masterful political shapeshifter whose chameleonlike ability to work both sides of the Mason Dixon line during and after the Civil War enabled him to thrive seamlessly between sitting out the war in Europe while rumors of treason swirled around him and then returning to the capital after the Union victory He was friendly with Robert E Lee and William Tecumseh Sherman Jefferson Davis and Daniel Webster He owned at least two individuals and worked to end Home Rule disenfranchising the voters of Washington DC and ending Reconstruction in the District He was one of the earliest consistent practitioners of the much reviled activity of lobbying And he devised the strategy to leverage public debt to finance the US prosecution of the Mexican American War Yet he also played a key role in stabilizing and merchandizing US financial securities at home and abroad created a bank that remained independent for 175 years Riggs Bank and founded the Corcoran Gallery of Art Corcoran s failings are examined along with his contributions to some of the major developments in finance and philanthropy of his era **Likeness and Landscape** Dolores Ann

Kilgo,1994 Described by his contemporaries as Daguerre s most dedicated follower Thomas M Easterly did most of his work in the relative obscurity of St Louis This lavishly illustrated account of his twenty seven year career established him as a new master in the ranks of nineteenth century photographers It will be an essential addition to the libraries of scholars and collectors Easterly s subjects range far beyond the traditional daguerrean portrait Of his surviving inventory of over 600 plates in the collection of the Missouri Historical Society over 140 are views of St Louis his native New England and the Niagara Falls region of New York Three series of American Indian portraits constitute the earliest dated photographic record of Plains tribal members A series of studio portraits of ordinary people and celebrities demonstrate a remarkable mastery of technique placing Easterly decades ahead of his time **The Admiral and the Ambassador** Scott Martelle,2014-05-01 On July 20 1792 the body of John Paul Jones Father of the American Navy was buried in the St Louis Cemetery on the outskirts of Paris The French Revolution was gathering steam and soon the unmarked location of Jones s grave was nobody s primary concern lost beneath the soil in the City of Light Luckily Jones had been sealed in a lead lined coffin filled with alcohol to preserve the body In theory if somebody could locate that coffin Jones could be returned to the United States for a proper burial That somebody was Horace Porter Civil War hero aide to General and later President Ulysses S Grant Republican Party fundraiser and US Ambassador to France from 1897 to 1905 The Admiral and the Ambassador details Porter s long relentless search for Jones s lead lined coffin first through scraps of archive material and written recollections of funeral attendees and then beneath the rickety buildings that had been constructed over the graveyard And if he ever did find the coffin he had return Jones to the United States for a worthy burial The Admiral and the Ambassador is part history part biography and part detective story and a fascinating look into the compelling real life characters who populated the first

Looking Close and Seeing Far: Samuel Seymour, Titian Ramsay Peale, and the Art of the Long Expedition, 1818-1823 , Lessons in Likeness Estill Curtis Pennington, 2011

Between 1802 when the young Kentucky artist William Edward West began to paint portraits while on a downriver journey and 1920 when the last of Frank Duveneck's students worked in Louisville a large number of notable portrait artists were active in Kentucky and the Ohio River Valley In *Lessons in Likeness* Portrait Painters in Kentucky and the Ohio River Valley 1802-1920 Estill Curtis Pennington charts the course of those artists as they painted a variety of sitters drawn from both urban and rural society The work is illustrated when possible from The Filson Historical Society collection of some four hundred portraits representing one of the most extensive holdings available for study in the region Portraiture involves artists and subjects known as sitters and is an art that combines elements of biography aesthetics and cultural history Private portraits often attract an oral history that enlivens the more colorful aspects of local tradition and culture Public portraits of towering figures such as George Washington Henry Clay and Abraham Lincoln were often reproduced in printed format to satisfy popular demand and subsequently attained an iconic timeless status *Lessons in Likeness* is organized in two parts Part One the cultural chronology serves as a backdrop to the biographies of the portrait artists This section identifies stylistic sources and significant historical moments that influenced the artists and their milieus Rather than working in isolation portrait artists were connected to the world around them and influenced by prevailing trends in their trade Early in the nineteenth century for instance Matthew Jouett journeyed to Boston for study with Gilbert Stuart and upon his return to Kentucky painted in a style that subsequently influenced an entire generation Later artists notably Oliver Frazer and William Edward West studied the lessons of Thomas Sully in Philadelphia Sully popularized the lush warmly colored and highly flattering style of portraiture practiced by many of the itinerant artists whose careers were facilitated by the introduction of steam and rail travel The Civil War provoked a dramatic shift in the cultural terrain further augmented by the rise of photography and the emergence of academic art centers Painters who had previously worked with a master painter or learned on their own were now able to study at established schools especially in Cincinnati which became one of the leading centers for the teaching of art in late nineteenth century America Several of the teachers there Frank Duveneck and Thomas Satterwhite Noble in particular had firsthand experience with avant garde European styles notably the realism and naturalism practiced in Munich and Paris in the last quarter of the nineteenth century and then taught in the art schools of New York and Philadelphia Part Two profiles the

artists from this area and period who have appeared in previous art historical literature and have an identifiable body of work represented in public and private collections Individual biographies provide details of the artists lives sources for further study and locations of works in public collections

**Born for the Shade** Klaus Lubbers,2023-10-09 This volume examines the ways in which attempts to define and delimit American nationhood effected imaginative and documentary conceptualizations of the Native American population Far reaching in its scope both in terms of the period covered roughly the period from the Declaration of Independence to the closing of the frontier and in terms of the variety and kinds of documents examined this study calls attention to the cultural and generic restraints that prevented visual and literary artists as well as statesmen and community leaders from adopting any position toward Native Americans other than a prejudicial one

**Painting Indians and Building Empires in North America, 1710Ð1840** William H. Truettner,2010-09-15 The Europeans who first explored and settled North America were endlessly intrigued by the indigenous people they found there even before the newly arrived colonials began to record the landscape they drew and painted Indians This study focuses on that practice offering a new visual perspective on westward expansion mainly through a survey of the major Indian images painted by Euro American artists before and after the American Revolution William H Truettner finds that these images were never simply the historical record they were purported to be instead they were conceived either directly or indirectly to accompany attempts to expand white hegemony across North America first by the British then by the Americans Truettner s incisive accessible readings of paintings by artists such as Benjamin West Gilbert Stuart Charles Bird King and George Catlin relate these images to social and political events of the time and tell us much about how North American tribes would fare as they fought to survive during the second half of the nineteenth century
