Pakistan and Afghanistan Marvin G. Clarke, 2013-03-01 Pakistan with the second largest Muslim population in the world is a crucial country in the international system It is an ally of the United States in the global war on terror but is also regarded as a major bastion of some of the most active jihadist organisations This book highlights and explores the paradoxes that characterise contemporary Pakistan from the simultaneous democratization and Islamization of civil society to the schizophrenic US Pakistan relationship The central theme of the book looks at Pakistan's stability paradox Commentators and analysts have over recent years often suggested that Pakistan was on the verge of state failure or collapse resulting from a myriad of dilemmas Yet remarkably the Pakistani state has proven to be more resilient This book identifies not only the factors that are contributing to Pakistan's perceived instability but also those factors that have contributed to the state's resilience Chapters explore this central paradox through three core dimensions of Pakistan's contemporary dilemmas the domestic regional and international dimensions **The Afghanistan Wars** William Maley, 2020-11-03 A whole generation has grown up in Afghanistan knowing little but the ravages of war The dramatic overthrow of the Taliban regime in 2001 was simply one event in a series of interrelated struggles which have blighted ordinary people's lives over the last three decades and which continue to interfere with reconciliation and reconstruction This new edition of *The Afghanistan Wars* provides a meticulously documented history of these successive waves of conflict From the roots of Afghanistan's slide into disorder in the late 1970s to the challenges faced by Afghan leaders following the substantial withdrawal of international forces in 2014 it explores military and diplomatic history while also offering valuable insight on humanitarian action gender medical and cultural themes Thoroughly revised in the light of the latest research the third edition also features a new final chapter which examines recent developments in Afghanistan bringing the story up to the present day and mounting a strong case for continuing support for this troubled country New to this Edition A final chapter on the recent developments in Afghanistan up to the present day Revised to take into account the considerable amount of new material published on this topic since 2009 Refreshed and updated throughout Explaining Pakistan's Foreign Policy Aparna Pande, 2011-03-16 Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism This book investigates the underlying principles of Pakistan's foreign policy from 1947 until the present day and explains the rise of Jihadism as an offshoot of

Pakistan's security concerns The book goes on to discuss that from its inception as a separate state Pakistan's foreign policy focused on seeking parity with India and escaping from an Indian South Asian identity The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies The author analyses the relationship Pakistan has with Afghanistan United States China and the Muslim world and looks at how these relationships are based on the desire that military economic and diplomatic aid from these countries would bolster Pakistan's meagre resources in countering Indian economic and military strength The book presents an interesting contribution to South Asian Studies as well as studies on International Relations and Foreign Policy

Transition in Afghanistan William Maley, 2018-04-17 This book by one of the most experienced authorities on the subject presents a deep analysis of the very difficult current situation in Afghanistan Covering a wide range of important subjects including state building democracy war the rule of law and international relations the book draws out two overarching key factors the way in which the prevailing neopatrimonial political order has become entrenched making it very difficult for any other political order to take root and the hostile region

Globalization and Human Rights Jesús Ballesteros, Encarnación Fernández Ruiz-Gálvez, Pedro Talavera, 2012-04-14 Globalisation turns out to be untenable because it does not guarantee minimum social equity peace and respect for the environment and therefore does not guarantee the effective accomplishment of human rights This book analyzes this issue and raises proposals for a new perspective The first part describes the soft threats to human rights derived from the devaluation of the politics and the productive economy with regard to the finance It entails the concealment of the reality in the shape of exploitation as the tax havens and in the shape of marginalization of the persons with different abilities The second part include a study of hard threats to human rights and examines two cases of failed states Afghanistan and Somalia in which the violence has supplanted the politics and the economy In view of these situations it is necessary to rethink the force of classic *ius gentium* and the humanitarian right The third part presents the European Union as a legal and political space in which conditions of a worthy life are better defended by means of the Primacy of Practical Reason and Social State of Law and by the requirement of peace as the main rule of international relations

A Region in Turmoil Rob Johnson, 2005-09-15 South Asia has been the setting for some of the century's most violent invasions the Western world's bloodiest defeats and a volatile geopolitical brew of religions ethnicities and nationalism that sends unsettling ripples through the global balance of power even today Rob Johnson writes here the engrossing history of the individual conflicts that have engulfed the states of South Asia during the last half century A Region in Turmoil offers a new perspective on the area drawing together the conflicts of South Asia and examining them in local and global contexts from the end of the Western colonial empires through today's global efforts to combat terrorism Johnson's incisive analysis breaks down the historical and political roots of the conflicts and departs from traditional Western centric paradigms to reveal heretofore overlooked South Asian viewpoints on the conflicts and connections among the wars He probes the causes contexts and conclusions of the conflicts ranging from the enduring insurgency in Myanmar to the struggle of the Tamil Tigers in Sri Lanka the unrest in the Punjab and Assam states the Bangladeshi war of independence and the intractable struggles in Kashmir and Afghanistan The twenty first century opened with South Asia front and center on a turbulent political stage the region is not only the designated frontline for the war on terror but also home to the newest nuclear powers India and Pakistan A Region in Turmoil addresses this critical contemporary crisis with an invaluable analysis of the region and its complex history making it essential reading for historians policymakers and anyone who reads the front page of the daily newspaper

Condemned to Repeat? Fiona Terry, 2013-05-15 Humanitarian groups have failed Fiona Terry believes to face up to the core paradox of their activity humanitarian action aims to alleviate suffering but by inadvertently sustaining conflict it potentially prolongs suffering In Condemned to Repeat Terry examines the side effects of intervention by aid organizations and points out the need to acknowledge the political consequences of the choice to give aid The author makes the controversial claim that aid agencies act as though the initial decision to supply aid satisfies any need for ethical discussion and are often blind to the moral quandaries of aid Terry focuses on four historically relevant cases Rwandan

camps in Zaire Afghan camps in Pakistan Salvadoran and Nicaraguan camps in Honduras and Cambodian camps in Thailand Terry was the head of the French section of Medecins sans frontieres Doctors Without Borders when it withdrew from the Rwandan refugee camps in Zaire because aid intended for refugees actually strengthened those responsible for perpetrating genocide This book contains documents from the former Rwandan army and government that were found in the refugee camps after they were attacked in late 1996 This material illustrates how combatants manipulate humanitarian action to their benefit Condemned to Repeat makes clear that the paradox of aid demands immediate attention by organizations and governments around the world The author stresses that if international agencies are to meet the needs of populations in crisis their organizational behavior must adjust to the wider political and socioeconomic contexts in which aid occurs

Sectarianization Nader Hashemi,Danny Postel,2017-03-15 As the Middle East descends ever deeper into violence and chaos sectarianism has become a catch all explanation for the region s troubles The turmoil is attributed to ancient sectarian differences putatively primordial forces that make violent conflict intractable In media and policy discussions sectarianism has come to possess trans historical causal power This book trenchantly challenges the lazy use of sectarianism as a magic bullet explanation for the region s ills focusing on how various conflicts in the Middle East have morphed from non sectarian or cross sectarian and nonviolent movements into sectarian wars Through multiple case studies including Syria Iraq Lebanon Saudi Arabia Bahrain Yemen and Kuwait this book maps the dynamics of sectarianisation exploring not only how but also why it has taken hold The contributors examine the constellation of forces from those within societies to external factors such as the Saudi Iran rivalry that drive the sectarianisation process and explore how the region s politics can be de sectarianised Featuring leading scholars and including historians anthropologists political scientists and international relations theorists this book will redefine the terms of debate on one of the most critical issues in international affairs today Beyond

Nation-Building Francis Fukuyama, 2006-02-15 Bestselling author Francis Fukuyama brings together esteemed academics political analysts and practitioners to reflect on the U S experience with nation building from its historical underpinnings to its modern day consequences The United States has sought on repeated occasions to reconstruct states damaged by conflict from Reconstruction in the South after the Civil War to Japan and Germany after World War II to the ongoing rebuilding of Iraq Despite this rich experience there has been remarkably little systematic effort to learn lessons on how outside powers can assist in the building of strong and self sufficient states in post conflict situations The contributors dissect mistakes false starts and lessons learned from the cases of Afghanistan and Iraq within the broader context of reconstruction efforts in other parts of the world including Latin America Japan and the Balkans Examining the contrasting models in Afghanistan and Iraq they highlight the Coalition Provisional Authority in Iraq as a cautionary example of inadequate planning The need for post conflict reconstruction will not cease with the end of the Afghanistan and Iraq missions This timely volume offers the critical reflection and evaluation necessary to avoid repeating costly mistakes in the future Contributors Larry Diamond Hoover Institution and Stanford University James Dobbins RAND David Ekbladh American University Mich le A Flournoy Center for Strategic and International Studies Francis Fukuyama Paul H Nitze School of Advanced International Studies Johns Hopkins University Larry P Goodson U S Army War College Johanna Mendelson Forman UN Foundation Minxin Pei Samia Amin and Seth Garz Carnegie Endowment for International Peace S Frederick Starr Central Asia Caucasus Institute at Johns Hopkins School of Advanced International Studies F X Sutton Ford Foundation Emeritus Marvin G Weinbaum University of Illinois at Urbana Champaign
