Kathleen Cheney, 2016 On Histories and Stories A. S. Byatt, 2001-03-10 The interplay between fiction and history forms the core of Byatt's essays as she explores historical storytelling and the translation of historical fact into fiction Encyclopedia of the World Novel, 1900 to the Present Michael David Sollars, Arbolina Llamas Jennings, 2015-04-22 Praise for the print edition a useful and engaging reference to the vast world of the novel in world literature Re-Entering Old Spaces Aleksandra Nikcevic-Batricevic, 2016-05-11 This book is a product of the XI International Conference on English Language and Literary Studies held in Montenegro in 2014 The old spaces were taken as a metaphorical tool for reintroducing a wide range of established topics with new approaches Space was thus understood as physical mechanical continuous linear as measurable and symbolic as subjective and relational and as aesthetic It was found on maps in architecture on theatre stages in books in hearts in one s identity in time and in theses and theories from the Aristotelian topos to Einstein s construct of space time Therefore the means of travel to these spaces and the forms the journeys take are also multifarious However so are the discursive strategies and their limitations when it comes to presenting the journeys and

their destinations The contributors to this volume represent a range of nationalities and present research that either follows in the footsteps of other authors in a literal or secondary literary journey to real geographical places or observes the universal literary and old theoretical issues through new critical lenses Indeed they are often on both roads witnessing how inextricable human efforts are to finding identifying and aestheticising oneself in relation to a particular space Their contributions to this book expose how spaces were created and recreated through writing and symbolical representations in general They also show how the images of these spaces have been changing in consent to the intentions of their visitors and reveal that persistent and obstinate moment in a space that despite or in spite of changing perspectives itself refuses to be changed The book will encourage for further contributions to this expanding field in the humanities In their numerous and distinct ways the contributions to this particular book maintain that understanding how spaces are conceived and conceptualised is of pronounced importance in the globalized world in which cultures are gradually losing authenticities while their spaces geographical tourist spiritual literary aesthetic are as reflective of the visitors as they are of the hosts
