

A photograph of a long, covered walkway, possibly a prison corridor or a palace entrance. The walkway is paved with large, light-colored stone tiles. On the left, there is a series of tall, white columns supporting a dark, overhanging roof. On the right, there are several doors and windows. Some doors are white with decorative panels, while others are made of dark wood with shutters. The overall atmosphere is one of historical architecture.

Palaces And Prisons:

The Castles, Palaces, and Prisons of Mary Queen of Scots. ... With Notices of the Visits of King George IV. and Queen Victoria to Their Ancestral Domains. New Edition Charles Mackie,1853 **The Castles, Palaces and Prisons of Mary of Scotland** Charles Mackie,1849 **Palaces, Prisons, and Resting Places of Mary, Queen of Scots** Michael Myers Shoemaker,1902 **From the Palace to the Prison** Sherman D. Manning,2005 **The Tower of London, Fortress, Palace, and Prison** Charles George Harper,1909 *Venice: the churches, the palaces, the treasures of art* ,1929

Britain's Medieval Castles Lise E. Hull,2005-12-30 The widespread construction of castles in Britain began as soon as Duke William of Normandy set foot on the shores of southern England in 1066 The castles that were constructed in the ensuing centuries and whose ruins still scatter the British countryside today provide us with an enduring record of the needs and ambitions of the times But the essence of the medieval castle a structure that is equal parts military residential and symbolic reveals itself not only through the grandeur of such architectural masterpieces as the Tower of London and the imposing nature of such royal residences as Windsor but also in the aging masonry carvings enduring battlements and more modest earthen ramparts that have survived alongside them Through a feature by feature account of the architectural elements and techniques used in constructing the medieval castle author Lise Hull allows the multiple functions of these multifarious forms to shine through and in so doing lends a new vitality to the thousand faces that the medieval world assumed to discourage its enemies inspire its friends and control its subjects This compelling investigation takes a unique look at each of the medieval castle s main roles as an offensive presentation and defensive fortification as a residential and administrative building and as a symbolic structure demonstrating the status of its owner Each chapter focuses on one specific role and uses concrete architectural features to demonstrate that aspect of the medieval castle in Britain A wealth of illustrations is also provided as is a glossary explaining the distinct parts of the castle and their functions This book should be of interest to students researching architecture the Middle Ages or military history as well as general readers interested in castles or considering a trip to Britain to observe some of these magnificent sites themselves Contrasts in Punishment John Pratt,Anna Eriksson,2014-06-03 Why do some modern societies punish their offenders differently to others Why are some more punitive and others more tolerant in their approach to offending and how can these differences be explained Based on extensive historical analysis and fieldwork in the penal systems of England Australia and New Zealand on the one hand and Finland Norway and Sweden on the other this book seeks to answer these questions The book argues that the penal differences that currently exist between these two clusters of societies emanate from their early nineteenth century social arrangements when the Anglophone societies were dominated by exclusionary value systems that contrasted with the more inclusionary values of the Nordic countries The development of their penal programmes over this two hundred year period including the much earlier demise of the death penalty in the Nordic countries and significant differences between the

respective prison rates and prison conditions of the two clusters reflects the continuing influence of these values Indeed in the early 21st century these differences have become even more pronounced John Pratt and Anna Eriksson offer a unique contribution to this topic of growing importance comparative research in the history and sociology of punishment This book will be of interest to those studying criminology sociology punishment prison and penal policy as well as professionals working in prisons or in the area of penal policy across the six societies that feature in the book *Harper's New Monthly Magazine* ,1853 Important American periodical dating back to 1850 The Library of Choice Literature and Encyclopedia of Universal Authorship Ainsworth Rand Spofford,1894 A Refuge of Cure or Care Madeline Kearin Ryan,2021-05-18 In A Refuge of Cure or Care The Sensory Dimensions of Confinement at the Worcester State Hospital for the Insane Madeline Kearin Ryan analyzes the therapy model of the nineteenth century asylum Because the five senses were believed to provide a direct conduit into a person s mental condition the curative force of the hospital was thought to reside in its command over sensory experience Ryan examines how the institution was designed to target each of the five senses as a mode of therapy and conversely how that well intentioned design materialized in the haphazard realm of institutional practice In doing so Ryan seeks to reconcile the disjuncture between the benevolent promise of the asylum model and its ultimate failure in a way that captures the complex power dynamics and heterogeneity of actors within the institution Classified Catalogue of the Carnegie Library of Pittsburgh Carnegie Library of Pittsburgh,1908 **Classified Catalog of the Carnegie Library of Pittsburgh. 1895-1902.
