

of this kind, as its editor readily admits, is that of focus and integration. Contributions, for example, are to be found here to such broad subject areas as the cultural hurdles to development and to such specifics as O and M improvement in India and Pakistan.

Several of the papers make notable "ideal" contributions, which, if for no other reason, justifies their being shared beyond the ivy of any particular university. Two of the most thoughtful chapters are clearly those of Pye, with his concern for broadening the base of development to include the "non-bureaucratic components" of the society, and Meadows, a sociologist, who sees development administration as essentially "an act of imagination which attracts, fires, holds, and elaborates the loyalties of human beings engaged in goal-directed change." Bharati makes a useful contribution also by calling attention to the "multiple configuration expectancy principles" which explain how local people view the change agent who has come among them. Finally, Swerdlow himself should be mentioned for some rather pointed comments on the "mis-identities" which have too often fuzed the idea of national development with economic growth.—DAVID S. BROWN, *The George Washington University*.

Explosive Forces in Latin America. JOHN J. TE-PASKE AND SYDNEY N. FISHER, EDS. (Columbus: Ohio State University Press, 1964. Pp. 196. \$4.75.)

This is a collection of essays, prepared for a 1962 conference of the Graduate Institute for World Affairs of the Ohio State University. Like most collections of this sort, it is uneven, and the essays do not really develop any consistent argument or explore any well-defined problem. However, this particular book does have a unique quality, for it is something of a "sampler" of the thought of some of the more stimulating and well-known students of contemporary Latin America.

Herein, Oscar Lewis provides a sensitive and introspective summary of his approach to the sub-culture of poverty. Extensive quotations from *The Children of Sanchez* illustrate his technique of letting an impoverished Mexican family develop and describe its own world view. Edwin Lieuwijn's essay on the political role of the military contains the core of his argument in *Arms and Politics in Latin America*. John J. Kennedy presents a capsule version of his more extended discussion of the role of the Church. Thomas Carroll reiterates his message of the explosive threat of agrarian revolution in Latin America, and the imperative need for land reform.

David Burks presents an essay based on his continuing interest in Soviet influence in Cuba. George Blanksten's paper on the Alliance for

Progress hints at some of the questions of the political consequences of economic development that are the author's current research concern. John Harrison provides a somewhat distinctive interpretation of the role of the intellectual and the university. Arnold Schaefer contributes an interesting study of nutritional problems in Latin America.

For those who have followed the work of the authors included here, nothing that is said will come as any great surprise. The best of these papers are essentially synopses of ideas and approaches more fully developed elsewhere. However, as a collection, they provide an interesting commentary on the state of Latin American social science scholarship in the United States. One notes the characteristic interdisciplinary quality of the effort. Economists, anthropologists, political scientists, and historians address themselves to similar problems, within a similar frame of reference. One observes the heterogeneity of moods within which current commentary on the problems of change in Latin America is cast, from Carroll's almost impassioned militancy to the objective detachment of Kennedy. And although much has been said in recent years about the paucity of academic talent devoted to the analysis of Latin American problems, this book reveals the presence of at least a few star performers, and a number of craftsmen of considerable ability.—CHARLES W. ANDERSON, *The University of Wisconsin*.

Political Modernization in Japan and Turkey (Studies in Political Development 3). EDITED BY ROBERT E. WARD AND DANKWART A. RUSTOW. (Princeton: Princeton University Press, 1964. Pp. viii, 502. \$8.75.)

The Comparative Politics Committee of the S.S.R.C. herewith produces the third of its seven projected volumes on different aspects of political development. It is the only one to apply the case method rather than a strictly functional approach. Japan and Turkey, two Asian states with widely varying backgrounds and rates of modernization, were both late-developing polities whose past experiences may provide lessons to the host of developing states today.

The seventeen experts on Japan and Turkey whose papers at a 1962 conference make up the bulk of this work examine in turn eight aspects in each nation's development. The result is an extremely provocative comparison of Asia's most advanced state with one of the least advanced. It should be valuable to all students of comparative modernization, and to those specialists concerned with the two nations covered. Like most products of foundation collaboration, *Political Modernization of Japan and Turkey* suffers from

Change Allan A. Spitz, 2014-07-15 Developmental change and the related problems of modernization have attracted the attention of scholars in many disciplines In this bibliography derived and expanded from an earlier compilation by Mr Spitz and Edward Weidner the author orders and annotates nearly 2 500 articles appearing between 1945 and 1969 in 234 journals from 25 countries Organized by subject and indexed by both author and journal the citations include studies of social problems economic factors political questions public administration and international cooperation and assistance Special emphasis has been given to new and little known sources In addition a selected bibliography of monographs and book length studies dealing with the modernization of underdeveloped countries and areas is included in the volume *Man, State and Society in the Contemporary Middle East* Jacob M. Landau, 2016-04-14 This work first published in 1972 is an objective introduction to the social political and cultural changes that took place in the Middle East in the years after the Second World War It includes papers by some of the most distinguished scholars in the field as well as personal accounts by insightful

observers living in the area It includes articles on such topics as Arab socialism and nationalism religious communities ethnic minorities women in Arab society education and many more **Electoral Politics in the Middle East** Jacob M. Landau,Ergun Özbudun, Frank Tachau, 2015-07-24 Comparative political study of the Middle East got off to a late start Unlike any previous studies in comparative politics this book first published in 1980 represents an important methodological advance in that it proceeds by themes rather than by countries and uniquely focuses on three major aspects of electoral politics in three contemporary Middle Eastern states The three countries Turkey Lebanon and Israel are chosen because they are the only Middle Eastern countries with a tradition of free elections On the other hand they also display certain characteristics found in other non competitive Middle Eastern political systems such as the role and prominence of religion The study is based on extensive original research and presents the first comparative treatment of electoral issues voting behaviour and parliamentary elites emphasising the context of rapid socio economic change a theme particularly pertinent to those countries with their tradition of free elections The variety of political behaviour within the countries concerned coupled with the prevailing complexities resulting from disparities in language and cultural inheritance makes the comparative approach particularly revealing The attitudes and behaviour of the voters can be seen to be at least as important as the laws and mechanisms involved
