Prolegomena The Relation Of Theology To Modern Thought Forms His The Evangelical Faith:

Prolegomena Helmut Thielicke, 1997 Now available in paperback Thielicke's widely acclaimed three volume series constructs a system of Christian theology that is responsive to the needs and questions of the modern age The product of a lifetime of scholarship this series constitutes a comprehensive dogmatic of the Christian faith It deploys the same breadth of insight and clarity of analysis that has already secured Thielicke's reputation as one of the leading Christian thinkers of the 20th century *Do Historical Matters Matter to Faith?* James K. Hoffmeier, Dennis R. Magary, 2012-02-29 Is historical accuracy an indispensable part of the Bible's storyline or is Scripture only concerned with theological truths As progressive evangelicals threaten to reduce the Bible's jurisdiction by undermining its historical claims every Christian who cares about the integrity of Scripture must be prepared to answer this question *Do Historical Matters Matter to Faith* offers a firm defense of Scripture's legitimacy and the theological implications of modern and postmodern approaches that teach otherwise In this timely and timeless collection of essays scholars from diverse areas of expertise lend strong arguments in support of the doctrine of inerrancy Contributors explore how the specific challenges of history authenticity and authority are answered in the text of the Old and New Testaments as well as how the Bible is corroborated by philosophy and archaeology With contributions from respected scholars including Allan Millard Craig Blomberg Graham Cole Michael Haykin Robert Yarbrough and Darrell Bock *Do Historical Matters Matter to Faith* arms Christians with fresh insight arguments and language with which to defend Scripture's historical accuracy against a culture and academy skeptical of those claims

The Promise of Hermeneutics Roger Lundin, Anthony C. Thiselton, Clarence Walhout, 1999 This work presents an engaging interdisciplinary study of the nature and scope of interpretation one of the most important areas of inquiry in today's postmodern world The three authors all acknowledged experts in the field bring the resources of the Bible Christian tradition and intellectual history to bear upon contemporary hermeneutical disputes Representing a complete revision of *The Responsibility of Hermeneutics* 1985 this substantially expanded volume has been brought up to date with recent work in hermeneutics and sets forth an important new perspective that shifts the interpretive focus from the past to the promise of the future Making use of the best insights from current theories about language interpretation and the nature of the self *The Promise of Hermeneutics* demonstrates how an encounter with contemporary interpretive theory can deepen the church's own hermeneutical practices The authors also show how the Christian faith can help move us beyond the many impasses created by postmodern thought **A Guide to Contemporary Hermeneutics** Donald K. McKim, 1999-05-25

is an apologetic for the ongoing constructive theological task in Protestant and Evangelical traditions It suggests that doctrinal development can be explained as a hermeneutical phenomenon and that insights from hermeneutical philosophy and the philosophy of language can aid theologians in constructing explanatory theses for particular theological problems associated with the facts of doctrinal development Joining the recent call to theological interpretation of Scripture Putman provides a constructive model that forwards a descriptive and normative pattern for reading Scripture and theological tradition together *Donald G. Bloesch* Paul Maher,2007 Donald G Bloesch is among the most important American theologians of the 20th and early 21st centuries He calls himself a catholic evangelical and indeed his appeal is as wide as those terms imply His work has appeared in Catholic religious periodicals as well as many varieties of Protestant publications both mainstream and lesser known As a prolific author Bloesch's writing is scattered across a large number of journals many of which are difficult to access and reviews of his work appear in an even larger range of forums Donald G Bloesch A Research Bibliography collocates as many relevant resources on Bloesch's writing as possible The book provides a chronological listing and description of each work written by Bloesch as well as reviews of Bloesch's writing Each entry gives the title publication details and notes about the relationship of the item described to other publications Several indexes are also included giving a checklist of books by Bloesch a checklist of books to which Bloesch has contributed and a list of book reviews that Bloesch has written about other authors Finally there is an alphabetical index of titles names and periodicals cited in the bibliography making this the most comprehensive resource available on Bloesch **The Frontiers of Science**

& Faith John Jefferson Davis,2002-01-01 What happens when new scientific research meets traditional Christian doctrines How does the big bang theory fit with Genesis 1:1 What does quantum mechanics have to do with the doctrines of predestination and the omniscience of God How does the anthropic principle square with a biblical notion of a designed and

purposeful universe What are the implications of the doctrine of redemption in Jesus Christ for the search for extraterrestrial intelligence Addressing these and other questions John Jefferson Davis brings together a well informed understanding of current scientific issues with Christian teaching He demonstrates that the meeting of the frontiers of science with the frontiers of faith calls for a proper relationship with the God of the universe and a humility that acknowledges the fundamental limits of human knowledge BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved What the Bible Says About God the Ruler Jack Cottrell,2000-10-24 see cover **Reenvisioning Theological Education** Robert Banks,1999 A top leadership theorist offers a compelling proposal for renovating the way religious education is practiced today Christian colleges and seminaries have not been immune from the cultural influences shaping contemporary education Challenging the conventional wisdom advanced by the educational debate during the last fifteen years Robert Banks builds an innovative new model of theological education based on how ministry formation took place in biblical times Banks takes full account of key issues raised by our current educational context and shows how a missional model of education is more holistic inclusive and practical than recent versions *In the Name of the Father, Son, and Holy Spirit* Thomas K. Johnson,David Parker,Thomas Schirrmacher,2020-12-16 Our six authors from four continents representing several branches of Evangelicalism are united in affirming the classical Christian understanding of God as Trinity as crucial for knowing God understanding the world and serving God honestly Their essays lead up to a compilation of classical creeds regarding this foundational proclamation Thomas K Johnson The Trinity is a matter of knowing God in his complexity totally different from us in our singularity yet radically similar in having personality in his image then letting this knowledge of God become the pattern of a renewed Christian mind Brian Edgar This presentation of the consummate dimensions of the Trinity tells us that the life of God as Trinity is something in which we participate rather than something to be intellectually comprehended J Scott Horrell The suggestion humbly submitted is especially for a missional Trinitarian worldview not missional as from one culture to another but missional as each body of believers seeks to engage and express Trinitarian faith within their own culture William P Atkinson As the Father s kenotic leadership of the Trinity thereby exalts the Son and the Spirit so too we can expect that the sort of servant leadership that answers Jesus high priestly prayer will lift those who are being led Pavel Ho ek The Enlightenment reductionist rationalism in theology is going through a serious crisis and the relativistic postmodern alternatives do not provide any firm epistemological basis for responsible theological thinking I suggest that the trinitarian intellectual framework which Comenius and Lewis tried to develop offers a promising and inspiring way forward for Christian theologians faithful to the orthodox teachings of the church who are struggling with the intellectual challenges of contemporary culture Tersur Aben The Trinity is the heart of God s self disclosure to and involvement with humans on earth The mission of the church is thus to proclaim the gospel of salvation and the restoration of humans back to God which the Son accomplished on Calvary and the Holy Spirit applies to believers on Pentecost

Trinitarian Soundings in Systematic Theology Paul Louis Metzger, 2010-07-15 *Trinitarian Soundings in Systematic Theology* is a multi authored exploration of systematic theology from a Trinitarian perspective Its aim is to show how the doctrine of the Trinity sheds light on other key doctrines from prolegomena to eschatology and theological ethics To borrow a phrase from Robert Jenson the doctrine of the Trinity is not a separate puzzle to be solved but the framework within which all theology s puzzles are to be solved Given the scarcity of systematic theologies done trinitarianly this collective project suggests a path to follow in the formulation of each particular doctrine represented in the volume *Trinitarian Soundings* promises to become an important work given its unique presentation of major themes of systematic theology in their classical order yet from a Trinitarian point of view Its contributors include veteran theologians as well as younger scholars who are energetically employing this Trinitarian focus The contributors represent various theological traditions and geographical locations which surely bring richness to the theological inquiry Dedicated to the memory of a pioneer in the resurgence of Trinitarian theology the late Prof Colin Gunton this collection represents a distinctive treatment of systematics intent on showing the vitality of approaching all aspects of the faith from a self consciously Trinitarian perspective **Beyond Immanence** Alan J. Torrance, Andrew B. Torrance, 2023-05-25 *Church Times* As we traverse from the 19th and 20th centuries into the 21st this important study reminds us that these voices challenging the myopia of immanence with the prospect of transcendence remain no less applicable to our plight now than they were then *Christianity Today* Book Awards Academic Theology Finalist 2024 Critical insights into Kierkegaard s influence on Barth s theology Karl Barth was often critical of S ren Kierkegaard s ideas as he understood them But close reading of the two corpora reveals that Barth owes a lot to the melancholy Dane Both conceive of God as infinitely qualitatively different from humans and both emphasize the shocking nearness of God in the incarnation As public intellectuals they used this theological vision to protect Christocentric faith from political manipulation and compromise For Kierkegaard this meant criticizing the state church for Barth this entailed resisting Nazism Meticulously crafted by a father son team of renowned systematic theologians *Beyond Immanence* demonstrates that Kierkegaard and Barth share a theological trajectory one that resists cynical manipulation of Christianity for political purposes in favor of uncompromising devotion to a God who is radically transcendent yet established kinship with humanity in time *The Dialogical Spirit II* Amos Yong, 2024-09-05 *The Dialogical Spirit II* is a second collection of essays that demonstrates the dialectical contours of Amos Yong s critical pentecostal theology It is a montage of constructive engagements with various thinkers and ideas in the promotion of theological plurality for the third millennium With essays on Hegelian dialectics Buddhist Christian dialogue pneumatic missiology etc voice is generated for the renewal of relationality and the revival of imagination Free from the imposition of traditional boundaries Yong makes his way across differing landscapes of truth in a global environment gleaning from the activities of reflection and understanding therein Providing snapshots of Yong s theological development over decades of work *The Dialogical Spirit II* further evidences the vitality of

pentecostal theology to emerging conversations in constructive and comparative venues Recording for the Blind & Dyslexic, ... Catalog of Books ,1996 **The Holy One in Our Midst** James R. Gordon,2016-07-01 The Holy One in Our Midst An Essay on the Flesh of Christ aims to defend the doctrine of the extra Calvinisticum the doctrine that maintains the Son of God was not restricted to the flesh of Christ during the incarnation by arguing that it is logically coherent biblically warranted catholically orthodox and theologically useful It shows that none of the standard objections are devastating to the extra that the doctrine is rooted in the claims of Christian Scripture and not merely a remnant of perfect being philosophical theology and that the doctrine plays an important role in contemporary theological discussion In this way James R Gordon revives an important Catholic doctrine that has fallen out of favor in contemporary theology Secondly this project aims to integrate biblical philosophical and systematic theology by showing that the tools and methods of each distinct discipline can contribute to the goals and aims of the others **Culture and Biblical Hermeneutics** William J. Larkin,2003-08-05 No issue now occupies contemporary evangelicals more than the role of culture in biblical interpretation In Culture and Biblical Hermeneutics the author not only analyzes the current debate but also makes a significant contribution to it This volume grapples with what the author calls the challenge that historical and cultural relativism poses to the hermeneutical process when applied to the authoritative Scripture He accomplishes his goal admirably by exploring both the origin and the current state of biblical hermeneutics and by developing a biblical theology of hermeneutics and culture *Seeing the World and Knowing God* Paul S. Fiddes,2013-07-25 This book aims to create a Christian theology of wisdom for the present day in discussion with two sets of conversation partners The first are writers of the wisdom literature in ancient Israel and the Jewish community in Alexandria Here special attention is given to the biblical books of Proverbs Job and Ecclesiastes The second conversation partners are philosophers and thinkers of the late modern age among them Jacques Derrida Emmanuel Levinas Julia Kristeva Paul Ricoeur and Hannah Arendt In the late modern period there has been a reaction against an inherited conception of the conscious and rational self as mastering and even subjugating the world around and there has been an attempt to overcome the consequent split between the subject and objects of observation Paul S Fiddes enters into dialogue with these late modern concerns about the relation between the self and the world proposing that the wisdom which is indicated by the ancient Hebraic concept of *okmah* integrates a practical wisdom of handling daily experience with the kind of wisdom which is attunement to the world and ultimately to God as creator and sustainer of all Fiddes brings detailed exegesis of texts from the ancient wisdom literature into interaction with an account of the subject in late modern thought in order to form a theology in which seeing the world is knowing a God whose transcendent reality is always immanent in the signs and bodies of the world He thus argues that participation in a triune relational God shapes a wisdom that addresses problems of a dominating self and opens the human person to others
