Winston Churchill What role did the esoteric thought of Swedenborg play in the creative output of Honor de Balzac Did a supernatural encounter prompt Mary Wollstonecraft Shelley to focus her work on the theme of immortality Building on his earlier research on communications with the spirit world that Victor Hugo author of Les Misérables experienced while in exile on the isle of Jersey John Chambers now looks at the role occult knowledge and supernatural experiences played in the lives of 24 geniuses His investigation spans the life and work of William Blake Helena Blavatsky and W B Yeats whose esoteric interests are well known as well as those little suspected of such encounters with worlds beyond ours including Doris Lessing Leo Tolstoy Norman Mailer Yukio Mishima and Winston Churchill Chambers presents more than a collection of anecdotes and newly revealed secrets His research provides insightful historical context of the decisive turning point that took place with the collapse of Prague the occult capital of Europe in 1620 which resulted in the victory of Cartesian reality and Newton's scientific paradigm over the esoteric traditions that flourished until that time The magical and occult world shown in the lives of these 24 great men and women offers us a glimpse of what could still be ours a world that though it is now overshadowed by modern scientific and technological principles is yet still visible on the horizon through the visions and paranormal experiences of these geniuses

Balzac's Lives Peter Brooks, 2020-10-06 Enter the mind of French literary giant Honor de Balzac through a study of nine of his greatest characters and the novels they inhabit Balzac's Lives illuminates the writer's life era and work in a completely original way Balzac more than anyone invented the nineteenth century novel and Oscar Wilde went so far as to say that Balzac had invented the nineteenth century But it was above all through the wonderful unforgettable extravagant characters that Balzac dreamed up and made flesh entrepreneurs bankers inventors industrialists poets artists bohemians of both sexes journalists aristocrats politicians prostitutes that he brought to life the dynamic forces of an era that ushered in our own Peter Brooks's Balzac's Lives is a vivid and searching portrait of a great novelist as revealed through the fictional lives he imagined

Melville and His Circle William B. Dillingham, 2008-09-01 Herman Melville is a towering figure in American literature arguably the country's greatest nineteenth century writer Revising a number of entrenched misunderstandings about Melville in his later years this is a remarkable and unprecedented account of the aged author giving himself over to a life of the mind Focusing exclusively on a period usually associated with the waning of Melville's literary powers William B Dillingham shows that he was actually

concentrating and intensifying his thoughts on art and creativity to a greater degree than ever before Biographers have written little about Melville's deceptively quiet years after the publication of the long poem *Clarel* in 1876 and before his death in 1891 It was a time when he saw few friends or acquaintances answered most of his letters as briefly as possible and declined most social invitations But for Melville as for Emily Dickinson such outward appearances belied an intense engaged inner life If for no other reason Dillingham reminds us this period merits more discerning attention because it was then that Melville produced *Billy Budd* as well as an impressive number of new and revised poems while working full time as a customs inspector for more than half of those years What sustained Melville during that final period of ill health and near poverty says Dillingham was his circle not of close friends but of works by a number of writers that he read with appreciative yet discriminating affinity including Matthew Arnold James Thomson Arthur Schopenhauer and Honore de Balzac Dillingham relates these readings to Melville's own poetry and prose and to a rich variety of largely underappreciated topics relevant to Melville's later life from Buddhism the School of Pessimism and New York intellectual life to Melville's job at the ever corrupt customs house his fear of disgrace and increased self absorption and his engagement with both the picturesque and the metaphorical power of roses in art and literature This portrait of the great writer's final years is at once a biography an intellectual history and a discerning reading of his mature work By showing that Melville's isolation was a conscious intellectual decision rather than a psychological quirk Melville and His Circle reveals much that is new and challenging about Melville himself and about our notions of age and the persistence of imagination and creativity

Balzac Michael Tilby, 2017-07-28 This canon of French literature Honore de Balzac 1799 1850 is also a major European figure in the development of realism His work is dominated by an inter related sequence of novels and short stories *La Comedie Humaine* which charts the idiosyncrasies of French society from the beginning of the nineteenth century to the 1840 s Among the most famous of these are *Le Pierre Goriot* and *La Cousine Bette* In this study Dr Tilby concentrates on the main approaches in practice and discusses some of the earliest responses to Balzac's work His introduction and headnotes set Balzac's work in context This book will be of interest to students of French language and literature and also to those studying French in combined studies or humanities courses

Unlikely Muse Daniel Kornstein, 2010 This trail blazing book explores previously uncharted aspects of law and literature as well as the psychology paradoxes and wonderful mystery of creativity A study of artistic inspiration *Unlikely Muse* examines and analyzes the lives and works of three very different writers who combine law literature and imagination nineteenth century French novelist Honor de Balzac modernist American poet Wallace Stevens and controversial playwright memoirist Lillian Hellman From the literary careers of those three writers emerge two intertwined and exciting new themes The first theme demonstrates unexpected synergy between law and literature Opening original lines of inquiry *Unlikely Muse* probes the possible relationship between legal training and artistic creativity A surprisingly large number of great creative artists writers such as Balzac poets such as Stevens painters such as

Matisse and composers such as Tchaikovsky studied or practiced law This book asks whether such people became great creative artists because of or despite their legal background Others such as Hellman had no legal training but wrote much about the law This book sketches the intellectual atmosphere and biographical background that shaped these three writers creative process highlighting the impact of the law on their work The second theme uses these same three writers to focus on the changing role of imagination in literature From Balzac through Stevens to Hellman and beyond the author traces imagination's arc from a positive artistic quality to something that is sometimes more controversial perhaps deceitful and negative In the last few decades ever since Hellman's memoirs were attacked as untrue journalists memoirists and other writers have palmed off works of fiction as non fiction often causing literary scandals This book offers a new theory why this phenomenon is happening and how it should be regarded

The Quest of the Absolute Louis Dupré, 2013-09-30 This eagerly awaited study brings to completion Louis Dupré's planned trilogy on European culture during the modern epoch Demonstrating remarkable erudition and sweeping breadth *The Quest of the Absolute* analyzes Romanticism as a unique cultural phenomenon and a spiritual revolution Dupré philosophically reflects on its attempts to recapture the past and transform the present in a movement that is partly a return to premodern culture and partly a violent protest against it Following an introduction on the historical origins of the Romantic Movement Dupré examines the principal Romantic poets of England Wordsworth Coleridge Shelley Keats Germany Goethe Schiller Novalis Hölderlin and France Lamartine de Vigny Hugo all of whom from different perspectives pursued an absolute ideal In the chapters of the second part he concentrates on the critical principles of Romantic aesthetics the Romantic image of the person as reflected in the novel and Romantic ethical and political theories In the chapters of the third more speculative part he investigates the comprehensive syntheses of romantic thought in history philosophy and theology *The Quest of the Absolute* is an important work both as the culmination of Dupré's ongoing project and as a classic in its own right The book will meet the expectations of the specialist as well as appeal to more general readers with philosophical cultural and religious interests

The Facts on File Companion to the French Novel Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

Le mensonge Kate Averis, Matthew Moran, 2010-09-13 This collection of essays considers the political social literary and artistic impact of the pervasive dichotomy of truth and lies in the context of French society and culture A fundamental element of our social existence the notion of *le mensonge* underpins how we participate in and respond to all aspects of society from the political process to the capacity of art literature and other aesthetic forms to fulfill a representative function This book explores the ways in which French society and culture is regulated by the overriding oppositional structure of truth and lies and the impact this has on both collective and individual existence The theme brings

together research from diverse disciplines of the Humanities from political science to literature film music and visual arts in a work that will be of great relevance to a wide range of students and researchers alike As such the theme serves as a means of gaining an insight into the range and scope of research currently being conducted in French studies The book will be useful as a support text for a range of academic courses including those in the fields of cultural studies literary studies political studies and sociology On a larger scale it posits the theme s potential to develop as an independent area of study and offers a starting point for future academic study devoted to the idea of le mensonge *The Creators* Daniel J.

Boorstin,1993-09-28 By piecing the lives of selected individuals into a grand mosaic Pulitzer Prize winning historian Daniel J Boorstin explores the development of artistic innovation over 3 000 years A hugely ambitious chronicle of the arts that Boorstin delivers with the scope that made his *Discoverers* a national bestseller Even as he tells the stories of such individual creators as Homer Joyce Giotto Picasso Handel Wagner and Virginia Woolf Boorstin assembles them into a grand mosaic of aesthetic and intellectual invention In the process he tells us not only how great art and great architecture and philosophy is created but where it comes from and how it has shaped and mirrored societies from Vedic India to the twentieth century United States **"A Dream of Stone"** Michael D. Garval,2004 With democratization of fame in the wake of the French Revolution writers enjoyed ever greater celebrity status But in nineteenth century France the availability and perceived impermanence of such renown cheapened it and prompted longing for enduring fame exemplified by monuments commemorative sculptural or architectural works helping a nation in flux define itself its past and anticipated future Within this cultural climate there evolved an ideal of great writers and their work as immortal that envisioned literary greatness through the metaphor of monuments and monumentality study draws upon wide ranging evidence from journalism to poetry caricature to statuary Focusing on the lives work and fame of Honore de Balzac George Sand and Victor Hugo it uncovers the salient features and traces the rise and fall of this monumentalizing vision of literary greatness largely forgotten today yet so central to nineteenth century French culture North Carolina State University **The Palgrave Encyclopedia of Urban**
