Prophets And Peoples Studies In Nineteenth Century Nationalism:

Prophets and Peoples Hans Kohn, 1975-06-01 **Prophets and Peoples, Studies in 19th Century Nationalism, by Hans Kohn,...** Hans Kohn, 1947 *Prophets and Peoples* Hans Kohn, 1946 **Tradition and Transition in East Africa** P. H. Gulliver, 1969 *Global Space and the Nationalist Discourse of Modernity* Xiaobing Tang, 1996-04 This book reexamines the historical thinking of Liang Qichao 1873 1929 one of the few modern Chinese thinkers and cultural critics whose appreciation of the question of modernity was based on first hand experience of the world space in which China had to function as a nation state It seeks to demonstrate that Liang was not only a profoundly paradigmatic modern Chinese intellectual but also an imaginative thinker of worldwide significance By tracing the changes in Liang s conception of history the author shows that global space inspired both Liang s longing for modernity and his critical reconceptualization of modern history Spatiality or the mode of determining spatial organization and relationships offers a new interpretive category for understanding the stages in Liang s historical thinking Liang s historical thinking culminated in a global imaginary of difference which became most evident in the shift from his earlier proposal for a uniform national history to one that mapped cultural history His reaffirmation of spatiality a critical concept overshadowed by the modernist obsession with time and history made it both necessary and possible for him to redesign the project of modernity Finally the author suggests that the reconciliation of anthropological space with historical time that Liang achieved makes him abundantly contemporary with our own time both inextricably modern and postmodern Realpolitik John Bew, 2016 A concise book on Realpolitik its origins as an idea its practical application to statecraft in the recent past and its relevance to contemporary foreign policy *The dual heritage of Joseph Conrad* Robert R. Hodges, 2015-07-24 No detailed description available for The dual heritage of Joseph Conrad *Russian Messianism* Peter J. S. Duncan, 2002-11-01 This is the first book in English for half a century to examine the complexities of Russian messianism both as a whole and in its interaction with Communism Peter Duncan considers its Orthodox roots and focuses on Russia s geopolitical experience and situation to explain the endurance of this phenomenon *Aspects of European History 1789-1980* Stephen J. Lee, 2008-01-28 In this sequel to his popular *Aspects of European History 1494 1789* Stephen J Lee charts the most commonly encountered topics of nineteenth and twentieth century history from the origins of the French Revolution through the social and political reforms and upheavals of the last two centuries to the present Helpful and accessible the book includes an invigorating guide and sound source of background material short analytical chapters an interpretative approach to history providing a range of viewpoints on each subject both a broad survey and specific studies stimulation for student s ability to develop and clarify theme a careful structure which aids notetaking preparation of essays and revision Any student of European history will want to have this book at their side throughout their course studies The Making of an Arab Nationalist William L. Cleveland, 2015-03-08 A loyal servant of the Ottoman Empire in his early career Sati al Husri 1880 1968 became one of Arab nationalism s most articulate and influential

spokesmen His shift from Ottomanism based on religion and the multi national empire to Arabism defined by secular loyalties and the concept of an Arab nation is the theme of William Cleveland s account of the making of an Arab nationalist Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Nation Building in Comparative Contexts* William

Foltz,2017-07-12 What is and what makes a nation What forces work for and against the emergence of new nations What does the emergence of a nation mean to its people and what does it mean to international stability *Nation Building in Comparative Contexts* answers these questions Nine leading area specialists compare and analyze the long history of nationalism in Europe with its shorter histories in the Americas Asia and Africa The result is an outstanding contribution to understanding the problems confronting today s emerging nations one that remains of importance to the field The essays in this book provide the tools for comparison and analysis across continents and centuries The chapters dealing with Europe where the political and historical evidence is richest stress the broadest outlines of the nation making process The chapter on Asia concentrates on revolutionary war the two chapters on Africa where the creation or failure of nation states is a matter of the political situation of the moment raise the largest number of concrete problems Investigators have discovered that the making and breaking of nations is a process that must be studied in its general and uniform aspects especially if the unique features of each country and epoch are to be understood better The essays in this book are first steps in the comparison and analysis across the continents and centuries To some degree each combines concerns of the historian social scientist and of policy maker and statesman

Prophetic Tradition and Radical Rhetoric in America James Darsey,1999-09 This expansive volume traces the rhetoric of reform across American history examining such pivotal periods as the American Revolution slavery McCarthyism and today s gay liberation movement At a time when social movements led by religious leaders from Louis Farrakhan to Pat Buchanan are playing a central role in American politics James Darsey connects this radical tradition with its prophetic roots Public discourse in the West is derived from the Greek principles of civility diplomacy compromise and negotiation On this model radical speech is often taken to be a symptom of social disorder Not so contends Darsey who argues that the rhetoric of reform in America represents the continuation of a tradition separate from the commonly accepted principles of the Greeks Though the links have gone unrecognized the American radical tradition stems not from Aristotle he maintains but from the prophets of the Hebrew Bible

The Black Atlantic Paul Gilroy,1993 An account of the location of black intellectuals in the modern world following the end of racial slavery The lives and writings of key African Americans such as Martin Delany W E B Dubois Frederick Douglas and Richard Wright are examined in the

light of their experiences in Europe and Africa *Immigration and Perceptions of National Political Systems in Europe* Lauren M. McLaren, 2015 Immigration has become one of the most pressing political issues of the modern day and public opinion polls indicate that it has been of public concern for some time This book analyses the impact of immigration on perceptions of national political systems in Europe and contends that public concern about immigration is undermining trust in national political institutions and elites as well as satisfaction with the way democracy is working Immigration and Perceptions of National Political Systems in Europe contends that immigration presents more substantial challenges to some national identity constructions and that while national identity in general can help to bolster support for national political systems those who emphasize lengthy ties to the country are likely to be less positive about their national political systems particularly when these allow for relatively easy immigrant incorporation This book also includes an analysis of the impact of concern about immigration on the British political system and shows that while concern about immigration appears to have been fairly high since the 1960s it is only in since 1997 that such concern has come to translate into negative perceptions of the British political system *Discovery of God* Rafiq Zakaria, 2000 This Volume Presents A Historical Not A Religions Survey It Analyses The Place Of God In Every Major Religion Cutting Across Religious Precepts And Practices And Brings Out The Continual Discovery Of The Only One Who Has Endured *The Sense of Mission in Russian Foreign Policy* Alicja Curanović, 2021-03-04 This book explores how far messianism the conviction that Russia has a special historical destiny is present in and affects Russian foreign policy Based on extensive original research including analysis of public statements policy documents and opinion polls the book argues that a sense of mission is present in Russian foreign policy that it is very similar in its nature to thinking about Russia s mission in Tsarist times that the sense of mission matters more for Russia s elites than for Russia s masses and that Russia s special mission is emphasised more when there are questions about the regime s legitimacy as well as great power status Overall the book demonstrates that a sense of mission is an important factor in Russian foreign policy **The Future of Political Community** Gideon Baker, Jens Bartelson, 2009-12-04 This book explores the alternative futures of political community and moves beyond the critique of what is wrong with existing state based forms of political community It does so not with the defence of a particular normative model of political community in mind but rather in the quest for new ways of thinking about political community itself Exploring how the political must be rethought in the twenty first century and beyond this book is divided into three parts Part I focuses on the core problem that despite the obvious need to rethink political community beyond the nation state our conceptual language is still thoroughly shaped by modernity its prioritisation of the state and sovereignty and its assumption of unifying progress in history Part II focuses on postmodern political community these chapters take up the calls made above for new thinking about political community that goes beyond modern conceptions Part III turns to the question of the emergence and decline of new forms of political community The purpose of this section is to consider how the transformation of political community occurs in

practice and what the primary driver of this change is globally locally and historically This book will be of strong interest to students and scholars of International Relations Political and Social Theory **The Cultural Roots of National Socialism** Hermann Glaser,2019-06-26 Originally published in 1978 this book discusses some of the most important problems of 20th Century The central concern of the volume is the deep rooted provincialism which has pervaded the German cultural scene since the middle of the 19th Century The causes and consequences of cultural developments which made the most tragic period of German history possible are reflected upon in this outstanding work *Global Geographies of Post-Socialist Transition* Tassilo Herrschel,2006-09-27 Since the formal raising of the Iron Curtain there has been much interest in post socialism and the process of post socialist transition This timely book provides a systematic review and analysis of the process of transition Herrschel explores recent theories concepts and debates on post socialism and the notion of transition provides a systematic topical account of post socialist transitions around the world as evidence by social economic and political processes examines case studies of post socialist transition in east and Central Europe the former Soviet Union Asia and South East Asia and Africa and Latin America brings together theoretical and practical aspects by examining what lessons can be learned from recent experiences *Global Geographies of Post Socialist Transition* provides a truly global comparative account of the meaning and processes of post socialist transition and will be an invaluable resource for all those interested in this area **Agrarianism as Modernity in 20th-Century Europe** Alex Toshkov,2019-09-05 Whilst Soviet communism and its relationship with modernity has been widely studied to date the agrarian experiment in Eastern Europe has been relegated to the margins of historical analysis In this comparative study Alex Toshkov uncovers the history of agrarianism after the First World War and explores its place as an alternative modernity to liberal democracy and capitalism Drawing on a wealth of archival material this book explores the transnational connections between the paradigmatic cases of Bulgaria Yugoslavia and Czechoslovakia as well as the International Agrarian Bureau in Prague teasing out contradictions hidden records and silenced interpretations of agrarianism In addition it uses a microhistorical approach to present an innovative theoretical framework which adds to our understanding of nationalism political corruption and alterity and the subaltern This fascinating study restores interwar agrarianism to its rightful place as one of the most original and significant political currents in 20th century Europe
