Prose Keys to Modern Poetry. Edited by Karl Shapiro. [Extracts from Various Authors.]. Karl Shapiro, 1962 Prose Kevs to Modern Poetry ,1962 Prose Keys to Modern Poetry Karl Shapiro, 1962 The Art of Twentieth-Century American Poetry Charles Altieri, 2008-04-15 Written by a leading critic this invigorating introduction to modernist American poetry conveys the excitement that can be generated by a careful reading of modernist poems Encourages readers to identify with the modernists sense of the revolutionary possibilities of their art Embraces four generations of modernist American poets up through to the 1980s Gives readers a sense of the ambitions the disillusionments and the continuities of modernist poetry Includes close readings of particular poems which show how readers can use these works to connect with what The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. concerns them Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries The Wild Card Karl Shapiro, 1998 Supported by a grant from the Eric Mathieu King Fund of the Academy of American Poets Literature and Science as Modes of Expression F.R. Amrine, 2012-12-06 On the 25th anniversary of the founding of the Boston Studies series in 1985 Cohen Elkana and Wartofsky wrote in another preface such as this that the time had come for establishing institutions supporting a vision to which the series had been devoted since its inception namely that of a more broadly conceived interdisciplinary study of the history and philosophy of science In recent years it has become evident that in addition to serious and competent disciplinary work on the specifics of the History of Science the Philosophy of Science and the Sociology of Science there is now a growing need to develop a problem oriented approach which no longer distinguishes between these three specialties in a cut and dried way Since the time has come for such an approach the institutional tools should be provided A way to do so would be to organize colloquia and to publish good papers stemming from these without attempting to organize the papers under the separate rubrics of History of Philosophy or Sociology of Science and moreover to consider it natural that any fundamental issue of the foundations of the sciences or their place in a culture and the way they are institutionalized in the societal web is still our concern no matter whether we are a professional scientist historian or philosopher who deals with the problem p vii Dictionary of Midwestern Literature, Volume 1 Philip A. The interpretative methodology is radical adapting Wollheim's twofold thesis grounded in the aesthetics of visual art to the author's own concept of the double pattern Graphic Poetics challenges the accepted protocols of reading and interpreting verse and considers how poetry is involved in a dialogue with such theoreticians as Derrida Introducing a new perspective on how poems work and on how they generate effects it shows how poets use devices previously unrecognised and unacknowledged techniques which are more commonly associated with visual arts than with literature
