no sharp distinction between his poetry and his prose in both he was exercising his art and in both he was preoccupied by the same things Yet the prose is little studied Dr Kravis treats it under the headings of literary music and dramatic criticism translation writing on fashion and on language She shows the intellectual links between the various interests More important she shows how the prose is an art which does what it talks about Quotation is in French so this is primarily a book for the reader of French But it is important for any serious reader of modern literature
