Literature and Philosophy Herbert Grabes, 1997

Holocaust Memory and Youth Performance Erika Hughes, 2024-01-25 Through an examination of children's and youth plays and performances about the Holocaust from Germany, Israel and the United States, this book offers an entirely new way of looking at the vital role of youth performance in coping with the legacy of historical tragedy. As the first book-length critical examination of this subject, *Holocaust Memory and Youth Performance* considers plays that are produced by major theatre companies alongside performances written by young authors and pieces taken from the diaries and memoirs of those who experienced the Holocaust as children or adolescents. While youth-focused plays about the Holocaust have been in the repertoires of top professional companies throughout the world for decades and continue to be performed in theatres, schools and community centers, they are often neglected in concentrated and comparative studies of Holocaust theatre. Erika Hughes fills this gap by examining plays including *The Diary of Anne Frank* and *Ab heur hei t Du Sara*, musicals, performances, scripts, a rock concert, a performance on Instagram and pedagogically focused works of applied theatre, a diverse collection of performances for young audiences that tell the stories of young people who experienced the Holocaust. Adopting Hannah Arendt's notion of natality as a powerful framework, this study examines the ways in which youth theatre performances make a vital contribution to intergenerational witnessing and the collective memory of the Holocaust.

Byron, Poetics and History Jane Stabler, 2002-12-05 Jane Stabler offers the first full-scale examination of Byron's poetic form in relation to historical debates of his time. Responding to recent studies of publishing and audiences in the Romantic period, Stabler argues that Byron's poetics developed in response to contemporary cultural history and his reception by the English reading public. Drawing on extensive new archive research into Byron's correspondence and reading, Stabler traces the complexity of the intertextual dialogues that run through his work. For example, Stabler analyses *Don Juan* alongside Galignani's *Messenger*, Byron's principal source of news about British politics while in Italy, and refers to hitherto unpublished letters between Byron's publishers and his friends to reveal a powerful impulse among his contemporaries to direct his controversial poetic style to their own conflicting political ends. This fascinating study will be of interest to Byronists and more broadly to scholars of Romanticism in general.

State of Ridicule Dan Sperrin, 2025-04-29 This will be the first proper history of English satire from its origins in the late medieval period to the present day. This book is a history of political satire in English literature from the Middle Ages through the nineteenth century. The aim is to present a coherent history of what has been an ever-changing complex series of literary traditions that we refer to as satire from its beginnings in various kinds of medieval grotesque up to the proliferation of the modern novel. Author Dan Sperrin presents interesting and original insights into the satirist's paradoxical situation at both the periphery and the centre of culture. The text is organised chronologically by period.

and is concentrated upon canonical figures including Chaucer Dryden Swift Pope Johnson and Dickens but also including more obscure writers in such a way as to be focused enough to tell a story but broad enough to include variation of which there is decidedly a great deal by the very nature of what the author describes as a mercurial literary form Satire as Sperrin demonstrates often takes aim at grand narratives and comprehensive taxonomies and the book accounts for eccentricity and individuality as a matter of principle

Darke Hieroglyphicks Stanton J. Linden, 2021-05-11 The literary influence of alchemy and hermeticism in the work of most medieval and early modern authors has been overlooked Stanton Linden now provides the first comprehensive examination of this influence on English literature from the late Middle Ages through the sixteenth and seventeenth centuries Drawing extensively on alchemical allusions as well as on the practical and theoretical background of the art and its pictorial tradition Linden demonstrates the pervasiveness of interest in alchemy during this three hundred year period Most writers including Langland Gower Barclay Erasmus Sidney Greene Lyly and Shakespeare were familiar with alchemy and references to it appear in a wide range of genres Yet the purposes it served in literature from Chaucer through Jonson were narrowly satirical In literature of the seventeenth century especially in the poetry of Donne Herbert Vaughan and Milton the functions of alchemy changed Focusing on Bacon Donne Herbert Vaughan and Milton in addition to Jonson and Butler Linden demonstrates the emergence of new attitudes and innovative themes motifs images and ideas The use of alchemy to suggest spiritual growth and change purification regeneration and millenarian ideas reflected important new emphases in alchemical medical and occultist writing This new tradition did not continue however and Butler's return to satire was contextualized in the antagonism of the Royal Society and religious Latitudinarians to philosophical enthusiasm and the occult Butler like Shadwell and Swift expanded the range of satirical victims to include experimental scientists as well as occult charlatans The literary uses of alchemy thus reveal the changing intellectual milieus of three centuries
