Prospect Of Release Poems:

A Prospect of Poetry, with Other Poems James De-La-Cour, 1807 **Exchange Values** Tom Beckett, 2008-09 Look Round for Poetry Brian McGrath, 2022-05-17 Poetry is dead Poetry is all around us Both are trite truisms that this book exploits and challenges In his 1798 Advertisement to Lyrical Ballads William Wordsworth anticipates that readers accustomed to the poetic norms of the day might not recognize his experiments as poems and might signal their awkward confusion upon opening the book by looking round for poetry as if seeking it elsewhere Look Round for Poetry transforms Wordsworth's idiomatic expression into a methodological charge By placing tropes and figures common to Romantic and Post Romantic poems in conjunction with contemporary economic technological and political discourse Look Round for Poetry identifies poetry s untimely echoes in discourses not always read as poetry or not always read poetically Once one begins looking round for poetry McGrath insists one might discover it in some surprising contexts In chapters that spring from poems by Wordsworth Lucille Clifton John Keats and Percy Bysshe Shelley McGrath reads poetic examples of understatement alongside market demands for more the downturned brow as a figure for economic catastrophe Romantic cloud metaphors alongside the rhetoric of cloud computing the election of the dead as a poetical and not just a political act and poetic investigations into the power of prepositions as theories of political assembly For poetry to retain a vital power McGrath argues we need to become ignorant of what we think we mean by it In the process we may discover critical vocabularies that engage the complexity of social life all around us **Future-founding Poetry** Sascha Pöhlmann, 2015 An investigation of how American poetry since Whitman makes its beginnings with what means and to which political and aesthetic ends and how it addresses fundamental guestions about what the future is and how it may be affectednow Selections from the Poems of Robert Burns Robert Burns, 1898 **Poetry and the Feminine from Behn to Cowper** Jennifer Keith, 2005 Poetry and the Feminine from Behn to Cowper revisits the foundations of poetic representation and value for women and men poets of the Restoration and eighteenth century including Aphra Behn John Dryden Anne Killigrew Anne Finch and Alexander Pope The author argues that fundamental to poetic innovation in this era are poets revisions of feminine figures such as the muse and nature Feminine Nature serves these poets as an infinitely expandable category of form that allows them to redefine poetry and poetic subjectivity. These poetic innovations include exploring the very grounds of mimesis dismantling the hierarchy of poetic kinds and using sensibility to yoke aesthetic and ethical values Using an inclusive framework the author presents a history of poetic change through women s and men s complex dialogues with poetic contexts and conventions Jennifer Keith is Associate Professor at the University of North Carolina at Greensboro Poetry, Language, and Politics John Barrell, 1988 A Concordance to the Poems of Robert Browning, The Aldine reciter, modern poetry [selected] by A.H. Miles Alfred Henry Miles, 1889 Robert Bloomfield, Romanticism and the Poetry of Community Simon J. White, 2016-12-05 Robert Bloomfield whom John Clare described as the most original poet of the age was a widely read and

critically acclaimed poet throughout the first decade of the nineteenth century and remained popular until the beginning of the twentieth century Yet until now no modern critic has undertaken a full length study of his poetry and its contexts Simon J White considers the relationship between Bloomfield's poetry and that of other Romantic poets For example her argues that Wordsworth's poetics of rural life was in some respects a response to Bloomfield's The Farmer's Boy White considers Bloomfield's emphasis on the importance of local tradition and community in the lives of labouring people In challenging the idea that the formal and rhetorical innovation of Wordsworth and Coleridge was principally responsible for the emergence of a new kind of poetry at the turn of the eighteenth century he also shows that it is impossible to understand how the lyric and the literary ballad evolved during the Romantic period without considering Bloomfield's poetry White's authoritative study demonstrates that on the contrary Bloomfield's poetry was pivotal in the development of Romanticism Eighteenth-Century Poetry Christine Gerrard, 2014-02-10 A COMPANION TO EIGHTEENTH CENTURY POETRY A COMPANION TO EIGHTEENTH CENTURY POETRY Edited by Christine Gerrard This wide ranging Companion reflects the dramatic transformation that has taken place in the study of eighteenth century poetry over the past two decades New essays by leading scholars in the field address an expanded poetic canon that now incorporates verse by many women poets and other formerly marginalized poetic voices The volume engages with topical critical debates such as the production and consumption of literary texts the constructions of femininity sentiment and sensibility enthusiasm politics and aesthetics and the growth of imperialism The Companion opens with a section on contexts considering eighteenth century poetry s relationships with such topics as party politics religion science the visual arts and the literary marketplace A series of close readings of specific poems follows ranging from familiar texts such as Pope's The Rape of the Lock to slightly less well known works such as Swift's Stella poems and Lady Mary Wortley Montagu's Town Ecloques Essays on forms and genres and a series of more provocative contributions on significant themes and debates complete the volume The Companion gives readers a thorough grounding in both the background and the substance of eighteenth century poetry and is designed to be used alongside David Fairer and Christine Gerrard's Eighteenth Century Poetry An Annotated Anthology 3rd edition 2014

British Labouring-Class Nature Poetry, 1730-1837 B. Keegan, 2008-05-29 This study shows how poets worked within and against the available forms of nature writing to challenge their place within physical political and cultural landscapes Looking at the treatment of different ecosystems it argues that writing about the environment allowed labouring class poets to explore important social and aesthetic questions *Pre-Romanticism in English Poetry of the Eighteenth Century* J.R. Watson, 1989-02-22 This Casebook presents a wide ranging view of elements in eighteenth century poetry which anticipate the Romantic movement The principal poets considered are Thomson Gray Collins Goldsmith Cowper and Crabbe The selection of critical commentary is arranged in sections which reflect the different emerging concepts which eventually shaped the Romantic movement such as Poetics and Poetic Diction Nature Landscape and Description Poetry and Society

The Prospects of Africa, with Other Poems James JENNINGS Poetry and Religion and The Self and the Imagination The Columbia Literary History of the United States Emory Elliott, 1988-02-15 For the first time in four (of Huntspill.),1814 decades there exists an authoritative and up to date survey of the literature of the United States from prehistoric cave narratives to the radical movements of the sixties and the experimentation of the eighties. This comprehensive volume one of the century s most important books in American studies extensively treats Hawthorne Melville Dickinson Hemingway and other long cherished writers while also giving considerable attention to recently discovered writers such as Kate Chopin and to literary movements and forms of writing not studied amply in the past Informed by the most current critical and theoretical ideas it sets forth a generation s interpretation of the rise of American civilization and culture The Columbia Literary History of the United States contains essays by today s foremost scholars and critics overseen by a board of distinguished editors headed by Emory Elliott of Princeton University These contributors reexamine in contemporary terms traditional subjects such as the importance of Puritanism Romanticism and frontier humor in American life and writing but they also fully explore themes and materials that have only begun to receive deserved attention in the last two decades Among these are the role of women as writers readers and literary subjects and the impact of writers from minority groups both inside and outside the literary establishment English Poetry of the Eighteenth Century, 1700-1789 David Fairer, 2014-10-13 In recent years the canon of eighteenth century poetry has greatly expanded to include women poets labouring class and provincial poets and many previously unheard voices Fairer's book takes up the challenge this ought to pose to our traditional understanding of the subject This book seeks to question some of the structures categories and labels that have given the age its reassuring shape in literary history In doing so Fairer offers a fresh and detailed look at a wide range of material An Introduction to Poetic Forms Patrick Gill, 2022-12-29 An Introduction to Poetic Forms offers specimen discussions of poems through the lens of form While each of its chapters does provide a standard definition of the form in question in its opening paragraphs their main objective is to provide readings of specific examples to illustrate how individual poets have deviated from or subverted those expectations usually associated with the form under discussion While providing the most vital information on the most widely taught forms of poetry then this collection will very quickly demonstrate that counting syllables and naming rhyme schemes is not the be all and end all of poetic form Instead each chapter will contain cross references to other literary forms and periods as well as make clear the importance of the respective form to the culture at large be it the democratising communicative power of the ballad or the objectifying male gaze of the blazon and resistance to same in the contreblazon the efficacy of form is explored in the fullness of its cultural dimensions In using standard definitions only as a starting point and instead focusing on lively debates around the cultural impact of poetic form the textbook helps students and instructors to see poetic forms not as a static and lifeless affair but as living breathing testament to the ongoing evolution of cultural debates In the final analysis the book is interested in showing

the complexities and contradictions inherent in the very nature of literary form itself how each concrete example deviates from the standard template while at the same time employing it as a foil to generate meaning Reminiscences, Letters, Poetry and Miscellanies Josiah Staunton Moore, 1903 Encyclopedia of American Poetry: The Nineteenth Century Eric L. Haralson, 2014-01-21 With contributions from over 100 scholars the Encyclopedia of American Poetry The Nineteenth Centry provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet **A Companion to Romantic Poetry** Charles Mahoney, 2010-12-21 Through a series of 34 essays by leading and emerging scholars A Companion to Romantic Poetry reveals the rich diversity of Romantic poetry and shows why it continues to hold such a vital and indispensable place in the history of English literature Breaking free from the boundaries of the traditionally studied authors the collection takes a revitalized approach to the field and brings together some of the most exciting work being done at the present time Emphasizes poetic form and technique rather than a biographical approach Features essays on production and distribution and the different schools and movements of Romantic Poetry Introduces contemporary contexts and perspectives as well as the issues and debates that continue to drive scholarship in the field Presents the most comprehensive and compelling collection of essays on British Romantic poetry currently available
