Prospects For Democracy In Asia:

Prospects for Democracy in Asia Tatu Vanhanen, 1998 *Discussion Papers / Democracy in Asia and the Pacific Outlook 2023*, 2023-02-09 On 5-6 December 2022 International IDEA gathered 30 leading experts on democracy, anti-corruption and human rights at the inaugural Democracy in Asia and the Pacific Outlook Forum. Representing 23 institutions and organizations from 12 countries, attendees discussed key trends in democracy in the Asia and the Pacific region over the course of seven topical sessions. The sessions were previously defined by a round of consultations and interviews with several experts on democracy and human rights. The sessions on human rights, regional cooperation, climate change, China, disinformation, electoral authoritarianism and militarization, and political finance attempted to take stock of the current state of democracy in the region and forecast the determining factors in the year to come.

The Prospects for a Regional Human Rights Mechanism in East Asia (RLE Modern East and South East Asia) Hidetoshi Hashimoto, 2015-05-15 Regional inter-governmental human rights organizations have been in operation for sometime in Europe, the Americas and Africa. These regional human rights mechanisms have proven to be useful and effective in comparison to the global human rights mechanisms available at the United Nations. The purpose of this study, first published in 2004, is to investigate the possibility of establishing a regional inter-governmental human rights mechanism in East Asia with a focus on the contributions of nongovernmental organizations (NGOs) to such a development.

Political Oppositions in Industrialising Asia Garry Rodan, 2013-04-15 Rodan dissects the extent of political oppositions in Asia and analyzes the nature of new social movements outside institutional party politics which are contesting the exercise of state power. The book provides nine in-depth case studies.

Korean Security in a Changing East Asia Terence Roehrig, Jungmin Seo, Uk Heo, 2007-08-30 Since its partition in the 1950s, the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses and the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world. This study draws upon contributions from a diverse array of experts who offer their perspectives on the region's complex network of alliances and hostilities. The authors discuss the future of the region, the potential for military conflict and a new arms race, and the ways to maintain peace and stability. Since its partition in the 1950s, the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses while the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world. Japan, feeling increasingly threatened by the North Korean regime and China's extravagant military expenditures, has begun questioning Article IX in its Constitution that renounces war and the maintenance of armed forces. Its neighbors, still haunted by Japanese atrocities during World War II, are fearful of a new nuclear arms race in the region. The United States, for its part, has adopted unprecedented hard-line policies in response to 9/11, going so far as to condemn North Korea as part of an axis of evil. It has strengthened its alliance with Japan and alienated its long-time strategic partner, South Korea. Add to this the economic entanglements of each of these

countries both with each other and with the rest of the world and the regional security issues become even more paramount. This study makes sense of these complex alliances and frictions and offers an array of perspectives on the future of the region, the potential for military conflict and a new arms race and the ways to maintain peace and stability. Topics include big power rivalries, South Korea's sunshine policy, anti-Americanism and emerging nationalisms. *Globalizing Central Asia* Marlene Laruelle, Sebastien Peyrouse, 2015-02-12. In this global era, Central Asia must be understood in both geo-economic and geopolitical terms. The region's natural resources compel the attention of rivalrous great powers and ambitious internal factions. The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty. Russia and China dominate the horizon with other global players close behind; meanwhile, neighboring countries are fractious and unstable with real potential for contagion. This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption. Democratic Development in East Asia Becky Shelley, 2004-12-17. Democratic Development in East Asia explores an important but neglected topic in the literature on democratization in East Asia: the international dimension of democratization. It presents a coherent and comprehensive analysis of the impact of external political, economic and cultural factors on China, South Korea and Taiwan's political development since World War II. The author analyzes the circumstances under which the international context affects domestic actors' choice of political institutions and actions and concentrates on a selection of key international structures and actors that make up this complex picture. Shelley also examines the international political economy aspects of the United Nations system, diffuse cultural factors and processes, democracy movements and a number of international non-government organizations. **Natural Allies?: Regional Security in Asia and Prospects for Indo-American Strategic Cooperation**, 2005. Indo-American relations increasingly comprise expanded strategic and economic ties. India's government, led by Prime Minister Manmohan Singh, has stated its intention to intensify these ties with America. Clearly, the Bush administration agrees. For example, President Bush has indicated his intention to sustain the gains achieved since 2001 as a priority. Prime Minister Singh has invited the President to India. President Bush has indicated his intention to go there, leading Indian analysts to expect that what we are going to see is a consolidation of Indo-US ties on a range of strategic issues. We may see a greater emphasis on economic ones as well. The Bush administration is prepared to make a major offer of arms sales to India. This deal has many repercussions across the entire range of Indo-American relationships and of India's relationships with a host of important foreign governments like Russia, China, Pakistan and Israel. Undoubtedly, a reinforcement of the economic foundations of bilateral amity would be desirable for many reasons. This book-length monograph seeks to illuminate India's rising power and capabilities with regard to the key regions on its periphery: the Persian Gulf, Central Asia and South East Asia. The author also considers the major issues pertaining to India's bilateral defense agenda with the United States. By

revealing the dimensions of India's growing capabilities and interests he provides a strategic rationale developing the U S India partnership further Democratic Transition and Consolidation in Southern Europe, Latin America and Southeast Asia Diane Ethier, 2016-07-27 The breakdown of authoritarian regimes in Greece Spain and Portugal in the mid 70s was the beginning of a new cycle of democratization at the world scale The 1980s have seen the emergence of formal constitutional democracies in many countries especially in Latin America and Southeast Asia This book analyses in a comparative perspective the causes the modalities and the prospects of these political changes in three regions Southern Europe Latin America and Southeast Asia **Central Asia in Retrospect & Prospect** Mushtaq A. Kaw, 2010-01-01 Central Asia assimilated several alien traditions and trends and also forged conflicts and contradictions among the peoples of the region Therefore it cannot be understood without comprehension of its glorious past and budding present This compendium of thirty five papers presented at an international conference organized by the Centre of Central Asian Studies University of Kashmir Srinagar attempts to examine the various dynamics of Central Asia It addresses a wide range of issues concerning Central Asia's geo politics and geo strategy geo economics historico cultural relations and its relations with other countries of the world *Recent Developments in East Asia and the Pacific* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Asian and Pacific Affairs, 1993 Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen, 2005 Dossani's book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 **Asia and the Decline of Communism** Young C. Kim, Gaston Joseph Sigur, The monumental events that have hastened the collapse of communism in Europe have inevitably raised major concerns about the future of Communist regimes and systems in Asia What are the prospects for reform there What do the changes in Eastern Europe and the Soviet Union signify for Asia What effect would the decline of communism in Asia have on superpower relations and relations with non Communist Asian countries This volume examines these and other related questions and includes leading scholars on Chinese Japanese and Korean affairs as well as contributions by selected foreign specialists who provide their perspectives and analyses The first part offers commentary on the nature of political changes in the former Communist bloc and their implications for selected Asian countries Essays in the second part assess the likely impact of political developments on China North and South Korea Japan and Taiwan and on Japanese Soviet relations and U S Japanese economic and security relations Young C Kim and Gaston J Sigur **Index Islamicus**, 2006 Prospect Theory and Foreign Policy Analysis in the Asia Pacific Kai He, Huiyun Feng, 2013 Why does North Korea behave erratically in pursuing its nuclear weapons program Why did the United States prefer bilateral alliances to multilateral ones in Asia after World War II Why did China become nice no more military coercion in dealing with the pro independence Taiwan President Chen Shuibian after 2000 Why did China compromise in the negotiation of the Chunxiao gas exploration in 2008 while Japan became provocative later in the Sino Japanese disputes in the East China Sea North Korea's nuclear behavior U S alliance strategy

China's Taiwan policy and Sino Japanese territorial disputes are all important examples of seemingly irrational foreign policy decisions that have determined regional stability and Asian security. By examining major events in Asian security, this book investigates why and how leaders make risky and seemingly irrational decisions in international politics. The authors take the innovative step of integrating the neoclassical realist framework in political science and prospect theory in psychology. Their analysis suggests that political leaders are more likely to take risky actions when their vital interests and political legitimacy are seriously threatened. For each case, the authors first discuss the weaknesses of some of the prevailing arguments, mainly from rationalist and constructivist theorizing, and then offer an alternative explanation based on their political legitimacy prospect theory model. This pioneering book tests and expands prospect theory to the study of Asian security and challenges traditional expected utility based rationalist theories of foreign policy behavior. **World Outlook**, 1915 *Making of Southeast Asia* Amitav Acharya, 2003-08-01 Amitav Acharya has written a splendidly ambitious book. Travelling from the discipline of International Relations to the historiography of Southeast Asia and back again, it draws upon a range of methodologies to analyse the issue of identity in the configuration of Southeast Asia. But it provides more than an academic assessment. With this book, Acharya must be judged to have contributed not just to the study of Southeast Asian regionalism, but to the process itself. Anthony Milner Basham, Professor of Asian History, Australian National University.

Democratization, National Identity and Foreign Policy in Asia Gilbert Rozman, 2021-04-20 How can democratization move forward in an era of populist nationalist backlash? Many countries in Asia and elsewhere face the challenge of navigating between China and the United States in a period of intensifying polarization in their policies tied to democracy. East Asia has shown the way to democratization in Asia, with Japan, South Korea and Taiwan linking national identity to democratization. In other parts of Asia, especially Southeast Asia, nationalist governments have tended to move away from democratization as happened in Hong Kong at China's insistence. This book investigates how national identity can both help and hinder democratization, illustrated by a series of examples from across Asia. A valuable guide for students and scholars both of democratization and of Asian politics. **Economic Outlook for Southeast Asia, China and India 2016 Enhancing Regional Ties** OECD, 2016-01-22 The annual Economic Outlook for Southeast Asia, China and India examines Asia's regional economic growth, development and regional integration process. **Economic Outlook for Southeast Asia, China and India 2015 Strengthening Institutional Capacity** OECD, 2015-03-23 The Economic Outlook for Southeast Asia, China and India is an annual publication on Asia's regional economic growth, development and regional integration process.
