Through the Knowledge and Power of Mind Lectures and Mental Treatments Delivered in London New York Chicago San Francisco and Los Angeles in the Years Between 1900 and 1913 This hand book of Prosperity was written from the basis that thought is a substantial influence in the world like electricity steam heat and light That man can control direct transform and dissipate his thoughts in the same way that he manipulates the forces that are evident to his five senses If the man who takes

this book has studied psychology and metaphysics from this viewpoint he doubtless has had proof of this thought power If he has not then let him approach this book with a fair mind willing to investigate and not to judge until all the evidence is in and a thorough trial has been given to the practices and applications recommended In many cases the simple perusal of the book will be sufficient to bring about a marked change for the better in one s affairs But the most earnest desire of the Author is not that one shall be merely prospered in his worldly affairs by this volume but that the little book shall prove the door of a new life And that the reader shall go on studying other works of like nature until he knows all the joy and freedom that have come to the many who have found their peace and happiness by living the principles that are here upheld The Author will always be glad to hear from those who have been benefited by these teachings About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
