Dornbusch, 2017-06-12 Brewed centuries ago by monks and nuns this copper colored full bodied ale has a proud and unbroken brewing tradition dating back to the beginning of civilization Horst Dornbusch sheds light on the practices of commercial altbier makers how the equipment and ingredients used affect its flavor and how this full bodied brew became one of Germany's most beloved beer styles Recipes are included *Brewers Publications Classic Beer Style Series* is devoted to offering in depth information on world class beer styles by exploring their history flavor profiles brewing methods recipes and ingredients Germany Neil MacGregor, 2015-09-29 For the past 140 years Germany has been the central power in continental Europe Twenty five years ago a new German state came into being How much do we really understand this new

Germany and how do its people understand themselves Neil MacGregor argues that uniquely for any European country no coherent overarching narrative of Germany's history can be constructed for in Germany both geography and history have always been unstable Its frontiers have constantly shifted Königsberg home to the greatest German philosopher Immanuel Kant is now Kaliningrad Russia Strasbourg in whose cathedral Wolfgang von Goethe Germany's greatest writer discovered the distinctiveness of his country's art and history now lies within the borders of France For most of the five hundred years covered by this book Germany has been composed of many separate political units each with a distinct history And any comfortable national story Germans might have told themselves before 1914 was destroyed by the events of the following thirty years German history may be inherently fragmented but it contains a large number of widely shared memories awarenesses and experiences examining some of these is the purpose of this book MacGregor chooses objects and ideas people and places that still resonate in the new Germany porcelain from Dresden and rubble from its ruins Bauhaus design and the German sausage the crown of Charlemagne and the gates of Buchenwald to show us something of its collective imagination There has never been a book about Germany quite like it
