## **Prostitution Policy A Feminist Perspective:**

Prostitution Policy Lenore Kuo, 2005-09-01 While widely acknowledged as the world's oldest profession and often glamorized or demonized in the media prostitution is a critical part of American culture and its economy as well as a social problem in need of an updated public policy In Prostitution Policy Lenore Kuo combines feminist social research and legal studies to tackle issues raised by heterosexual prostitution in the U S Through the lens of feminist theory Kuo examines the milieu of prostitutes and the role of prostitution in contemporary society and how the interplay of those two works itself out in practice Moving beyond theoretical analysis of prostitution Prostitution Policy turns to the complicated problem of formulating a reasonable legal policy that minimizes harm Kuo discusses criminalization legalization and decriminalization as possible approaches ultimately arguing for a unique form of decriminalization including detailed legal oversight and mandatory social services

*Feminism, Prostitution and the State* Eilis Ward, Gillian Wylie, 2017-02-17 This edited volume focuses on charting the rise of neo abolitionism and offering a critique of the idea its logics and consequences A model of state policy which aims to abolish prostitution through legislation Neo abolitionism criminalises the buyer of sex but not the seller It is currently law in Sweden and other Nordic states and dominates the framing of policy debates in many other Western liberal contexts Pressure for adoption of this policy has come from radical feminists who understand prostitution and sex trafficking as a form of violence against women This volume argues that this convergence between radical feminism and state's interests arises from the emergence of on the one hand governance feminism which seeks to have its ideals implemented through top down sovereigntist means and on the other hand state's interests in legitimising stricter border controls and law enforcement responses in relation to transnational organised criminality illegal migration and security Based around a series of country case studies each chapter will explore the politics surrounding the emergence of neo abolitionism and its trajectory through those polities whether the paradigm has been adopted rejected or is still under debate The volume will be of great interest to students and scholars of Social and Public Policy Gender and Women's Studies Politics and International Relations and Critical Legal Studies Criminology

*Feminist Perspectives on Criminal Law* Lois Bibbings, Donald Nicolson, 2013-03-04 First published in 2000 Routledge is an imprint of Taylor Francis an informa company

*Law and Gender in Modern Ireland* Lynsey Black, Peter Dunne, 2019-02-21 Law and Gender in Modern Ireland Critique and Reform is the first generalist text to tackle the intersection of law and gender in this jurisdiction for over two decades As such it could hardly have come at a more opportune moment The topic of law and gender perhaps more so than at any other time in Irish history has assumed a dominant place in political and academic debate Among scholars and policy makers alike the regulation of gendered bodies and the legal status of sexual and gendered identities is now a highly visible fault line in public discourse Debates over reproductive justice exemplified by the recent referendum to remove the 8th Amendment increased rights for lesbian gay bisexual and transgender persons including the public sanctioned introduction of same sex

marriage and the historic mistreatment of women and young girls have re shaped Irish public and political life and encouraged Irish society to re examine long unchallenged gender norms While many traditional flashpoints remain such as abortion and prostitution sex work there are also new questions including surrogacy and the gendered experience of asylum frameworks which have emerged As policy makers seek to enact reforms they face a population with increasingly polarised perceptions of gender and a legal structure ill equipped for modern realities This edited volume directly addresses modern Irish debates on law and gender Providing an overview of the existing rules and standards as well as exploring possible options for reform the collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change While the edited collection applies a doctrinal methodology to explain current statutes case law and administrative practices the contributors also invoke critical gender queer and race perspectives to identify and problematise existing and potential challenges This edited collection is essential reading for all who are interested in law gender and processes of social change in modern Ireland

*Troubling Sex* Elaine Craig, 2012-07-01 When legal scholars or judges approach the subject of sexuality they are often constrained by existing theoretical frameworks For instance queer theorists typically focus on sexual liberty but tend not to consider issues such as sexual violence Feminist theories focus on violence but often don t give recognition to the joy of sexuality To assess the possibility of devising a legal theory of sexuality that can ensure equality without assimilation diversity without exclusion and liberty without suffering Elaine Craig examines the Supreme Court of Canada s approach to sexuality in cases that range from sexual violence to discrimination based on orientation Although the Court continues to hold an essentialist understanding of sexuality that renders certain harms invisible its feminist inspired approach to sexual violence recognizes the socially constructed nature of sexuality and produces legal reasoning that promotes sexual integrity as a common interest Blending feminist theory with the inclusiveness of queer theory Craig advances an iconoclastic approach to law and sexuality that has the power to transform both theory and practice

**European Prostitution Reform** Greggor Mattson, 2016-01-28 The Cultural Politics of European Prostitution Reform traces case studies of four European Union countries to reveal the way anxieties over globalization translates into policies to recognize sex workers in some countries punish prostitutes clients in others and protect victims of human trafficking in them all

*Assessing Prostitution Policies in Europe* Synnøve Jahnsen, Hendrik Wagenaar, 2019-07-30 Once again prostitution occupies a prominent position on public and political agendas both nationally and internationally A topic of concern and interest within social and academic realms it is a highly moralised contested issue that is at the centre of heated and drawn out debates With each chapter dedicated to a separate country and written by a national authority on the subject Assessing European Prostitution Policies seeks to explore how prostitution is regulated in 21 European countries thus drawing out important implications for an effective and humane prostitution policy Indeed this innovative volume brings together systematic accounts of how national and local forms of governance influence the commercial market for sex as well as the lives of sex workers and third parties All chapters cover the history of prostitution policy national laws regulating prostitution policy formulation and implementation the national discourse on prostitution the gap between national and local regulation the impact of policy on the lives and rights of sex workers and sex worker advocacy organizations In addition to this the authors examine and highlight how immigration labour fiscal and welfare law have as much impact on the sex trade as designated prostitution law A unique interdisciplinary title that is comprehensive in its coverage Assessing European Prostitution Policies will appeal to undergraduate and postgraduate students postdoctoral researchers sex worker advocacy organisations and policy makers interested in fields such as Sexuality and Prostitution Public Policy Criminology and Gender Studies

**Selling Sex** Emily Van der Meulen, Elya M. Durisin, Victoria Love, 2013 Despite being dubbed the world's oldest profession prostitution has rarely been viewed as a legitimate form of labour Instead it has been criminalized sensationalized and polemicized across the socio political spectrum by everyone from politicians to journalists to women's groups Interest in and concern over sex work is not grounded in the lived realities of those who work in the industry but rather in inflammatory ideas about who is participating how they wound up in this line of work and what form it takes In *Selling Sex* Emily van der Meulen Elya M Durisin and Victoria Love present a more nuanced balanced and realistic view of the sex industry They bring together a vast collection of voices including researchers feminists academics and advocates as well as sex workers of differing ages genders and sectors to engage in a dialogue that challenges the dominant narratives surrounding the sex industry and advances the idea that sex work is in fact work Presenting a variety of opinions and perspectives on such

diverse topics as the social stigma of sex work police violence labour organizing anti prostitution feminism human trafficking and harm reduction **Selling Sex** is an eye opening challenging and necessary book Publisher's website **Prostitution Policy in the Nordic Region** May-Len Skilbrei, Charlotta Holmström, 2016-04-08 There is great interest internationally in the development of prostitution policies in the Nordic countries after Sweden Norway and Iceland have introduced general bans against buying sex whilst selling sex remains legal In addition there is a partial ban against buying sex in Finland This is a different approach from that of several other European countries where we have seen a decriminalisation of third party involvement in prostitution as well as to that of the USA which criminalises both the buying and selling of sexual services Thus the Nordic countries are often treated as representatives of a Nordic model of prostitution policies In this book the first on the subject Skilbrei and Holmström argue that these models of policies or policy regimes tend to ignore the trajectories contexts and consequences of the full range of approaches to prostitution thus they are too simplistic and static Prostitution policies in the Nordic countries are multifaceted and dynamic and cannot be represented as following a straight path and detached from empirical contexts Their analysis treats Nordic prostitution policies both as a product of history of current national and Nordic debates and of international obligations and changes in the international and national prostitution markets Furthermore they argue that a broad understanding of the relevant context is necessary so as to place Nordic prostitution policies within broader policy concerns related to gender class ethnicity sexuality social welfare immigration and organised crime as well as to neoliberal forms of governance **Silenced Voices: Sex Workers' Human Rights in**

**Europe** Cristina Cayo Ascencio, 2024-05-24 Changes in the regulation of sex work have been observed over the last two decades The trend towards the partial criminalization of sex work targeting clients has gained significant support at the European level under the arguments of gender violence and human trafficking However this regulatory approach has not adequately addressed the negative consequences for sex workers themselves In order to determine whether the European Convention on Human Rights provides protection for sex workers in this context this paper examines the contrasting feminist perspectives influencing the debate the legal framework at the national regional and international levels and case law The case pending in Strasbourg *M.A. and Others v France* is analysed in the light of the potential protection of the right to life the prohibition of degrading treatment and the right to respect for private life **Contexts of Deviance** J.
