Protecting The Pub Brewers And Publicans Against Temperance:

Protecting the Pub David W. Gutzke, 1989 Reacting to attacks by temperance reformers in late Victorian England brewers and publicans formed the trade a pressure group with a formidable reputation though it surmounted internal discord only briefly to defeat the threat of prohibition in the 1890s *Alcohol and Temperance in Modern History* Jack S. Blocker Jr., David M. Fahey, Ian R. Tyrrell, 2003-12-17 A comprehensive encyclopedia on all aspects of the production consumption and social impact of alcohol *Alcohol and Temperance in Modern History* An International Encyclopedia spans the history of alcohol production and consumption from the development of distilled spirits and modern manufacturing and distribution methods to the present Authoritative and unbiased it brings together the work of hundreds of experts from a variety of disciplines with an emphasis on the extraordinary wealth of scholarship developed in the past several decades Its nearly 500 alphabetically organized entries range beyond the principal alcoholic beverages and major producers and retailers to explore attitudes toward alcohol in various countries and religions traditional drinking occasions and rituals and images of drinking and temperance in art painting literature and drama Other entries describe international treaties and organizations related to alcohol production and distribution global consumption patterns and research and treatment institutions as well as temperance prohibition and antiprohibitionist efforts worldwide **A New England?** G. R. Searle, 2005 G R Searle s narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close **The Mystique of Running the Public House in England** David W. Gutzke, 2024-05-14 This book is the first scholarly study to explore economic relations between brewers and publicans in the brewing industry over a century Based on overlooked historical evidence this volume examines over 400 interviews with candidates for public houses unpublished evidence of royal commissions heard in secrecy representations of publicans in fiction and film and systematic reading of 15 licensed victuallers newspapers *The Mystique of Running the Public House in England* situates licensed victualling among upper working and lower middle class occupations in England and abroad This book explores why aspiring but untrained individuals sought public house tenancies notwithstanding high levels of turnovers and numerous bankruptcies among licensed victuallers Encapsulated in any newcomer s appraisal was the captivating vision of El Dorado a nirvana which promised unimaginable wealth high social status respectability and social mobility as rewards for those limited in income but not in ambition Despite the allure of El Dorado the likelihood of publicans realizing their aspirations was quite as remote as that of fish and chip proprietors Blackpool landladies and French caf proprietors This volume will be of great value to students and scholars alike interested in British History Economic History and Social and Cultural History **Routledge Handbook of Leisure Studies** Tony Blackshaw, 2020-07-26 This landmark publication brings together some of the most perceptive commentators of the present moment to explore core ideas and cutting edge developments in the field of Leisure

Studies It offers important new insights into the dynamics of the transformation of leisure in contemporary societies tracing the emergent issues at stake in the discipline and examining Leisure Studies fundamental connections with cognate disciplines such as Sociology Cultural Studies History Sport Studies and Tourism This book contains original work from key scholars across the globe including those working outside the Leisure Studies mainstream It showcases the state of the art of contemporary Leisure Studies covering key topics and key thinkers from the psychology of leisure to leisure policy from Bourdieu to Baudrillard and suggests that leisure in the 21st century should be understood as centring on a new Big Seven holidays drink drugs sex gambling TV and shopping No other book has gone as far in redefining the identity of the discipline of Leisure Studies or in suggesting how the substantive ideas of Leisure Studies need to be rethought The Routledge Handbook of Leisure Studies should therefore be the intellectual guide of first choice for all scholars academics researchers and students working in this subject area

A New England? G. R. Searle, 2005-07-29 G R Searle's absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen's golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle's historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England's great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool's tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886-1918 are brought into focus in this magisterial history

THE NEW OXFORD HISTORY OF ENGLAND The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a

generation **The World of the Paris Café** W. Scott Haine,1998-09-04 In *The World of the Paris Café* W Scott Haine investigates what the working class café reveals about the formation of urban life in nineteenth century France Café society was not the product of a small elite of intellectuals and artists he argues but was instead the creation of a diverse and changing working population Making unprecedented use of primary sources from marriage contracts to police and bankruptcy records Haine investigates the café in relation to work family life leisure gender roles and political activity This rich and provocative study offers a bold reinterpretation of the social history of the working men and women of Paris

Alcohol and Moral Regulation Henry Yeomans,2014-06-18 Alcohol consumption is frequently described as a contemporary worsening and peculiarly British social problem that requires radical remedial regulation Informed by historical research and sociological analysis this book takes an innovative and refreshing look at how public attitudes and the regulation of alcohol have developed through time It argues that rather than a response to trends in consumption or harm ongoing anxieties about alcohol are best understood as hangovers derived in particular from the Victorian period The product of several years of research this book aims to help readers re evaluate their understandings of drinking As such it is essential reading for students academics and anyone with a serious interest in Britain's drink problem *Consuming Health*

Sara Henderson,Alan Petersen,2004-03-01 In our post welfare society health is increasingly viewed as a commodity and individuals are defined as health care consumers At the same time the notion that the state should care for the health of its citizens is being replaced by an expectation that citizens should play a more active role in caring for themselves These developments are by no means uncontroversial *Consuming Health* explores the diverse meanings and applications of the term consumer in the field of health care and the implications for policy making health care delivery and experiences of health care Contributors are well known innovative researchers and lecturers from the Australia the UK and Canada Between them they cover a wide range of topics from the medicalisation of the menopause to the participation of consumer groups in the national policy process to create an original and thought provoking text for students and practitioners in the field of health care **International Bibliography of Business History**

Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The *International Bibliography of Business History* brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians **Women drinking out in Britain since the early twentieth century**

David Gutzke,2016-05-16 Given recent media coverage of women s drinking habits it is surprising that a topic of such interest has not produced a comprehensive examination This book provides not just a survey spanning a century of momentous change but integrates diverse sources with concepts to offer a new understanding of the changing nature of women s drinking patterns It challenges traditional assumptions and offers original interpretations about the diverse factors influencing women s consumption of alcohol including advertising moral panics sexism legislative initiatives employment age ethnicity technology new drinking venues and marketing strategies What most influenced how women transformed their consumption of alcohol What beverages did they drink To what extent did women themselves act as agents of change These and other questions serve as the basis for analysing women s drinking patterns from a social and cultural perspective Close attention is also paid to the image of drinking projected in advertising the mass media and films **History of Drinking**

Anthony Cooke,2015-07-19 This book examines continuity and change in the functions of Scottish drinking places *Gender and Medicine in Ireland* Margaret H. Preston,Margaret Ó hÓgartaigh,2012-11-27 The essays in this collection examine the intersections between gender medicine and conventional economic political and social histories in Ireland between 1700 and 1950 Gathering many of the top voices in Irish studies and the history of medicine the editors cover a range of topics including midwifery mental health alcoholism and infant mortality Composed of thirteen chapters the volume includes James Kelly s original analyses of eighteenth century dental practice and midwifery placing the Irish experience in an international context Greta Jones in an exploration of a disease that affected thousands in Ireland explains the reasons for higher tuberculosis mortality among women Several essays call attention to the attempted containment of disease exploring the role of asylums and the gendered attitudes toward insanity and reform Contributors highlight the often neglected impact of nurses and midwives occupations traditionally dominated by women Presenting a social history of Irish medicine the disparate essays are united by several common themes the inherent danger of life in eighteenth and nineteenth century Ireland the specific brutality of women s lives at the time and the heroics of several enlightened figures **Brewing Science, Technology and Print, 1700-1880** James Sumner,2015-07-28 How did the brewing of beer become a scientific process Sumner explores this question by charting the theory and practice of the trade in Britain and Ireland during the eighteenth and nineteenth centuries **The Saturated Society** Pekka Sulkunen,2009-03-18 How can policy makers justify public intervention into private life And why does this interference often translate into contradictory or non reflexive politics on lifestyles This engaging title discusses the social cultural and policy consequences of these conditions as well as showing the effect of agency and choice upon regulation The book critically examines Neo Liberal ideology and the free market The Sociology of Modernity The New Consumer Society Citizenship in Mass Society The power of Autonomy The interaction of Regulation and Agency It provides a developed genealogical account of society is enriched by original case studies and engages with a broad range of traditional approaches and sources including the work of Ulrich Beck Anthony Giddens Adam

Smith and Pierre Bourdieu This well researched and thought provoking work will be of interest to students of social policy and sociology as well as policy makers and field workers **Morality and the Market in Victorian Britain** Geoffrey Russell Searle,1998 In this lively and interesting study G R Searle tackles the conundrum at the heart of Victorian life how could capitalist values be harmonized with Christian beliefs and with concepts of public morality and social duty Middle class Victorians who broadly welcomed industrial growth and embraced the doctrines of political economy were sensitive to the charge that theirs was a selfish and materialistic creed Consequently if public morality was to be reconciled with the market wage labour had to be distinguished from slavery investment from speculation and entrepreneurial acumen from dishonesty and fraud These ideas about citizenship and public virtue offered a greater challenge to rampant capitalism than any pressing need to alleviate poverty Through its exploration of Victorian values this book provides lessons for all those engaged in the present day debate about the moral and social consequences of unleashing free market forces **The Politics of**

Drink in England, from Gladstone to Lloyd George David M. Fahey,2022-01-25 This book is about alcoholic drink political parties and pressure groups From the 1870s into the 1920s excessive drinking by urban workers frightened the major political parties They all wanted to reduce the number of public houses It was not easy to find a way that would satisfy temperance reformers many of them prohibitionists and the licensed drink trade Brewers demanded compensation when pubs were closed but temperance reformers were vehemently opposed to this The book highlights a prolonged struggle of vested interests and ideologies in this regard showing that a Royal Commission in 1899 helped break the stalemate In a controversial deal brewers got compensation but they had to pay for closing some of their own pubs Later during the First World War the government experimented with an alternative to closing public houses disinterested or non commercial management and considered State Purchase of the entire drink trade Transport and Its Place in History David

Turner,2020-06-07 Transport and mobility history is one of the most exciting areas of historical research at the present As its scope expands it entices scholars working in fields as diverse as historical geography management studies sociology industrial archaeology cultural and literary studies ethnography and anthropology as well as those working in various strands of historical research Containing contributions exploring transport and mobility history after 1800 this volume of eclectic chapters shows how new subjects are explored new sources are being encountered considered and used and how increasingly diverse and innovative methodological lenses are applied to both new and well travelled subjects From canals to Concorde from freight to passengers from screen to literature the contents of this book will therefore not only demonstrate the cutting edge of research and deliver valuable new insights into the role and position of transport and mobility in history but it will also evidence the many and varied directions and possibilities that exist for the field s future development
