Protecting Yourself Online The Definitive Resource On Safety Freedom And Privacy In Cyberspace:

Protecting Yourself Online Eff,1998-04-01 Like any new frontier cyberspace offers both exhilarating possibilities and unforeseen hazards As personal information about us travels the globe on high speed networks often with neither our knowledge nor our consent a solid understanding of privacy and security issues is vital to the preservation of our rights and civil liberties In reaping the benefits of the information age while safeguarding ourselves from its perils the choices we make and the precedents we establish today will be central in defining the future of the electronic frontier font Since 1991 the non profit Electronic Frontier Foundation EFF has worked to protect freedoms and advocate responsibility in new media and the online world In *Protecting Yourself Online* Robert Gelman has drawn on the collective insight and experience of EFF to present a comprehensive guide to self protection in the electronic frontier In accessible clear headed language *Protecting Yourself Online* addresses such issues as avoiding spam junk mail spotting online scams and hoaxes protecting yourself from identity theft and fraud guarding your email privacy and knowing when you can t assessing the danger of viruses keeping the net free of censorship and safe for your children protecting your intellectual property Produced by the leading civil libertarians of the digital age and including a foreword by one of the most respected leaders in global business and the cyberworld Esther Dyson *Protecting Yourself Online* is an essential resource for new media newcomers and old Internet hands alike

Naked in Cyberspace Carole A. Lane,2002 Reveals the personal records available on the Internet examines Internet privacy and explores such sources of information as mailing lists telephone directories news databases bank records and consumer credit records

Law and Society Approaches to Cyberspace Paul Schiff Berman,2017-11-28 During the past decade the rise of online communication has proven to be particularly fertile ground for academic exploration at the intersection of law and society Scholars have considered how best to apply existing law to new technological problems but they also have returned to first principles considering fundamental questions about what law is how it is formed and its relation to cultural and technological change This collection brings together many of these seminal works which variously seek to interrogate assumptions about the nature of communication knowledge invention information sovereignty identity and community From the use of metaphor in legal opinions about the internet to the challenges posed by globalization and deterritorialization to the potential utility of online governance models to debates about copyright free expression and privacy this collection offers an invaluable introduction to cutting edge ideas about law and society in an online era In addition the introductory essay both situates this work within the trajectory of law and society scholarship and summarizes the major fault lines in ongoing policy debates about the regulation of online activity

Financial Privacy & Electronic Commerce Benjamin E. Robinson, III,2000-08-26 The financial services sector has had a respectable track record in the protection of consumer privacy However business practices industry consolidation electronic commerce and economic trends have raised consumer privacy as a key issue in the financial services sector Improvements in the rapid transfer of information

provide a new medium for the purchase of goods and services that is the medium of electronic commerce The European Union has forced the issue with the Data Protection Directive As a result the United States has had to debate the lack of regulation or standards governing the new medium of electronic commerce The debate could hinder any advance by society to engage in new technology Because of increased government attention through regulatory and legislative action corporations are developing self regulatory initiatives to create industry standards for electronic commerce Consumer privacy deals with how and what types of information are collected and how the data is controlled and accessed Consumer concepts of privacy will resist or allow different configurations of what is allowable and what is utilized The book is an exploratory and descriptive study that assesses the privacy concerns of today s consumer as well as determines the potential impact of consumer privacy concerns on technological innovation and public policy In order to understand privacy concerns the study builds and extends current quantitative research on privacy in the financial service sector Current research was developed to assess the privacy concerns of consumers It was not designed to analyze or evaluate the specific impact of privacy on underrepresented consumers The study expands research to focus on this particular segment of the population Using privacy as the foundational issue motivation for developing perspectives on financial education the study focuses on people of color in the financial mainstream of our economy
