The Protection of Witnesses and Collaborators of Justice Council of Europe. Committee of Ministers, European Committee on Crime Problems. Committee of Experts on the Protection of Witnesses and Collaborators of Justice, 2005-01-01 In order to combat terrorism states often rely on the testimony of people who are closely connected to terrorist groups and who are more vulnerable than others to the use of intimidation against them or against people close to them This may endanger the success of prosecutions often based on long and complicated investigations Strengthening international co operation in this field is also a useful means to ensure the protection of those persons whose protection would prove difficult on a merely national basis given the conditions in the country where they are located The Council of Europe has extensive experience in this area based on existing European conventions and other standards On that basis and having drawn up a survey of national laws and practice in member and observer states the Council of Europe has drawn up a new standard Recommendation Rec 2005 9 of the Committee of Ministers to member states on the protection of witnesses and collaborators of justice which is the subject of this publication

Protection and Criminal Justice in Africa Suzzie Oyakhire,2023-06-30 This book examines the concept of witness protection which is still at an early developmental stage in several African countries including Nigeria from a legal and institutional perspective Recent developments in Nigeria highlight the need to clarify legal and conceptual issues within the existing legal framework for protecting witnesses Using the Nigerian case study the book illustrates some obscurities inherent in the concept of witness protection These are highlighted around five critical areas the definition of witness protection the scope of beneficiaries requiring protection the nature of crimes necessitating protection the nature of protective measures and the administrative control of witness protection Specifically this book draws from the existing literature and practices of witness protection and adopts two distinct perspectives the criminal justice perspectives and human rights perspectives as heuristic tools for analysing the concept and to separate the disparate influences that shape how it is construed These distinctions are utilised throughout the book as an integrated way of conceptualising the concept of witness protection By discussing the practice of witness protection within the Nigerian context the book contributes to African conversations on the topic of witness protection The clarifications made in this book are utilised in making normative proposals for developing a legal framework for witness protection in Nigeria They are also useful for other African countries interested in developing a witness protection framework as part of criminal justice reform This book will serve as a reference point for legal scholars researchers academics postgraduate students and policy makers interested in the concept of witness protection It would also be useful for courses concerned with comparative criminology where there is an interest in developments in the Global South **The Disruption of International Organised Crime** Angela Veng Mei
