## **Protestant Thought In The Twentieth Century:**

**Protestant Thought in the Twentieth Century** Arnold Samuel Nash,1978 *Protestant Thought in the Twentieth Century: Whence & Whither?* Arnold Samuel Nash,1951 Protestant Thought in the Twentieth Century Arnold Samuel Nash,2003-01-01

**Protestant Thought in the Twentieth Century**,1951 **The Protestant Presence in Twentieth-Century America** Phillip E. Hammond,1992-10-22 Protestantism has undergone a shift in its relationship with American culture and politics This book analyzes and evaluates that shift The author shows how Protestantism began in America as a vibrant civil religion and how it developed so that by the 1970s its relationship with American culture and politics had changed radically He shows how Evangelical Protestantism came into being and remains resilient Hammond also discusses religious culture as it dealt with the courts the separation of church and state and the changing meaning of this doctrine Women and Twentieth-century Protestantism Margaret Lamberts Bendroth,Virginia Lieson Brereton,2002 Contributors consider the emergence of Latina Pentecostal clergy in the United States and the success of the Women s Missionary Union of the Southern Baptist Convention in remaining independent of male dominated denominational structures Among other topics the authors discuss Chinese immigrant women who embraced the relative freedom offered by Protestant religion African American women who assumed religious authority through their historical writing and the struggles of women faith healers in defining their role amid medical and evangelical professionalism **Encyclopedia of Protestantism** Hans J. Hillerbrand,2004-08-02 For more information including sample entries full contents listing and more visit the Encyclopedia of Protestantism web site Routledge is proud to announce the publication of a new major reference work from world renowned scholar Hans J Hillerbrand The Encyclopedia of Protestantism is the definitive reference to the history and beliefs that continue to exert a profound influence on Western thought Featuring entries written by an international team of specialists and scholars the encyclopedia traces the course of Protestantism from its beginnings prior to 1517 when Martin Luther nailed his 95 Theses to the door of Wittenberg Cathedral to the vital and diverse international scene of the present day *The Irish Protestant Churches in the Twentieth Century* Alan Megahey,2000-08-17 This book is unique in recording the history of all the Protestant churches in Ireland in the twentieth century though with particular focus on the two largest the Presbyterian and the Church of Ireland It examines the changes and chances in those churches during a turbulent period in Irish history relating their development to the wider social and political context Their structures and beliefs are examined and their influence both in Ireland and overseas is assessed *The Transformation of American Religion : The Story of a Late-Twentieth-Century Awakening* Amanda Porterfield Professor of Religious Studies University of Wyoming,2001-04-05 As recently as a few decades ago most people would have described America as a predominantly Protestant nation Today we are home to a colorful mix of religious faiths and practices from a resurgent Catholic Church and a rapidly growing Islam to all forms of Buddhism and many other non Christian religions How did this startling

transformation take place A great many factors contributed to this transformation writes Amanda Porterfield in this engaging look at religion in contemporary America Religious activism disillusionment with American culture stemming from the Vietnam war the influx of Buddhist ideas a heightened consciousness of gender and the vastly broadened awareness of non Christian religions arising from the growth of religious studies programs all have served to undermine Protestant hegemony in the United States But the single most important factor says Porterfield was the very success of Protestant ways of thinking emphasis on the individual's relationship with God tension between spiritual life and religious institutions egalitarian ideas about spiritual life and belief in the practical benefits of spirituality Distrust of religious institutions for instance helped fuel a religious counterculture the tendency to define spiritual truth against the dangers or inadequacies of the surrounding culture and Protestantism's pragmatic view of spirituality played into the tendency to see the main function of religion as therapeutic For anyone interested in how and why the American religious landscape has been so dramatically altered in the last forty years *The Transformation of Religion in America* offers a coherent and persuasive analysis *The Religion of Christ in the Twentieth Century ...*, 1906

**Original Sin and Everyday Protestants** Finstuen, 2010-07-13 In the years following World War II American Protestantism experienced tremendous growth but conventional wisdom holds that midcentury Protestants practiced an optimistic progressive complacent and materialist faith In *Original Sin and Everyday Protestants* historian Andrew Finstuen argues against this prevailing view showing that theolog

**In Quest of a Vital Protestant Center** George Demetrion, 2014-10-06 In *Quest of a Vital Protestant Center* probes the relationship between Scripture and culture in twentieth century US theology and biblical studies It points to the necessity of turning to what Karl Barth has referred to as the strange new world within the Bible for any revitalization of mainline Protestantism in the tradition of the Protestant Reformers in critical dialogue with serious evangelical theology The study includes a historical overview underlying what Demetrion refers to as the fundamentalist modernist great divide which continues to resonate powerfully in contemporary US Protestant thought and culture Demetrion offers an in depth exploration of four representative twentieth century Protestant theologians and biblical scholars spanning from the conservative evangelical theology of J I Packer to the postliberal dialectical theology of Walter Brueggemann The book includes a chapter on the neo orthodox legacy as a mediating resource in bringing evangelical and postliberal theology into dialogue with the core issues of theology biblical hermeneutics and religious culture Demetrion concludes with a critically empathetic review of the postliberal dialectical theology of Douglas J Hall and the evangelical narrative theology of Richard Lints In linking evangelical postliberal and neo orthodox theology to a common search for a vital Protestant center this book will facilitate fruitful dialogue among divergent schools of Protestant thought and culture

*Twentieth-Century Philosophy of Religion* Graham Oppy, N. N. Trakakis, 2014-09-11 The twentieth century saw religion challenged by the rise of science and secularism a confrontation which resulted in an astonishingly diverse range of philosophical views about religion and religious belief Many of the major philosophers of the twentieth

century James Bergson Russell Wittgenstein Ayer Heidegger and Derrida significantly engaged with religious thought Idiosyncratic thinkers such as Whitehead Levinas and Weil further contributed to the extraordinary diversity of philosophical investigation of religion across the century In their turn leading theologians and religious philosophers notably Buber Tillich and Barth directly engaged with the philosophy of religion Later philosophy of religion became a distinct field of study led by the work of Hick Alston Plantinga and Swinburne Twentieth Century Philosophy of Religion provides an accessible overview of the major strands in the rich tapestry of twentieth century thought about religion and will be an indispensable resource for any interested in contemporary philosophy of religion

**The Twentieth Century** Gregory Baum, 1999-11-11 Many of the essays are well worth reading particularly for those with interests in recent historical theology church history and the sociology of religion Oliver D Crisp Themelios 26 1 Autumn 2001

Christian Nationalism in the United States Mark T. Edwards, 2018-07-05 This book is a printed edition of the Special Issue Christian Nationalism in the United States that was published in Religions

The Future of Mainline Protestantism in America James Hudnut-Beumler, Mark Silk, 2018-01-09 As recently as the 1960s more than half of all American adults belonged to just a handful of mainline Protestant denominations Presbyterian UCC Disciples of Christ Episcopal Lutheran Methodist and American Baptist Presidents congressmen judges business leaders and other members of the elite overwhelmingly came from such backgrounds But by 2010 fewer than 13 percent of adults belonged to a mainline Protestant church What does the twenty first century hold for this once hegemonic religious group In this volume experts in American religious history and the sociology of religion examine the extraordinary decline of mainline Protestantism over the past half century and assess its future Contributors discuss the demographics of mainline Protestants their beliefs practices and modes of worship their political views and partisan affiliations and the social and moral questions that unite and divide Protestant communities Other chapters examine Protestant institutions including providers of health care and education analyze churches public voice and probe what will come from a diminished role relative to other groups in society especially the ascendant evangelicals Far from going extinct the book argues the mainline Protestant movement will continue to be a vital remnant in an American religious culture torn between the contending forces of secularism and evangelicalism

Twentieth Century, 1904 The Nineteenth century and after London

**Victorian Protestantism and Bloody Mary** Peter Wickins, 2012-10-01 This is an important and interesting book on aspects of our religious heritage which until now have escaped the investigation of scholars History is all too often employed as a weapon for smiting the infidel So it was among religiously minded people in 19th century England By the beginning of the Victorian era after the somnolence of the 18th century religious enthusiasm among both clergy and laity in the established Church revived This brought about such acrimonious differences it was a wonder they could be accommodated in the same Church Provoked by a group of Oxford scholars who sought to show that the Church of England was neither Roman Catholic nor Protestant but a middle way between the two Protestant militants were aroused to demonstrate against and even disrupt

church services of which they disapproved To remind English men and women of the glories of the Reformation they erected memorials in many towns to celebrate the heroic reputation of the martyrs who suffered in the reign of Bloody Mary Memorials required names and to find out who the victims were and where they met their end the memorial committees turned to the pages of John Foxe's Acts and Monuments of the Christian Martyrs better known as Foxe's Book of Martyrs A most effective work of propaganda in the days of religious warfare it was reprinted in new editions Now the target was no longer the Church of Rome but the Anglo Catholics or the alleged Romanisers A perplexing problem for the historian is what the Protestant martyrs actually believed It is clearly naive to suppose that they died for 19th century parliamentary democracy and liberties Foxe's criterion of Protestant martyrdom was hatred of Rome and in his anxiety to drum up the numbers he was reticent about or ignorant of the widely varying beliefs of his martyrs The assumption of the 19th century Protestants was that the English people rose as one to reject popery but it is impossible to accurately assess the support for state imposed religious change Surviving evidence as the preamble to wills seems to suggest that people for the most part simply acquiesced in what the government of the day decided was the true religion

**Reinventing Protestant Germany**  
Brandon Bloch, 2025 Brandon Bloch examines the remarkable transformation of German Protestantism after WWII As avid nationalists and militarists Protestant leaders had largely backed the Nazi regime Yet after 1945 they reinvented themselves as champions of constitutional democracy and human rights while also seeking to whitewash the Church's past

**The 20th Century O-Z** Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography
