Protocols for High Speed Networks Georg Carle, 2002-04-17 This book constitutes the refereed proceedings of the 7th IFIP IEEE International Workshop on Protocols for High Speed Networks PfHSN 2002 held in Berlin Germany in April 2002. The 14 revised full papers presented together with two invited papers were carefully reviewed and selected from 54 submissions. The papers are organized in topical sections on signalling and control application level mechanisms TCP and high speed networks quality of service and traffic engineering and mobility. **Short Papers and Poster Papers**, 2002

Protocols for High-speed Networks, II Marjory J. Johnson, 1991 This book is the proceedings of a workshop which examined issues involved in the design and implementation of protocols for high speed networks. The emphasis of the book is on protocol implementation with a large number of papers addressing this important topic. Other topics addressed include evaluation of congestion flow control techniques that have been proposed for high speed networks, new routing techniques and the investigation of protocols that are being designed to support high speed networking at the transport layer and at the media access control layer of the Open Systems Interconnection network model. **Protocols for High-Speed Networks V**

Walid Dabbous, Christophe Diot, 2013-06-05 We are happy to welcome you to the IFIP Protocols for High Speed Networks 96 workshop hosted by INRIA Sophia Antipolis. This is the fifth event in a series initiated in Zurich in 1989 followed by Palo Alto 1990, Stockholm 1993 and Vancouver 1994. This workshop provides an international forum for the exchange of information on protocols for high speed networks. The workshop focus on problems related to the efficient transmission of multimedia application data using high speed networks and internetworks. Protocol for High Speed Networks is a working conference. That explains we have privileged high quality papers describing on going research and novel ideas. The number of selected papers was kept low in order to leave room for discussion on each paper. Together with the technical sessions working sessions were organized on hot topics. We would like to thank all the authors for their interest. We also thank the Program Committee members for the level of effort in the reviewing process and in the workshop technical program organization. We finally thank INRIA and DRET for their financial support to the organization of the workshop. **Protocols for high-speed networks**, 1996

Gunningberg,S. Pink,1993 As the speed of networks increase users expect to deliver high bandwidth to their applications There is much debate in the research community over the choice of protocols for these new networks Discussion about new protocol architectures remains at center stage in the research community even as the user community continues to standardize protocols such as Asynchronous Transfer Mode ATM New transport protocols as well as resource management mechanisms are being designed to support real time multimedia applications on gigabit networks This volume focuses on state of the art protocol design and efficient implementation techniques interfacing high speed networks to high performance host computers and ATM as a protocol for high speed networks *Protocols for High Speed Networks*,2011-10-14 *Protocols for High-speed Networks* Harry Rudin,Robin Williamson,1989 The purpose of this book is to discuss some of the issues involved in the design and implementation of protocols particularly protocols above the medium access layer that are able to exploit the full potential of local area and optical fiber networks The main issue in this area continues to be whether or not new protocols are necessary On the one hand a number of new high speed protocols have been invented On the other hand some recent work shows that clever tuning and implementation of existing protocol architectures can also deliver high throughput and quick response times The papers presented in this book shed some light on the issue **Architecture and Protocols for High Speed Networks** André Danthine,1993 *Architecture and protocols for high-speed networks* André Danthine,1993 **Protocols for High-speed Networks, III** B.
