This study examines Marcel Proust's works and his readers starting with the reading encounter one needs in order not to miss out on things and ending by exploring the nature of Proust's vision An interesting study for everyone who wants to know more about Proust and his ideas **On Freud's "Remembering, Repeating and Working-Through"** Udo Hock,Dominique Scarfone,2024-04-22 In On Freud's Remembering Repeating and Working Through international contributors from a range of psychoanalytic backgrounds reflect on this key 1914 paper Each chapter considers an aspect of Freud's original work addressing both the theoretical and clinical dimensions of the paper and incorporating contemporary perspectives Bringing out all three aspects of the paper's title the contributors consider the issues raised by the so called change in psychoanalytic paradigm from the classic central concern of remembering to a clinical experience which prioritises enactment and repetition The reflections on this important paper demonstrate how it goes beyond technique to open new vistas on the conception of psychoanalysis as a whole On Freud's Remembering Repeating and Working Through will be essential reading for psychoanalysts and psychoanalytic psychotherapists in practice and in training It will also be of interest to readers seeking a deeper understanding of current Freudian thinking **Vital Performance** Andrew Snedden,2021-03-19 Historically Informed Performance or HIP has become an influential and exciting development for scholars musicians and audiences alike Yet it has not been unchallenged with debate over the desirability of its central goals and the accuracy of its results The author suggests ways out of this impasse in Romantic performance style In this wide ranging study pianist and scholar Andrew John Snedden takes a step back examining the strengths and limitations of HIP He proposes that many problems are avoided when performance styles are understood as expressions of their cultural era rather than as simply composer intention explaining not merely how we play but why we play the way we do and why the nineteenth century Romantics played very differently Snedden examines the principal evidence we have for Romantic performance style especially in translation of score indications and analysis of early recordings finally focusing on the performance styles of Liszt and Chopin He concludes with a call for the reanimation of culturally appropriate performance styles in Romantic repertoire This study will be of great interest to scholars performers and students to anyone wondering about how our performances reflect our culture and about how the Romantics played their own culturally embedded music **Organizing Academic Work in Higher Education** Liudvika Leišytė,Uwe Wilkesmann,2016-04-14 Organizing Academic Work in Higher Education explores how managers influence teaching learning and academic identities and how new initiatives in teaching and learning change the organizational structure of universities By building on organizational studies and higher education studies literatures Organizing Academic Work in Higher Education offers a unique perspective presenting empirical evidence
