## **Proustian Quest:**

The Proustian Quest William Carter, Jeffrey Lange, 1994-02 An ambitious study the fruit of sustained work over many years Professor Carter's book deploys a stunning knowledge of Proust and places Carter among the first line of Proust scholars in the country Roger Shattuck Boston University The Proustian Quest is the first full length study that explores the influence of social change on Proust's vision In Remembrance of Things Past Proust describes how the machines of transportation and communication transformed fashion social mores time space perception and the understanding of the laws of nature Concentrating on the motif of speed Carter establishes the centrality of the modern world to the novel's main themes and produces a far reaching synthesis that demonstrates the work's profound structural unity **The Seduction of Pessimism in the Novel** Tom Ribitzky, 2024-10-31 The Seduction of Pessimism in the Novel Eros Futility and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being Eros is supposedly the consolation for this rift but the history of the novel documents its expression as one of frustrated desires neuroses anxieties and cosmic doom As if repeating the trauma from that original split in Plato a split that also divides philosophy from literature the novel treats eros as a site of loss and grief from the medieval romances to Goethe Emily Bront Proust Mann Woolf D H Lawrence and Nabokov The pessimism that emerges from this eros tells us something fundamental about who we are something that only the novel can say At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity complexity and contingency and as we are hurtling toward a bleak future of climate catastrophe and political instability the novel is one of the last bastions of humanity even as it is quickly being eroded

**Science and Structure in Proust's A la Recherche Du Temps Perdu** Nicola Luckhurst, 2000 Proust is read as a writer of maxims and metaphors of short and long sentences as at once an aesthete and a scientific thinker His A la recherche du temps perdu is a hybrid a novel essay an epistemological debate that crosses the boundaries between two cultures art and science Science and Structure explores the epistemological alertness and anxiety of Proust's masterpiece and in so doing illuminates the interrelations between modernist art and science Proust's Cup of Tea Emily Eells, 2017-03-02 Proust's Cup of Tea analyzes Proust's reading of various Victorian authors and shows how they contributed to A la recherche du temps perdu This book proves that British literature and art played a fundamental role in Proust's writing process by citing from the manuscript versions of his novel as well as from his correspondence essays and the lengthy critical apparatus accompanying his translations of Ruskin Eells reflects here on why Proust was attracted to Victorian culture and how he incorporated it into his novel The works of the British novelists he was most interested in Thomas Hardy and George Eliot address questions of gender which Proust develops in his own work He builds Sodome et Gomorrhe I the section of his novel focusing on homosexuality on a series of explicit citations and guarded allusions to Shakespeare Darwin Walter Scott Oscar Wilde and Robert Louis Stevenson Eells explores how Proust followed in the pioneering footsteps of those British

writers who had ventured beyond the boundaries of conventional sexuality though he took pains to erase their traces in the definitive version of his work This study also highlights how Proust made his fictitious painter Elstir into a master of ambiguity by modeling his art on Turner the Pre Raphaelites and Whistler Eells shows that Proust drew on Victorian culture in his depiction of sexual ambiguity arguing that he confounded eroticism and aestheticism in the way he inextricably linked the man woman figure with British art and literature As Proust aestheticized male and female homosexuality using references to British art and letters Eells coins the term Anglosexuality to refer to his characters of the third sex She defines Anglosexuality as an intersexuality represented through intertextuality as an artistic sensitivity an aesthetic stance and a new way of seeing Proust s Cup of Tea thus demonstrates that Victorian culture and homoeroticism form one of the cornerstones of Proust s monumental work

**Atlantic Automobilism** Gijs Mom,2014-12-01 Our continued use of the combustion engine car in the 21st century despite many rational arguments against it makes it more and more difficult to imagine that transport has a sustainable future Offering a sweeping transatlantic perspective this book explains the current obsession with automobiles by delving deep into the motives of early car users It provides a synthesis of our knowledge about the emergence and persistence of the car using a broad range of material including novels poems films and songs to unearth the desires that shaped our present car society Combining social psychological and structural explanations the author concludes that the ability of cars to convey transcendental experience especially for men explains our attachment to the vehicle

**The Art of the Text** Susan R Harrow,2013-09-15 The Art of the Text contributes to the fast developing dialogue between textual studies and visual culture studies It focuses on the processes through which writers think and readers respond visually and in essays by researchers in literature screen and visual studies the volume explores the viscosity of the literary and non literary text with a sustained focus on French material of the later nineteenth and twentieth centuries Viscosity is appraised here not as a state but as a set of processes of adaptation resistance negotiation and transformation By reading visually the contributors here reactivate the visual textual relations of canonical texts from Romanticism to Naturalism Surrealism to high Modernism from film to fan literature television to picture language

**Twilight of the Belle Epoque** Mary McAuliffe,2014-03-16 Mary McAuliffe s Dawn of the Belle Epoque took the reader from the multiple disasters of 1870 1871 through the extraordinary re emergence of Paris as the cultural center of the Western world Now in Twilight of the Belle Epoque McAuliffe portrays Paris in full flower at the turn of the twentieth century where creative dynamos such as Picasso Matisse Stravinsky Debussy Ravel Proust Marie Curie Gertrude Stein Jean Cocteau and Isadora Duncan set their respective circles on fire with a barrage of revolutionary visions and discoveries Such dramatic breakthroughs were not limited to the arts or sciences as innovators and entrepreneurs such as Louis Renault Andr Citro n Paul Poiret Fran ois Coty and so many others including those magnificent men and women in their flying machines emphatically demonstrated But all was not well in this world remembered in hindsight as a golden age and wrenching struggles between Church and state as well as between haves and have nots

shadowed these years underscored by the ever more ominous drumbeat of the approaching Great War a cataclysm that would test the mettle of the City of Light even as it brutally brought the Belle Epoque to its close Through rich illustrations and evocative narrative McAuliffe brings this remarkable era from 1900 through World War I to vibrant life *The Senses of Modernism* Sara Danius,2019-01-24 In *The Senses of Modernism* Sara Danius develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann's *The Magic Mountain* Marcel Proust's *Remembrance of Things Past* and James Joyce's *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danius proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danius explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danius questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one **Benjamin, Barthes and the Singularity of Photography** Kathrin Yacavone,2012-02-02 Benjamin Barthes and the Singularity of Photography presents two figures of the twentieth century in a comparative light Pursuing aspects of Benjamin's and Barthes's engagement with photography it provides interpretations of texts argues that despite the different historical philosophical and cultural contexts of their work Benjamin and Barthes engage with similar issues and problems that photography poses including the relationship between the photograph and its beholder as a confrontation between self and other and the dynamic relation between time subjectivity memory and loss Each writer emphasizes the singular event of the photograph's apprehension and its ethical and existential aspects rooted in the power and poignancy of photographic images The book mapping the relationship between photographic history and theory cultural criticism and autobiography *The Book of Touch* Constance Classen,2020-09-03 This book puts a finger on the nerve of culture by delving into the social life of touch our most elusive yet most vital sense From the tortures of the Inquisition to the corporeal comforts of modernity and from the tactile therapies of Asian medicine to the virtual tactility of cyberspace *The Book of Touch* offers excursions into a sensory territory both foreign and familiar How are masculine and feminine identities shaped by touch What are the tactile experiences of the blind or the autistic How is touch developed differently across cultures What are the boundaries of pain and pleasure Is there a politics of touch Bringing together classic writings and new work this is an essential guide for anyone interested in the body the senses and the experiential world **Airspaces** David

Pascoe,2004-08-01 As mass air transport shrinks the world and requires airport complexes large enough to be regarded as self contained cities this book argues that airspace that transitional area stretching from terminal to terminal across time zones or between the check in desk and the baggage carousel must be regarded as a discrete destination on any map of our age At the hub of this exclusive enclave which rises from the runway to an altitude of several thousand feet and which calmly accommodates the dangers of take off and landing procedures lies the airport the concrete manifestation of airspace The airport is a locale of anxiety and chance where in order to expedite air traffic authority is absolute time is relative and liberties are always taken David Pascoe s wide ranging book blends personal observation with detailed discussions of social history air accidents landscape architecture politics aesthetics literature and film to provide a striking account of the airport as a unique space and singular form of modernity a place fundamental to any accurate sense of what we are now and where we are going eclectic and intelligent a thought provoking analysis Financial Times the scope of Mr Pascoe s rumination is impressive The Economist      **The Invisible Middle Term in Proust's A la Recherche Du Temps Perdu** Roxanne Hanney,1990 This volume seeks to offer a new way of reading A la Recherche du Temps Perdu using a fluid manner of interpretation which suggests process rather than product This study contends that everything in Proust s work is threefold The middle term is the common ground shared by the two terms of comparison that constitute a metaphor      **The Art of Subtraction** Bruno Lessard,2017-05-08 The Art of Subtraction is the first full length study on the CD ROM as a creative platform Bruno Lessard traces the rise and relatively rapid fall of the CD ROM in the 1980s and 1990s and its impact as a creative platform for media artists such as Jean Louis Boissier Zoe Beloff Adriene Jenik and Chris Marker Although the CD ROM was not a lasting commercial success it was a vibrant medium that allowed for experimentation in adapting literary works Building on the work of Gilles Deleuze and Michele Foucault Lessard establishes a comparative framework for linking digital adaptations with innovative concepts such as subtractive adaptation and the object image that will be of interest to researchers examining literary adaptations on other digital platforms such as websites smart phones tablets and digital games The Art of Subtraction is a fascinating study of intermediality in the late twentieth century and it provides the first chapter in the yet unwritten history of digital adaptation      **Emotions, the Social Bond, and Human Reality** Thomas J. Scheff,1997-09-04 This book first published in 1997 offers an approach to researching human behavior relating details of interaction to social structure      Photobiography Akane Kawakami,2017-12-02 Why do photographs interest writers especially autobiographical writers Ever since their invention photographs have featured as metaphors as absent inspirations and latterly as actual objects in written texts In autobiographical texts their presence has raised particularly acute questions about the rivalry between these two media their relationship to the real and the nature of the constructed self In this timely study based on the most recent developments in the fields of photography theory self writing and photo biography Akane Kawakami offers an intriguing narrative which runs from texts containing metaphorical photographs through ekphrastic

works to phototexts Her choice of Marcel Proust Herve Guibert Annie Ernaux and Gerard Mace provides unusual readings of works seldom considered in this context and teases out surprising similarities between unexpected conjunctions Akane

Kawakami is a Senior Lecturer in French and francophone literature at Birkbeck University of London **The Plot**

**Machine** Kai Mikkonen,2021-11-01 This book presents a new and exciting theory of the modern French novel by developing the notion of the narrative as a textual machine Many turn of the century French novels thematically identified their means of narration through the various machines that they depicted The narrative devices that were particularly important in this self reflection included the temporal order of the plot the question of a narrative s beginning and end the hierarchy of narrative voices and the techniques of the point of view The question of mechanization became central on all these fronts Has the novel become automated or machine like At the same time the machine metaphors in the novels of Alfred Jarry Emile Zola Jules Verne Villiers de l Isle Adam Raymond Roussel combined the question of the narrative form with new ways to think about man s relationship with technology and the cultural environment The early modernist texts drew upon contradictory notions of technological promise and threat while they also depicted new forms of identity and behavior related to or modeled after machines These texts highlighted cultural assumptions concerning technological innovations and critiqued mainly through parody and through various figures of man machine fusion the positivistic belief in progress Such writers looked for evidence of advanced forms of consciousness arising out of encounters with new technology such as telephones trains bicycles telegraphy phonographs and electricity This volume will be of interest to anyone working in the field of modern French literary and cultural history It will especially appeal to anyone intrigued with the origins of the modernist novel the history of narrative forms and the question of how the experience of new technology may be portrayed in literary texts *Thresholds*

Gerda R. Blumenthal,1984 Proust and the Arts Christie McDonald,François Proulx,2015-11-05 Proust and the Arts brings together expert Proustians and renowned interdisciplinary scholars in a major reconsideration of the novelist s relation to the arts Going beyond the classic question of the models used by Proust for his fictional artists the essays collected here explore how he learned from and integrated in highly personal ways the work of such creators as Wagner or Carpaccio This volume reveals the breadth of Proust s engagement with varied art forms from different eras from primitive arts to sound recordings from medieval sculpture to Art Nouveau glassmaking and from portrait photography to the private art of doodling Chapters bring into focus issues of perception and detail in examining how Proust encountered and responded to works of art and attend to the ways art shaped his complex relationship to identity sexuality humor and the craft of writing **Proust in**

**Mourning and Creativity in Proust** Anna Magdalena Elsner, 2017-03-09 This study explores Proust's answers to some of the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust's *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel's final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust's novel captivating for readers since its publication
