**Proustian Space** Georges Poulet, 1977      *Proustian Space* Georges Poulet, 1977      *The Proustian Mind* Anna Elsner, Thomas Stern, 2022-12-30 When Marcel Proust started to work on *In Search of Lost Time* in 1908 he wrote this question in his notebook Should I make it a novel a philosophical study am I a novelist Throughout his famous multi volume work Proust directly engages several philosophers and few novels are as thoroughly saturated with philosophical themes and concepts as *In Search of Lost Time* *The Proustian Mind* is an outstanding reference source to the rich philosophical range of Proust's work and the first major volume of its kind Including 31 chapters by an international team of contributors the volume is divided into seven clear parts Proust's life and works metaphysics and epistemology mind and language aesthetics ethics gender and sexuality predecessors contemporaries and successors Within these sections key Proustian themes are explored from a philosophical standpoint including time the self memory imagination jealousy beauty love subjectivity and desire The final section considers Proust in relation to important philosophers such as Schopenhauer Nietzsche Bergson Merleau Ponty Sartre de Beauvoir and Deleuze *The Proustian Mind* is essential reading for those studying aesthetics philosophy of literature phenomenology and ethics and will also be of interest to those in literature studying modernism French literature and the relationship between literature and philosophy      **Mourning and Creativity in Proust** Anna Magdalena Elsner, 2017-03-09 This study explores Proust's answers to some of the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust's *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel's final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust's novel captivating for readers since its publication      *The Proustian Fabric* Christie McDonald, 2016-05 The association of ideas became the foundation of Freudian psychoanalysis informed the nascent semiology of Saussure and characterized the literary works of Sterne Joyce Woolf and especially Marcel Proust The author of *Remembrance of Things Past* acutely aware of how philosophical historical and narrative writing intersected gave years of thinking and planning to his multivolume masterpiece Its shape was protean Each successive volume reconfigured the previous ones and in 1987 Proust readers welcomed the publication of several new editions among them the *Bibliothèque de la Pléiade* which presented as many pages of variants as of text *The Proustian Fabric* engages the complex layers of association to be found in Proust's work According to Christie McDonald *Remembrance of*

Things Past straddles the dominant thinking patterns of two centuries the nineteenth in which the association of fragmentary thought was to be subsumed into the notion of a totality and the twentieth in which the notion of associative thinking was to move toward an infinite process of referral and interpretation Imbued with McDonald s discerning knowledge of Proust s intellectual and historical milieu his compendious writing and his critics The Proustian Fabric is one of the first books to take into account the rich variations of the new editions and to reexamine certain suppositions about Proust s methods as well as his concern with philosophy literature art and politics *Time, Literature, and Cartography After the Spatial Turn* Adam Barrows,2016-06-01 Time Literature and Cartography after the Spatial Turn argues that the spatial turn in literary studies has the unexplored potential to reinvigorate the ways in which we understand time in literature Drawing on new readings of time in a range of literary narratives including Vladimir Nabokov s *Invitation of a Summer Day* and James Joyce s *Finnegans Wake* Adam Barrows explores literature s ability to cartographically represent the dense and tangled rhythmic processes that constitute lived spaces Applying the insights of ecological resilience studies as well as Henri Lefebvre s late work on rhythm to literary representations of time this book offers a sustained examination of literature s chronometric imaginary its capacity to map the temporal relationships between the human and the non human the local and the global **Carpentier's Proustian Fiction** Sally Harvey,1994 Critical study of Cuban novelist and Proust s influence on selected works *Understanding Bergson, Understanding Modernism* S. E. Gontarski,Paul Ardoyn,Laci Mattison,2013-01-17 Henri Bergson is frequently cited amongst the holy trinity of major influences on Modernism literary and otherwise alongside Sigmund Freud and William James Gilles Deleuze s Bergsonism has re popularized Bergson for the 21st century so much so that perhaps our Bergson is Deleuze s Bergson Despite renewed interest in Bergson his influence remains understudied and consequently undervalued While books examining the impact of Freud and James on Modernism abound Bergson s impact though widely acknowledged has been closely examined much more rarely *Understanding Bergson Understanding Modernism* remedies this deficiency in three ways First it offers close readings and critiques of six pivotal texts Second it reassesses Bergson s impact on Modernism while also tracing his continuing importance to literature media and philosophy throughout the twentieth and into the 21st century In its final section it provides an extended glossary of Bergsonian terms complete with extensive examples and citations of their use across his texts The glossary also maps the influence of Bergson s work by including entries on related writers all of whom Bergson either corresponded with or critiqued **Rethinking Literary Naturalism** Ian James,2025-04-16 This book gives original readings of Proust and Quignard to elaborate a novel theory of literary naturalism Drawing on contemporary biological perspectives the book argues that despite their opposition to traditional naturalism both understand human experience meaning making and creativity as being immanent to and as emerging from shared biological life *Rethinking Literary Naturalism* reads contemporary biosemiotic theory Proust and Quignard alongside each other in the context of a shared genealogy that leads back into nineteenth century philosophical and literary visions of

natural life that are inherited from German Romanticism and Idealism Here biological theory and forms of literary practice are recast as distinct techniques of thought that aim to situate themselves in relation to biological life Each in its own way is shown to adopt an interpretative posture that steps back into the immanence of sense and meaning that is constitutive of qualitatively lived existence Each produces a different kind of knowledge scientific literary literary philosophical of shared biological life that can be understood as distinctive variations of a saying after life The novel literary naturalism that is rethought here can be understood as post dicative and as being entirely distinct from that of mile Zola Maupassant or the Goncourt brothers

A Serpentine Gesture Elisabeth W. Joyce,2024-12-15 In A Serpentine Gesture John Ashbery s Poetry and Phenomenology Elisabeth W Joyce examines John Ashbery s poetry through the lens of Maurice Merleau Ponty s conception of phenomenology For Merleau Ponty perception is a process through which people reach outside of themselves for sensory information map that experiential information against what they have previously encountered and what is culturally inculcated in them and articulate shifts in their internal repositories through encounters with new material Joyce argues that this process reflects Ashbery s classic statement of poetry being the experience of experience Through incisive close readings of Ashbery s poems Joyce examines how he explores this process of continual reverberation between what is sensed and what is considered about that sensation and ultimately how he renders these perceptions into the serpentine gesture of language

**The Art of Subtraction** Bruno Lessard,2017-05-08 The Art of Subtraction is the first full length study on the CD ROM as a creative platform Bruno Lessard traces the rise and relatively rapid fall of the CD ROM in the 1980s and 1990s and its impact as a creative platform for media artists such as Jean Louis Boissier Zoe Beloff Adriene Jenik and Chris Marker Although the CD ROM was not a lasting commercial success it was a vibrant medium that allowed for experimentation in adapting literary works Building on the work of Gilles Deleuze and Michele Foucault Lessard establishes a comparative framework for linking digital adaptations with innovative concepts such as subtractive adaptation and the object image that will be of interest to researchers examining literary adaptations on other digital platforms such as websites smart phones tablets and digital games The Art of Subtraction is a fascinating study of intermediality in the late twentieth century and it provides the first chapter in the yet unwritten history of digital adaptation

**Childhood as Memory, Myth and Metaphor** Catherine Crimp,2017-12-02 A fascination with childhood unites the artist Louise Bourgeois 1911 2010 and the writers Samuel Beckett 1906 89 and Marcel Proust 1871 1922 But while many commentators have traced their childhood images back to memories of lived experiences there is more to their mythologies of childhood that waits to be explored They invite us to move away from familiar ideas whether psychological or biographical about what a child can represent and even what a child is The haunting child figures of Bourgeois Beckett and Proust echo each other as they show how imagining origins for a life for a work of art involves paradoxes that test the limits of our forms of expression Art meets literature profusion meets

concision French meets English and images of childhood reveal new insights in this encounter between three great figures of twentieth and twenty first century culture Catherine Crimp holds a PhD from the University of Cambridge and is currently Lectrice d anglais at the Ecole Normale Supérieure de Lyon

On Reading Ruskin Marcel Proust, 1989-07-01 Early in his career Marcel Proust who greatly admired John Ruskin published translations of two works by the English critic La Bible d Amiens 1900 and Sesame et les Lys 1906 He wrote a substantial preface to each book and provided discursive notes that were themselves often small essays Rare now even in their French versions the preface to La Bible d Amiens and the notes to both books have never before been available in English In bringing them together with the preface to Sesame et les Lys this new book completes the translation into English of the important critical writings of Proust Expertly edited and translated and introduced by a brilliant forty page essay and a fascinating bibliographical note by Richard Macksey It is an event for celebration Proust emerges from these essays and notes as one of the truly great critics Gabriel Josipovici Times Literary Supplement A welcome addition to English language Proust texts and I think one long overdue Germain Bree Kenan Professor Emerita Wake Forest University

*Ekphrasis, Memory and Narrative after Proust* Leonid Bilmes, 2022-12-15 This book explores the relationship between ekphrasis and memory in the novel Drawing on la recherche du temps perdu Leonid Bilmes considers how Vladimir Nabokov W G Sebald Ben Lerner Ali Smith and Lydia Davis have employed and reshaped Proust's way of depicting the recollected past In Ada Austerlitz 10 04 How to Be Both and The End of the Story memory images are variously transposed into intermedial descriptions that inform the narrator's story just as they serve to shape the reader's own remembrance of each of these narratives Ekphrasis in the novel after Proust Bilmes argues acts as a distinct site within the text where past and present self and other image and text seeing and hearing are ever on the brink of reconciliation The book surveys a wide field of critical inquiry encompassing classical theorizations of ekphrasis philosophical explorations of memory and visuality as well as seminal studies of image text relations by among others W J T Mitchell Jean Luc Nancy and Liliane Louvel Bilmes's compelling dialogue with theory and literature evinces the underexplored bond between ekphrasis and memory in the contemporary novel

**The Belle Époque** Dominique Kalifa, 2021-07-06 The years before the First World War have long been romanticized as a zenith of French culture the Belle époque The era is seen as the height of a lost way of life that remains emblematic of what it means to be French In a vast range of texts and images it appears as a carefree time full of joie de vivre fanfare and frills artistic daring and scientific innovation The Moulin Rouge shared the stage with the Universal Exposition Toulouse Lautrec rubbed elbows with Marie Curie and La Belle Otero and Fantômas invented automatic writing This book traces the making and the imagining of the Belle époque to reveal how and why it became a cultural myth Dominique Kalifa lifts the veil on a period shrouded in nostalgia explaining the century long need to continuously reinvent and even sanctify this moment He sifts through images handed down in memoirs and reminiscences literature and film art and history to explore the many facets of the era including its worldwide reception The

Belle poque was born in France but it quickly went global as other countries adopted the concept to write their own histories In shedding light on how the Belle poque has been celebrated and reimagined Kalifa also offers a nuanced meditation on time history and memory

Proust, Beckett, and Narration James H. Reid,2003-10-13 This a comprehensive comparison of the narrative techniques of two of the twentieth century s most important writers of prose Using a combination of theoretical analysis and close readings of Proust s *A la recherche du temps perdu* and Beckett s trilogy of novels *Molloy* *Malone Dies* and *The Unnamable* James H Reid compares the two novelists use of first person narration in constructing and demystifying fictions of consciousness Reid focuses on the narrator s search to represent the voice that speaks the novel a search he argues that structures first person narration in the works of both novelists He examines in detail the significant impact of Proust s writing on Beckett s own work as well as Beckett s subtle reworkings of Proust s themes and strategies This study is an important contribution to critical literature and offers fresh perspectives on the crucial importance of the *Recherche* and the trilogy in the context of the twentieth century novel

**Vestiges of a Philosophy** John Ó Maoilearca,2022-11-15 In *Vestiges of a Philosophy* Matter the Meta Spiritual and the Forgotten Bergson John Maoilearca examines the seemingly very different but nonetheless complementary ideas of philosopher Henri Bergson and his occultist sister Mina Bergson aka Moina Mathers to tackle contemporary themes in current materialist philosophy memory studies and the relationship between mysticism and philosophy

Place and Experience Jeff Malpas,2018-02-19 The first edition of *Place and Experience* established Jeff Malpas as one of the leading philosophers and thinkers of place and space and provided a creative and refreshing alternative to prevailing post structuralist and postmodern theories of place It is a foundational and ground breaking book in its attempt to lay out a sustained and rigorous account of place and its significance The main argument of *Place and Experience* has three strands first that human being is inextricably bound to place second that place encompasses subjectivity and objectivity being reducible to neither but foundational to both and third that place which is distinct from but also related to space and time is methodologically and ontologically fundamental The development of this argument involves considerations concerning the nature of place and its relation to space and time the character of that mode of philosophical investigation that is oriented to place and that is referred to as philosophical topography the nature of subjectivity and objectivity as inter related concepts that also connect with intersubjectivity and the way place is tied to memory identity and the self Malpas draws on a rich array of writers and philosophers including Wordsworth Kant Proust Heidegger and Donald Davidson This second edition is revised throughout including a new chapter on place and technological modernity especially the seeming loss of place in the contemporary world and a new Foreword by Edward Casey It also includes a new set of additional features such as illustrations annotated further reading and a glossary which make this second edition more useful to teachers and students alike

**Merleau-Ponty at the Limits of Art, Religion, and Perception** Kascha Semonovitch,Neal DeRoo,2011-10-27 This book poses the question of what lies at the limit of philosophy Through close

studies of French phenomenologist Maurice Merleau Ponty's life and work the authors examine one of the twentieth century's most interdisciplinary philosophers whose thought intersected with and contributed to the practices of art psychology literature faith and philosophy As these essays show Merleau Ponty's oeuvre disrupts traditional disciplinary boundaries and prompts his readers to ask what exactly constitutes philosophy and its others Featuring essays by an international team of leading phenomenologists art theorists theologians historians of philosophy and philosophers of mind this volume breaks new ground in Merleau Ponty scholarship including the first sustained reflections on the relationship between Merleau Ponty and religion and magnifies a voice that is talked over in too many conversations across the academic disciplines Anyone interested in phenomenology art theory and history cognitive science the philosophy of mind and the philosophy of religion will find themselves challenged and engaged by the articles included in this important effort at interdisciplinary philosophy
