entertainment are just a sampling of the many benefits of science. In addition to technological advances, medicine and agriculture progress with science as well. Even educational, political, and marketing strategists invoke science to substantiate their claims. Science dominates the collective Western mindset, and we regard it with the utmost respect. Yet society remains generally religious, even though science and religion are frequently thought of as being at odds with one another. How do we reconcile the two? Christians are taught to believe that God is in control of everything, including the natural elements. But how does God relate to physical laws? Is God in control of the world or the laws of nature?
