## **Provincial Militarism And The Chinese Republic The Yunnan Army 1905 25:**

**Provincial Militarism and the Chinese Republic** Donald S. Sutton, 1980 Ruined and on the lam former drug kingpin Max Fisher stumbles upon the biggest discovery of his crooked life a designer drug called PIMP that could put him back on top Meanwhile a certain femme fatale from his past is producing a film based on her and Max's life story **Law and Politics in Modern China** Sharron Gu, 2009 This is an original interdisciplinary study of Chinese law its language and political institution Evolving within a complex literary framework over thousands of years Chinese language has lost its conceptual distinctiveness to its multilevel and overlapping meanings and connotations Chinese law has become inflated with contrary rulings and exceptions This mass of rules requires an extra lingual legal authority to redefine boundaries and specify applications This book follows and continues the author's *The Boundaries of Meaning and the Formation of Law* McGill University Press by illustrating how language shapes the formation application and administration of law in various cultural environments *Law and Politics in Modern China* is an important book for those interested in Chinese history culture law and politics It also provides refreshing insights about the way that law continues to function after its language matures and creates contradictions and loopholes within its system of rules one of the most important issues facing Western legal administration in the immediate future *The Body and Military Masculinity in Late Qing and Early Republican China* Nicolas Schillinger, 2016-12-12 In 1894-1895 after suffering defeat against Japan in a war primarily fought over the control of Korea the Qing government initiated fundamental military reforms and established New Armies modeled after the German and Japanese military Besides reorganizing the structure of the army and improving military training the goal was to overcome the alleged physical weakness and lack of martial spirit attributed to Chinese soldiers in particular and to Chinese men in general Intellectuals government officials and military circles criticized the pacifist and civil orientation of Chinese culture which had resulted in a negative attitude towards its armed forces and martial values throughout society and a lack of interest in martial deeds glory on the battlefield and military achievements among men The book examines the cultivation of new soldiers officers and civilians through new techniques intended to discipline their bodies and reconfigure their identities as military men and citizens The book shows how the establishment of German style New Armies in China between 1895 and 1916 led to the re-creation of a militarized version of masculinity that stressed physical strength discipline professionalism martial spirit and Western military appearance and conduct Although the military reforms did not prevent the downfall of the Qing Dynasty or provide stable military clout to subsequent regimes they left a lasting legacy by reconfiguring Chinese military culture and re-creating military masculinity and the image of men in China **Chinese Regionalism** Richard H Yang, 2021-11-28 As China is poised to become a global economic force its leadership is on the brink of imminent and potentially sweeping change With Deng Xiaoping's demise seemingly at hand the inevitable redistribution of power within this vast land has become a crucial concern for China and the world alike How will China cope with this

changing of the guard Will a centralized government remain or will the country break apart This comprehensive volume brings specialists from East and West together to assess the key issue of regionalism and its effect on shifting power in the PRC Focusing specifically on the pivotal role of the People s Liberation Army the contributors address a wide range of topics including economic reform the possible reprise of warlordism and regional security and they present a variety of case studies

**Arming the Chinese** Anthony B. Chan,2011-01-01 The existence of warlords and warlordism is not a post 9 ll phenomenon The international arms trade has a long history and includes the sale of foreign weapons to Chinese warlords after the First World War First published in 1982 this book remains the classic account of the arms trade in warlord China The second edition includes a new preface that reframes the argument within the paradigm of critical militarism and state criminality Arming the Chinese tells the story of the warlords who sought weapons for their expanding armies and of the merchants and governments in Europe Japan and the United States who provided them Although the warlords were hearty individualists who retained control over domestic affairs and rarely relied on single foreign suppliers the armaments trade Chan argues was a new form of imperialism which perpetrated the continued Western and Japanese domination of China

**War in Modern China** Harold M Tanner,2025-09-30 This book offers comprehensive coverage of China s military history from the Qing dynasty 1644 1912 to present China has become one of the great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China s strategic thought and action In doing so they routinely refer to China s military history This volume examines this history beginning with the Qing dynasty s era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party s use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely War in Modern China A Military History is essential reading for students scholars and enthusiasts of Chinese and global military history

*China, 1898-1912* Douglas R. Reynolds,2020-04-06 Challenging most accounts of China s revolutionary transformation at the turn of the century Douglas Reynolds argues that the political toppling of the Qing dynasty in 1911 was less important than the Xinzheng or New System reforms of the late Qing government itself He then provides a detailed account of the debt those reforms owed to Japan For the Chinese Japan offered models for major modern institutions training for administrators military officers and modern police a shortcut to Western

knowledge through translations from the Japanese a ready made modern vocabulary using Kanji or Chinese characters and advisers and instructors in many fields After establishing the broad areas in which China underwent a lasting and peaceful revolution during a Golden Decade of beneficial relations with its island neighbour Reynolds recounts the activities of Chinese students in Japan and those of Japanese teachers and advisers in China He examines the effect of translations from the Japanese on textbooks and general publishing and outlines Chinese borrowings from Japanese Western style institutions in education the military police and prisons modern law the judiciary and constitutional government

*Yunnan-A Chinese Bridgehead to Asia* Tim Summers, 2013-05-15 The Chinese Government's five year strategy for social and economic development to 2015 includes the aim of making the southwestern province of Yunnan a bridgehead for opening the country to southeast Asia and south Asia Yunnan A Chinese Bridgehead to Asia traces the dynamic process which has led to this policy goal a process through which Yunnan is being repositioned from a southwestern periphery of the People's Republic of China to a bridgehead between China and its regional neighbours It shows how this has been expressed in ideas and policy frameworks involvement in regional institutions infrastructure development and changing trade and investment flows from the 1980s to the present Detailing the wider context of the changes in China's global interactions especially in Asia the book uses Yunnan's case to demonstrate the extent of provincial agency in global interactions in reform era China and provides new insights into both China's relationships with its Asian neighbours and the increasingly important economic engagement between developing countries Offers a new perspective on Yunnan Contains historical depth understanding the background and developments over time means that this China watching book will not date quickly Takes a provincial view of China's international relations

**Historical Dictionary of Modern China (1800-1949)** James Z. Gao, 2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China's modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China's drive towards modernization and appendixes provide the reader with detailed information on China's cultural and economic transformation

*Journal of Asian History*, 1981

**China's Use of Military Force** Andrew Scobell, 2003-09-08 In this unique study of China's militarism Andrew Scobell examines the use of military force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has

become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty-first century leaders may use military force more readily than their predecessors

**Revolution** Donald S. Sutton, 1980

Global Anti-Vice Activism, 1890-1950 Jessica R. Pliley, Robert Kramm, Harald

Fischer-Tiné, 2016-07-04 Vice was one of the primary shared interests of the global community at the turn of the twentieth century Anti vice activists worked to combat noxious substances such as alcohol drugs and cigarettes and immoral sexual activities such as prostitution Nearly all of these activists approached the issue of vice by expressing worries about the body its physical health and functionality By situating anti vice politics in their broader historical contexts Global Anti Vice Activism 1890-1950 sheds fresh light on the initiatives of various actors organizations and institutions which have previously been treated primarily within national and regional boundaries Looking at anti vice policy from both social and cultural historical perspectives it illuminates the centrality of regulating vice in imperial and national modernization projects The contributors argue that vice and vice regulation constitute an ideal topic for global history because they bridge the gap between discourse and practice and state and civil society

**The Republic of China** Xavier Paules, 2023-11-08 The declaration of the Republic of China in 1912 signalled an entirely new era Not only did the revolution of 1911-12 bring about the fall of the Qing dynasty it also brought an end to the entire series of dynasties that had marked Chinese history for over two millennia Radical reforms since 1901 had culminated in the ending of the political status quo and the rejection of the very idea of empire Drawing on the most recent historical research Xavier Paul's provides a comprehensive account of the crucial but chaotic period that stretched from the founding of the Republic of China in 1912 to the civil war of 1945-9 which ended with the victory of the Chinese Communist Party CCP and the establishment of the People's Republic of China Paul's challenges various common claims about this period It is often assumed that the CCP was instrumental in bringing about key events by skilfully mobilizing the population to serve its ends Paul's argues by contrast that the CCP took advantage of fortunate circumstances and that even then it was only in a position to challenge the supremacy of the Guomindang as late as 1944 His analysis takes a broad view by considering the importance of political actors both within and external to the revolutionary movement enabling him to offer a balanced interpretation of the republican period which sheds new light on China's political cultural and economic development

**Chinese Workers of the World** Selda Altan, 2024-06-11 Chinese workers helped build the modern world They labored on New World plantations worked in South African mines and toiled through the construction of the Panama Canal among many other projects While most investigations of Chinese workers

focus on migrant labor Chinese Workers of the World explores Chinese labor under colonial regimes within China thorough examination of the Yunnan Indochina Railway constructed between 1898 1910 The Yunnan railway a French investment in imperial China during the age of railroad colonialism connected French colonized Indochina to Chinese markets with a promise of cross border trade in tin silk tea and opium However this ambitious project resulted in fiasco Thousands of Chinese workers died during the horrid construction process and costs exceeded original estimates by 74% Drawing on Chinese French and British archival accounts of day to day worker struggles and labor conflicts along the railway Selda Altan argues that long before the Chinese Communist Party defined Chinese workers as the vanguard of a revolutionary movement in the 1920s the modern figure of the Chinese worker was born in the crosscurrents of empire and nation in the late nineteenth century Yunnan railway workers contested the conditions of their employment with the knowledge of a globalizing capitalist market fundamentally reshaping Chinese ideas of free labor national sovereignty and regional leadership in East and Southeast Asia
