**Royal Mounds of A'ali in Bahrain** Steffen Terp Laursen, 2017-12-21 The Royal Mounds of A'ali in Bahrain has long been shrouded in mystery and suspected to be the final resting place of the Bronze Age kings of Dilmun Puzzled by their great size explorers and professional archaeologists have for hundreds of years attempted to penetrate their interior and wrestle secrets and treasures from the tombs This book presents information from the early days of archaeological exploration at A'ali as well as new data from the joint Bahrain Moesgaard Museum investigations 2010-2016 directed by the author The evidence from both old and new field explorations at A'ali are meticulously analyzed The results are discussed with a strong focus on the royal cemetery as an institution using a theoretical approach based on the anthropology and ethnography of death rituals Emphasis is also placed on developing an architectural typology and a radio carbon based chronology of the royal tombs at A'ali In this study vast quantities of hitherto unpublished data from excavations in the burial mounds of Bahrain is integrated to allow a more informed and diachronic picture of the evolution in tomb architecture death rituals and social organization in the Early Dilmun period c 2200-1700 BC Philological evidence is presented which demonstrates that the entombed kings were of Amorite ancestry The study reveals that the Amorite Dynasty buried at A'ali emerged with the formation of huge monumental tombs in a royal cemetery proper around 2000-1900 BC and lost its grip on power c 1700 BC

Tareekh Pe Justice Prashant Reddy Thikkavarapu,Chitrakshi Jain,2025-03-20 One of the biggest failures of the Indian state since it gave itself a new Constitution in 1950 has been its inability to deliver fair and timely justice to its citizens Tareekh Pe Justice Reforms for India s District Courts conducts a deep dive into the dysfunction plaguing the district judiciary These courts are the only layer of the judiciary that operate in every district of the country Of the three tiers of the Indian justice system the district courts hear the largest number of cases and are the first point of contact for most Indians seeking justice Traditionally the debate on judicial reforms in India has been framed by the judiciary in terms of resources be it the number of judges or funding for the judiciary In this book the authors attempt to reframe the issue by pointing instead to the institutional factors that have created a chilling atmosphere for the judges of the district judiciary hampering their ability to deliver fearless swift and decisive justice The authors also point to a litany of problems within the higher judiciary upon whom falls the responsibility of administering the district courts This includes a failure to publish accurate judicial statistics an opaque decision making process a poorly conceptualized digitization project that has gobbled up more than Rs 2 000 crore and reckless judicial activism that has often resulted in half baked judicial reforms Lastly the authors propose three big ideas to fundamentally rethink the justice system These ideas include redesigning the constitutional architecture of the Indian judiciary bringing back citizens into the courtrooms via juries and resisting dangerous populist demands that seek the decimation of procedural and evidentiary safeguards in the law These are reforms that can transform the efficiency of the district courts while also restoring public trust in the Indian judiciary and the rule of law in India     *Jade* Roger Keverne,2012-12-06 FOREWORD RECUMBENT HORSE Chinese Ming Dynasty 1 Length 3 2 in 9 em The formation of the head with its marked convexity of outline resembles that of one depicted on a mural painting in a Northern Song tomb discovered at Pai Sha in Honan Despite its size this horse has a strong sculptural quality Worked from pale green jade with light brown markings t has been said that a single daily issue of a newspaper effort to survey the jade scene worldwide These volumes such as The New York Times Neue Zurcher Zeitung or Le were bigger than was necessary considering the amount
