New Approaches to the Study of Biblical Interpretation in Judaism of the Second Temple Period and in Early Christianity Gary A. Anderson,Ruth

Clements,David Satran,2013-03-27 2007 marked the 60th anniversary of the discovery of the first Dead Sea Scrolls The 11th International Orion Symposium January 2007 New Approaches to the Study of Biblical Interpretation in the Second Temple Period and in Early Christianity provided a measure of the ways in which the discovery of the scrolls has altered the paradigms for textual and historical studies in the intervening six decades The papers in this volume address such issues as the connections and distinctions between Jewish interpretation within the Land of Israel and outside of it between Jewish and Christian exegesis in earlier and later periods between biblical interpretation in literature and in art between interpretation and the formation of the biblical canon

Nicholas of Cusa on Christ and the Church ,2021-11-22 This volume contains studies on Nicholas of Cusa and his times The first section is concerned with Cusanus context beginning with a historiographic essay by Francis Oakley on the impact of Brian Tierney s Foundations of the Conciliar Theory Among the topics addressed are the long term continuation of the Council of Basel 1431 1449 and the issues of ecclesiastical income which it addressed The second part is concerned with Cusanus thought on the Church both in his conciliarist and papalist phases Included is the first translation into English of Nicholas Reformatio generalis Attention also is paid to Cusanus reforming efforts and the relationship of his thought on these issues to his earliest speculative writings The third part is concerned with Nicholas ideas on Christ and mystical experience Particular attention is paid to the De visione dei including its relationship to Renaissance art The volume concludes with wide ranging essays on the larger significance of Cusanus speculative thought An update of Thomas M Izbicki s bibliography of Cusanus scholarship in English is included

On Evil Saint Thomas (Aquinas),2003 The De Malo represents some of Aquinas most mature thinking on goodness badness and human agency This text offers Richard Regan s English translation based on the Leonine Commission s authoritative edition of the Latin text Brian Davies has provided an extensive introduction and notes

De Malo Saint Thomas (Aquinas),Richard J. Regan,2001 The De Malo represents some of St Thomas Aquinas most mature thinking on goodness badness and human agency Together with the second part of the Summa Theologiae it is one of his most sustained contributions to moral philosophy and theology Aquinas examines the full range of questions associated with evil its origin its nature its variety its relation to good and its compatibility with the existence of an omnipotent benevolent God This edition offers the Leonine

Commission's authoritative edition of the Latin text with a new clear and readable English translation by Richard Regan with an extensive introduction and notes by Brian Davies **The Blackwell Dictionary of Eastern Christianity** Ken Parry, David J. Melling, Dimitri Brady, Sidney H. Griffith, John F. Healey, 2000-11-08 Containing over 700 articles this Dictionary allows the reader to explore Eastern Christian civilization with its cultural and religious riches The articles are written by a team of 50 international contributors including leading historians theologians linguists philosophers patrologists musicians and scholars of liturgy and iconography *Theodore the Stoudite* Roman Chelij, 2002 This is the first modern study in English of the life and thought of the ninth century Byzantine theologian and monastic reformer Theodore the Stoudite Chelij provides a complete analysis of and guide to all the primary source material attributed to Theodore If the monastic leader is considered in the context of the tradition to which he belonged it is clear that his religious formation occurred within a widely established school of Basilian and Palestinian Christian thought This encourages a fresh engagement with the subtleties in Theodore's behaviour towards the Byzantine religious and secular leaders of his time and provokes new conclusions concerning the religious and secular issues which involved Theodore in controversy Chelij refutes the established view of Theodore as a breaker of the traditional Byzantine church and state relationship and provides new insights into Theodore's true understanding of the involvement of the Emperor in church affairs In his analysis of the rites of holiness that belonged to Theodore's church the author identifies a false tradition of sacramental mysteries in a misreading of Pseudo Dionysius the Areopagite and so offers a radically new definition of the origins of the Orthodox sacramental tradition Abbot Suger of St-Denis Lindy Grant, David Bates, 2016-02-04 Based on a fresh reading of primary sources Lindy Grant's comprehensive biography of Abbot Suger 1081-1151 provides a reassessment of a key figure of the twelfth century Active in secular and religious affairs alike Suger was Regent of France and also abbot of one of the most important abbeys in Europe during the time of the Gregorian reforms But he is primarily remembered as a great artistic patron whose commissions included buildings in the new Gothic style Lindy Grant reviews him in all these roles and offers a corrective to the current tendency to exaggerate his role as architect of both French royal power and the new gothic form Aquinas on Beauty Christopher Scott Sevier, 2015-02-12 Aquinas on Beauty explores the nature and role of beauty in the thought of Thomas Aquinas Beginning with a standard definition of beauty provided by Aquinas it explores each of the components of that definition The result is a comprehensive account of Aquinas's formal view on the subject supplemented by an exploration into Aquinas's commentary on Dionysius's Divine Names including a comparison of his views with those of both Dionysius and those of Aquinas's mentor Albert the Great The book also highlights the tight connection in Aquinas's thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow marrying objective and subjective aesthetic intuitions and charting a kind of via media between the common extremes **Indiscretion** Thomas A. Carlson, 1999-02-02 How can

one think and name an inconceivable and ineffable God Christian mystics have approached the problem by speaking of God using negative language devices such as grammatical negation and the rhetoric of darkness or unknowing and their efforts have fascinated contemporary scholars In this strikingly original work Thomas A Carlson reinterprets premodern approaches to God's ineffability and postmodern approaches to the mystery of the human subject in light of one another The recent interest in mystical theological traditions Carlson argues is best understood in relation to contemporary philosophy's emphasis on the idea of human finitude and mortality Combining both historical research in theology from Pseudo Dionysius to Aquinas to Eckhart and contemporary philosophical analysis from Hegel and Nietzsche to Heidegger Derrida and Marion Indiscretion will interest philosophers theologians and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity *God, Hierarchy, and Power* Ashley M. Purpura, 2017-11-07 In the current age where democratic and egalitarian ideals have preeminence Eastern Orthodox Christianity among other hierarchically organized religious traditions faces the challenging questions Why is hierarchy maintained as the model of organizing the church and what are the theological justifications for its persistence These questions are especially significant for historically and contemporarily understanding how Orthodox Christians negotiate their spiritual ideals with the challenges of their social and ecclesiastical realities To critically address these questions this book offers four case studies of historically disparate Byzantine theologians from the sixth to the fourteenth centuries Dionysius the Areopagite Maximus the Confessor Niketas Stethatos and Nicholas Cabasilas who significantly reflect on the relationship between spiritual authority power and hierarchy in theoretical liturgical and practical contexts Although Dionysius the Areopagite has been the subject of much scholarly interest in recent years the applied theological legacy of his development of hierarchy in the Christian East has not before been explored Relying on a common Dionysian heritage these Byzantine authors are brought into a common dialogue to reveal a tradition of constructing authentic ecclesiastical hierarchy as foremost that which communicates divinity *Birth of the Symbol* Peter T. Struck, 2014-03-10 Nearly all of us have studied poetry and been taught to look for the symbolic as well as literal meaning of the text Is this the way the ancients saw poetry In *Birth of the Symbol* Peter Struck explores the ancient Greek literary critics and theorists who invented the idea of the poetic symbol The book notes that Aristotle and his followers did not discuss the use of poetic symbolism Rather a different group of Greek thinkers the allegorists were the first to develop the notion Struck extensively revisits the work of the great allegorists which has been underappreciated He links their interest in symbolism to the importance of divination and magic in ancient times and he demonstrates how important symbolism became when they thought about religion and philosophy They see the whole of great poetic language as deeply figurative he writes with the potential always even in the most mundane details to be freighted with hidden messages *Birth of the Symbol* offers a new understanding of the role of poetry in the life of ideas in ancient Greece Moreover it demonstrates a connection between the way we understand poetry and the way it was understood by important thinkers in ancient times

Renewing Tradition Mark W. Hamilton, Thomas H. Olbricht, Jeffrey Peterson, 2006-11-10 We offer this collection as a token of our affection and admiration of our friend and colleague James Weldon Thompson His studies of the letter to the Hebrews and of Paul in their intellectual contexts especially Middle Platonism have contributed significantly to the ongoing quest for placing the New Testament in its socio intellectual setting Although his publications in this area date back more than thirty years his best work is occurring now and we may anticipate path breaking contributions ahead His more recent work on preaching and pastoral care in Paul both situate the Apostle in his own world and just as importantly offer correctives of some contemporary ministerial practices and invitations for improvements Since 1993 Thompson has served as the editor of Restoration Quarterly a significant venue for research in biblical studies church history especially of the Stone Campbell Restoration Movement and contemporary theology His more popular works make available to a lay audience thoughtful well informed and spiritually rewarding interpretations of much of the New Testament His achievements however do not end at the printing press For more than thirty years he has taught ministers and others at the Institute for Christian Studies now Austin Graduate School of Theology and Abilene Christian University Students of the past and the present speak of him as a prepared stimulating and creative teacher unafraid of experimentation for a new generation of learners At both institutions he also served as an administrator first as President of ICS and then as Associate Dean of ACU s Graduate School of Theology His colleagues respect his ability to enlist them for work as needed and otherwise to get out of their way certainly a too rare set of skills in university administrators from the Preface

Apophysis and Pseudonymity in Dionysius the Areopagite Charles M. Stang, 2012-02-09 This book examines the writings of an early sixth century Christian mystical theologian who wrote under the name of a convert of the apostle Paul Dionysius the Areopagite and argues that the pseudonym and the corresponding influence of Paul are the crucial lens through which to read this influential corpus

Called to be the Children of God Carl E. Olson, Fr. David Vincent Meconi, S.J., 2016 This book gathers fourteen Catholic scholars to present examine and explain the often misunderstood process of deification The fifteen chapters show what becoming God meant for the early Church for St Thomas Aquinas and the greatest Dominicans and for St Francis and the early Franciscans This book explains how this understanding of salvation played out during the Protestant Reformation and the Council of Trent It explores the thought of the French School of Spirituality various Thomists John Henry Newman John Paul II and the Vatican Councils and it shows where such thinking can be found today in the Catechism of the Catholic Church No other book has gathered such an array of scholars or provided such a deep study into how humanity s divinized life in Christ has received many rich and various perspectives over the past two thousand years This book seeks to bring readers into the central mystery of Christianity by allowing the Church s greatest thinkers and texts to speak for themselves demonstrating how becoming Christ like and the Body of Christ on earth is the only ultimate purpose of the Christian faith

How the West was Won Willemien Otten, Arie Johan Vanderjagt, Hent De Vries, Arjo Vanderjagt, 2010 This volume contains

articles on various aspects of literary imagination with essays ranging from Petrarch to Voltaire on the canon with essays on western history as one of shifting cultural ideals and on the Christian Middle Ages The volume is a Festschrift for Burcht Pranger of the University of Amsterdam **Negation and Knowledge of God: Neoplatonism and Christianity** Daniel Jugrin,2017-10-06 It is not soul not intellect not imagination opinion reason and not understanding not logos not intellection not spoken not thought not number not order not greatness not smallness not equality not inequality not likeness not unlikeness not having stood not moved not at rest not powerful not intepowerful not light not living not life not eternity not time not intellectual contact with it not knowledge not truth not kingship not wisdom not one not unity not divinity not goodness not spirit not sonhood not fatherhood not something among what is not not something among what is not known as it is by beings not a knower of beings as they are There is neither logos name or knowledge of it It is neither dark nor light not error and not truth There is universally neither postulation nor abstraction of it While there are produced postulations and abstractions of those after it we neither postulate nor abstract it Since beyond all postulation is the all complete and single Cause of all beyond all abstraction the preeminence of that absolutely free of all and beyond the whole Dionysius the Areopagite De mystica theologia V A Wounded Innocence Alejandro R. Garcia-Rivera,2015-03-15 What is the theological significance of art Why has the Church always encouraged the arts What is so profoundly human about the arts In A Wounded Innocence Alejandro R Garcia Rivera answers these questions in a series of sketches that are mixed spiritual and theological reflections on various works of art written in a poetic style These reflections explore the relationship between the multi dimensional spiritual and the arts The first sketch The Beginning of Art introduces the rest that go on to explore further the human artistic and theological implications of a wounded innocence Each sketch reflects on a particular human work of art Some are conventional works of art Others may never find their way into a museum but then that is one of the implications coming out of this book A museum does not define what a work of art is its human depth does In these deeply studied yet spiritually written reflections on each work of art it is hoped that the reader will find his and her own creative depth described perhaps even revealed A Wounded Innocence is both inspiring and informative Readers will learn about art spirituality and theology and will find themselves inspired to look at works of art and even to produce a work of art It sets a new way of doing theology that is at the same time spiritual More importantly Garcia Rivera describes a theology of art Chapters are The Beginning of Art The End of Art Human Freedom and Artistic Creativity Heaven with Us The Human Aspect of Atonement The Tyger and the Lamb and A Wounded Innocence Includes black and white art Alejandro R Garcia Rivera PhD is associate professor of systematic theology at the Jesuit School of Theology at Berkeley The author of numerous articles he also wrote a Catholic Press Association award winning book on theology and aesthetics titled The Community of the Beautiful The Liturgical Press **Metaphysics and Hermeneutics in the Medieval Platonic Tradition** Stephen Gersh,2020-11-09 Metaphysics and Hermeneutics in the Medieval Platonic Tradition consists of twelve essays originally

published between 2006 and 2015 dealing with main trends and specific figures within the medieval Platonic tradition Three essays provide general surveys of the transmission of late ancient thought to the Middle Ages with emphasis on the ancient authors the themes and their medieval readers respectively The remaining essays deal especially with certain major figures in the Platonic tradition including pseudo Dionysius the Areopagite Iohannes Scottus Eriugena and Nicholas of Cusa The principal conceptual aim of the collection is to establish the primacy of hermeneutics within the philosophical program developed by these authors in other words to argue that their philosophical activity substantially albeit not exclusively consists of the reading and evaluation of authoritative texts The essays also argue that the role of hermeneutics varies in the course of the tradition between being a means towards the development of metaphysical theory and being an integral component of metaphysics itself In addition such changes in the status and application of hermeneutics to metaphysics are shown to be accompanied by a shift from emphasizing the connection between logic and philosophy to emphasizing that between rhetoric and philosophy The collection of essays fills in a lacuna in the history of philosophy in general between the fifth and the fifteenth centuries It also initiates a dialogue between the metaphysical hermeneutics of medieval Platonism and certain modern theories of hermeneutics structuralism and deconstruction The book will be of special interest to students of the classical tradition in western thought and more generally to students of medieval philosophy theology history and literature CS1094
