Pseudozeno Anonymous Philosophical Treatise:

Pseudo-Zeno M.E. Stone, M.E. Shirinian, 2016-06-21 The Anonymous Philosophical Treatise is here presented to the western world for the first time It is a philosophical treatise of the Late Antique period written in about the sixth century C E The author was a Christian but he utilized pagan philosophical sources Thus this is one of the latest writings of ancient philosophy and as such is of very considerable interest and importance The Anonymous Philosophical Treatise was preserved only in Armenian It was published first half a century ago in Armenian and in Russian translation but is barely known to western scholarship Here a new edition is presented prepared on computer together with critical apparatuses translation and commentary A variety of tools for the study of the text are included a concordance a word list of the English translation trilingual tables of Armenian Greek English technical terminology and more 'Go Out and Study the Land' (Judges 18:2) Aren M. Maeir, Jodi Magness, Lawrence Schiffman, 2011-11-25 The volume contains the 22 papers presented to Hanan Eshel before his death covering topics in archaeology history and textual studies with a particular emphasis on aspects relating to the Dead Sea Scrolls spanning the late Iron Age through late Antiquity **Porphyry Introduction** Porphyry, 2006 The Introduction to philosophy written by Porphyry at the end of the second century AD is the most successful work of its kind ever to have been published It was translated into most respectable languages and for a millennium and a half every student of philosophy read it as his first text in the subject Porphyry's aim was modest he intended to explain the meaning of five terms genus species difference property and accident terms which he took to be important to Aristotelian logic and metaphysics and hence to philosophy in general Thus in principle the Introduction is simple and elementary In fact there are sometimes difficulties and doubts on the surface of the text and beneath the surface there are frequent depths or profundities The work raises directly or indirectly a number of perennial philosophical questions In addition the Introduction became in Boethius's Latin translation the point of reference for one of the longest lasting of philosophical disputes the dispute over the status of universals This book contains a new English translation of the Introduction preceded by a study of the life and works of Porphyry the purpose and nature of the Introduction and the history of the text It is accompanied by a discursive commentary the primary aim of which is to analyse and assess the philosophical theses and arguments which the Introduction puts forward But there are also numerous notes of a more philological or historical turn The twentieth century turned away from Aristotelian logic and the Introduction lost its position on the syllabus Barnes does not argue that it should be put back in its old place but his commentary the first to be published in English and the fullest to be published for a century suggests that there is blood in the old man yet CLARENDON LATER ANCIENT PHILOSOPHERS General Editors Jonathan Barnes and A A Long This series which is modelled on the familiar Clarendon Aristotle and Clarendon Plato series is designed to encourage philosophers and students of philosophy to explore the fertile terrain of later ancient philosophy The texts range in date from the first century BC to the fifth century AD and will cover all the parts and all the schools of

philosophy Each volume contains a substantial introduction an English translation and a critical commentary on the philosophical claims and arguments of the text The translations aim primarily at accuracy and fidelity but they are also readable and accompanied by notes on textual problems that affect the philosophical interpretation No knowledge of Greek or Latin is assumed **Theophrastus of Eresus: Logic [texts 68-136]** Pamela M. Huby, Dimitri Gutas, 1995 In the present volume the focus is on natural philosophy apart from the study of living things Topics covered include the principles of scientific enquiry place time motion the heavens the sublunary world meteorology and the study of materials

On Weather Signs Theophrastus, 2007 This text and commentary is the first to take account of all the manuscripts and to place the work in its historical and scientific context as well as the first to describe its manuscript tradition **L'oeuvre de David l'Invincible et la transmission de la pensée grecque dans la tradition arménienne et syriaque** J. R. Barnes, 2009 David a member of the Platonic school in Alexandria in the sixth century is credited with several commentaries on Aristotle s logic those commentaries and their Armenian translations form the subject of this book An introduction which discusses David and his place in the Greek and the Armenian traditions is followed by a series of studies of the relations between the Greek texts and their Armenian translations the aims are first to assess the value of the translations for the constitution of the original Greek and secondly to consider the ways in which the Armenian translations adapted the texts to suit their new readership More generally the book is concerned with the ways in which Greek thought was exported abroad to Armenia and to Syria it is required reading for anyone who is interested in the circulation of ideas between east and west Contributors include Sen Arevshatyan Jonathan Barnes Valentina Calzolari Henri Hugonnard Roche Gohar Muradyan Michael Papazian Manea Shirinian Clive Sweeting Albert Stepanyan Aram Topchyan [The Libraries of the Neoplatonists](#) Cristina D' Ancona, 2007-04-30 The transmission of Greek learning to the Arabic speaking world paved the way to the rise of Arabic philosophy This volume offers a deep and multifarious survey of transmission of Greek philosophy through the schools of late Antiquity to the Syriac speaking and Arabic speaking worlds [Theophrastus of Eresus: On Weather Signs](#) C.W. Brunschön, David Sider, 2007-03-31 On Weather Signs traditionally ascribed to Theophrastus contains the most complete list

of such signs in antiquity and it was in this or some very similar form consulted by Aratus Vergil in Georgics I and Pliny the Elder as well as by many other authors throughout the Byzantine period This edition is the first to take account of all the manuscripts and the commentary the first in over a century is on a far grander scale than earlier ones by Schneider 1818 21 and Wood 1894 listing almost all parallel texts for each sign The introduction places the work in the context of its genre and for the first time lays out the details of its manuscript tradition Influences on Peripatetic Rhetoric David C. Mirhady,2007 Each paper explores the influences on different parts of Peripatetic rhetoric its discussion of character emotion reason and style its relationships with other texts including those of Theodectes and the Rhetorica ad Alexandrum and its relationship with the oratory of the 4th century BC New Perspectives on Aristotle's De Caelo Alan C. Bowen,Christian Wildberg,2009 This volume is the first collection of scholarly articles in any modern language devoted to Aristotle's De caelo It grew out of series of workshops held at Princeton Cambridge and Paris in the late 1990's Since Aristotle's De caelo had a major influence on cosmological thinking until the time of Galileo and Kepler and helped to shape the way in which Western civilization imagined its natural environment and place at the center of the universe familiarity with the main doctrines of the De caelo is a prerequisite for an understanding of much of the thought and culture of antiquity and the Middle Ages **Armenian Apocrypha Relating to Biblical Heroes** Michael E. Stone,2019-04-19 Explore richly embellished Armenian tales of biblical heroes This fifth book of Michael E Stone's English translations of stories from medieval Armenian manuscripts illustrates how authors transmitted and transformed accounts of biblical heroes Texts focus on important figures such as Adam Noah Abraham Solomon Daniel and Susanna and more This collection reflects not only the richness of Armenian creativity stimulated by piety and learning but also Michael E Stone's career long search for reworkings of biblical traditions stories and persons in the Armenian tradition Features A rich tradition of biblical exegesis and commentary much of it in genres of the older apocryphal and pseudepigraphical literature Reflections on the roots of Armenian texts in ancient Judaism and earliest Christianity Texts translations and a critical apparatus *Adamgirk` Arak'el* (Siwnets'i),2007-02-22 The life of A ak el Siwnec i His times Attitudes to A ak el as a poet The Adamgirk Arak el's writings Tchobanian's translation Adamgirk 3 Adamgirk 1 Adamgirk 2 Concerning the first ones **Things Revealed** Esther G. David the Invincible, Commentary on Aristotle's Prior Analytics Aram Topchyan, 2010-12-17 David the Invincible's 6th century AD Commentary on Aristotle's Prior Analytics survives only in an old Armenian translation from Greek. Its critical edition with a Russian translation (1967) was based on the *editio princeps* of Venice (1833) and five manuscripts of the Matenadaran Institute of Ancient Manuscripts, Erevan. This edition includes the text of 1967 revised through careful rechecking of the same five manuscripts and the *editio princeps* as well as on the basis of twenty-three other manuscripts. The book contains the first English translation of the work, textual parallels with other commentaries on Aristotle, trilingual Armenian-Greek-English glossaries, and other material useful to interested specialists. The introduction, among other subjects, discusses the disputable issues of authorship and the translator.

Theophrastus Against the Presocratics and Plato H. Baltussen, 2000 This study of Theophrastus, much neglected, *De sensibus* offers a new interpretation of the treatment of the Presocratic and Platonic views on sense perception and provides new insight into Theophrastus' exegetical procedure by using Peripatetic dialectic as a heuristic tool.

Greek Texts and Armenian Traditions Francesca Gazzano, Lara Pagani, Giusto Traina, 2016-08-22 An interdisciplinary approach, crucial as it is in most fields of research, proves itself to be unescapable in the study of interactions between the ancient Armenian and Greek worlds and literatures. The volume arises from such an awareness and collects papers presented in a conference which has been organized in 2013 at the University of Genova thanks to a cooperation with the University Paris Sorbonne following in the footsteps of a tradition inaugurated by Giancarlo Bolognesi in the years 80 and 90. The subject is explored from many points of view: the topic of Armenian translations of Greek texts with considerations of a methodological nature and the discussion of case studies aspects which pertain to the historical context and the historiographical sources; the wide theme of the Armenian reception of Biblical Christian and Byzantine literature; and finally philological, linguistic and lexical problems. The aim of this kind of research is to exploit the cooperation among classical philologists, linguists and Armenologists in order to face the challenge of investigating a subject which requires many different competences.

The Oxford Handbook of Byzantine Literature Stratis Papaioannou, 2021 In twenty-five chapters by leading scholars, this volume propagates a nuanced understanding of Byzantine literature, highlighting key problems and presenting basic research tools for an audience of specialists and non-specialists.

Proclus' Hymns Robbert Maarten van den Berg, 2001-12-01 This book studies the hymns composed by the Neoplatonist Proclus in the context of his philosophy. Its main claim is that the hymns should be understood in the context of theurgy, the ritual art adopted by the Neoplatonists in order to obtain mystical experiences. The first part of the book consists of a series of essays which discuss the relation of the hymns to Proclus' Neoplatonism, his theory of poetry, and especially to theurgy. The second part offers translations of the individual hymns together with a detailed commentary. This study will be of special interest to those working in the field of Neoplatonism and a helpful guide to scholars of Late Antique poetry and religion who wish to explore these intriguing yet at times obscure poems.

Armenian Philology in the Modern Era, 2014-06-05

Philology is one of the most investigated fields of Armenian studies. At the end of the twentieth century it was important to provide an overview of the main achievements and on the methodological approaches implemented in this field till now. This is the aim of the present publication. Part I focuses on the manuscripts, the inscriptions and the printings. Its second section is devoted to the textual criticisms and the third section explores the interface between linguistics and philology. Case studies form the core of Part II. One chapter offers an overview on the 17th-19th centuries and two articles are devoted to the conditions of the circulation of the literary production in the 20th century both in Western and Eastern Armenian.
