alternative the radical distinction between essence and existence which leads him to distinguish four realms of being the realm of essence the realm of matter the realm of truth and the realm of spirit Essence as logical identity matter as contingent existence truth as frozen history and spirit as the flames that part from contingency and approximate the eternal An attempt has been made in this book to expand on and clarify these questions **The Darkening Spirit** David Tacey, 2013-06-26 The twenty first century could well be Jung's century just as the twentieth century was Freud's Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung's prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader
