*Psyche Subversion* Andromeda Press, 1992-11      *Subversion and Desire* Manu Bazzano, 2023-06-07 This book presents the importance of subversion in psychotherapy and reevaluates the positive role of desire as an integrating force in the individual and collective psyche The text provides a solid philosophical frame which helps to expand the scope of contemporary psychotherapy at a time when it is being curtailed by a reductionist neoliberal zeitgeist The latter emphasizes cognition over motivation behaviour over emotion consciousness over the unconscious the self over the organism and tends to reframe psychotherapeutic practice as a reprogramming of individuals In response this book outlines concerted acts of soft subversion which can undermine the status quo and open new possibilities of individual and collective transformation The author also retraces and reassesses some of the more inspiringly subversive legacies in psychoanalysis with a view to sketching a life affirming psychology wedded to broadminded political engagement Covering psychotherapy politics art and literature and social and cultural theory this book will appeal to anyone interested in understanding how psychotherapy and philosophy can be more radical and subversive endeavours

With this anthology of his sequentially structured maxims free thinker John O Loughlin has finally arrived at the ne plus ultra of his philosophical oeuvre which combines all the most logically consistent material from the last twelve original titles 2014 2019 in one definitive volume that on account of the comprehensively exacting nature of his quadripartite structures and the way their theorizing evolves must rank as the bible of his philosophy if not of all philosophy of a metaphysical persuasion that yet allows for other categories both atomic and pseudo atomic to be accounted for in such fashion that everything is as it were nailed into place the better to support the overall morphology of unrelenting logic **Topography of the Psyche** Edmar Camara, 2025-07-09

The Architecture of the Psyche A Treatise on the Engineering of Narrative Before us is not merely a book about writing but a profound and systematic investigation into the architecture of consciousness in narrative form Edmar Camara's work is in essence a treatise that positions the character's psyche with its tensions valences mutations and fields of action as the irreducible engine of all meaningful fiction In 101 concise and dense chapters the author carries out a veritable dissection of the literary craft offering not just a manual but a philosophical manifesto on how plot character and reader coexist in a dialectical dance of meaning For the student and the academic this work proves to be an extraordinary theoretical and interdisciplinary framework Camara establishes a profound and original dialog between Russian Formalism Shklovsky Propp Existentialism Kierkegaard Sartre Phenomenology Bachelard Reception Theory Iser Sociology Bourdieu and Psychoanalysis Jung applying these concepts in an innovative way to the practice of creation Each chapter functions as a stand alone paper ideal for discussions in Literary Theory Narratology or Comparative Literature seminars The text doesn't just analyze literature it proposes a method for constructing it making it an invaluable resource for theses and dissertations that seek a bridge between criticism and poetics For the Fictional Writer this book is the most sophisticated conceptual toolbox you could wish for Tired of flat characters and predictable plots Camara offers a system for injecting depth resonance and a sense of inevitability into your narrative Forget the clichés of writing workshops here you'll learn how to master the economy of tension calibrate the valence of a scene and orchestrate the dielike shift that turns a good story into an unforgettable one With practical references to his own works the author not only theorizes but demonstrates how his concepts work in practice transforming abstractions into applicable techniques for building conflicts deepening the psychology of characters and crucially captivating the reader's intelligence and emotion For the Academic Manager and the Professor the book represents an opportunity for pedagogical innovation In a scenario where creative writing and humanities courses are looking for a competitive edge Edmar Camara's treatise offers a ready made curriculum for cutting edge training It

transcends the dichotomy between traditional literary analysis and formulaic writing manuals proposing a third way the development of a narrative intelligence that is both analytical and creative Adopting this work as a central bibliography means positioning a department or university at the forefront of thinking about the art of storytelling training not only critical readers but also creators who are aware of the complexity of their craft In short edii Camara s work is an invitation to descend into the engine room of fiction It is a challenging and illuminating text that treats literature with the seriousness of a science and the passion of an art It is aimed at those who are not content with just consuming stories but who feel the urge to understand and perhaps master the invisible forces that give life power and transcendence to the act of narrating The Virtuous Circles Quartet John O'Loughlin,2013-02-08 This quartet of aphoristic philosophy continues the author s quest for Social Transcendentalist perfection through texts as diverse as the aforementioned The Virtuous Circles which opens the volume The Struggle for Ultimate Freedom Apotheosis of the Gnosis and Eschatology or Scatology the latter of which would suggest a choice between Heaven and in effect Hell though Mr O Loughlin has definite ideological alternatives in mind

The Virtuous Circles John O'Loughlin,2022-06-11 THE VIRTUOUS CIRCLES is all about involuntal sensibility as a male led factor appertaining to both physics and especially metaphysics where virtue as shorthand for gender fidelity or sync is most perfect

**KEYS TO THE KINGDOM OF TRUTH** John O'Loughlin,2022-04-13 A deeply philosophical project which explores the varying relationships between atoms and pseudo atoms from opposite class and gender standpoints and with a view to exposing the extents to which any given atomic and or pseudo atomic position can be subverted from contrary class and gender positions depending on which class or gender is calling the shots in any given age This is simply the apotheosis of this author s quest for philosophical perfection beyond which it would be virtually impossible to go which is why this is not only John O Loughlin s best book but his last one too A Centretruths Editorial *ALPHA AND OMEGA* John

O'Loughlin,2022-02-25 *ALPHA AND OMEGA* Diabolic Beginning and Divine End is divided into four parts each of which investigates a variety of subjects having either alpha or omega connotations from a Social Transcendentalist standpoint with a view to advancing this ideological philosophy through several spiralling cycles towards enhanced metaphysical knowledge which is truth
