Psychiatric Experiences Of The Eighth:

Psychiatric Experiences of the Eighth Air Force Donald W. Hastings, David Graham Wright, Bernard C. Glueck, 1944

Psychiatric Experiences of the Eighth Air Force Donald Wilson Hastings, David Graham Wright, Bernard Charles Glueck, 1944 **THE PHYSIOLOGICAL AND PSYCHOLOGICAL EFFECTS OF COMBAT STRESS EXPERIENCED BY THE HEAVY BOMBARDMENT CREWS OF THE EIGHTH AIR FORCE DURING WWII** Anthony Cardo, 2025-02-21 The Physiological and Psychological Effects of Combat Stress Experienced by the Heavy Bombardment Crews of the Eighth Air Force during WWII offers a unique window into the effects of combat stress as experienced by a select number of men in a select moment of time and one that is unlikely to be experienced again by mankind This is not to say that future combat aviators will not experience the unique effects of combat stress as this is nearly a given as the record of man's wartime experiences shows but that the unique environment the men of the Eighth Air Force experienced will likely not be repeated to the same degree going forward With that being the most likely case author and military historian Anthony Cardo seeks to also explore what the experiences of the heavy bombardment crews of the Eighth Air Force with the physiological and psychological effects of combat stress have to offer posterity and aims to inspire the reader to ask for themselves what these experiences have to offer posterity What this work is not is a clinical study on the bomber crewmen nor is it meant to be an exhaustive study on the subject Instead it is meant to add to the historical discussion by categorizing some of the various physiological and psychological symptoms of combat induced fear and providing commentary on its significance and relation to the wider literature on the effects of combat stress on human beings If the work succeeds in fueling your interest or curiosity on the topic and propels you into further research then it has at least succeeded in its overall goal to both raise awareness and the discussion on the topic I hope you enjoy it as I enjoyed both researching and drafting this work

Psychiatric Experiences of the Eighth Air Force Donald W. Hastings, David G. Wright, Bernard C. Glueck, 1944

Cream of the Crop Allan Douglas English, 1996-07-20 English describes the development of a uniquely Canadian selection system that attempted to match the aptitudes of aircrew candidates to the duties they would perform and the evolution of the RCAF's training program from a haphazard system with enormous attrition to one that became the model for many modern systems He traces the development of aviation psychology and the treatment of psychological casualties of air combat English pays particular attention to the LMF controversy and the RCAF's response as well as the effect of morale and leadership on the psychological well being of and casualty rates among Royal Air Force and RCAF bomber squadrons In exploring the human dimension of air warfare an issue that has been widely overlooked in military literature English demonstrates that personnel considerations have at least as much influence on the effectiveness of air forces as material and technological factors *Psychiatric Experiences of the Eighth Air Force* Wright Hastings, 1944 *War Psychiatry* Franklin D. Jones, 1995 This volume of the Textbook of Military Medicine addresses the delivery of mental health services during

wartime The foreseeable future of the U S military includes the potential for involvement in a variety of conflicts ranging from peace keeping missions to massive deployments of personnel and materiel and possible nuclear biological and chemical threats as was seen in the Persian Gulf War The medical role in wartime is critical to success of the mission For the mental health disciplines this role encompasses identification and elimination of unfit personnel improvement of marginal personnel to standards of acceptability prevention of psychiatric casualties and their treatment when prevention fails All of these efforts must be guided by past experience and sound principles of human behavior Courage and Air Warfare Mark K.

Wells,2014-03-05 Colonel Wells investigates the nature of aerial warfare and the men who took part The book analyzes aircrew selection reaction to combat adaptability to stress morale leadership and combat effectiveness and compares the efforts of the US Eighth Air Force and RAF Bomber Command *Psychiatric Casualties* Mark Russell,Charles

Figley,2021-06-15 The psychological toll of war is vast and the social costs of war s psychiatric casualties extend even further Yet military mental health care suffers from extensive waiting lists organizational scandals spikes in veteran suicide narcotic overprescription shortages of mental health professionals and inadequate treatment The prevalence of conditions such as post traumatic stress disorder is often underestimated and there remains entrenched stigma and fear of being diagnosed Even more alarming is how the military dismisses or conceals the significance and extent of the mental health crisis The trauma experts Mark C Russell and Charles Figley offer an impassioned and meticulous critique of the systemic failures in military mental health care in the United States They examine the persistent disconnect between war culture which valorizes an appearance of strength and seeks to purge weakness and the science and treatment of trauma Instead of reckoning with the mental health crisis the military has neglected the needs of service members It has discharged prosecuted and incarcerated a large number of people struggling with the psychological realities of war and it has inflicted humiliation ridicule and shame on many more Through a far reaching historical account Russell and Figley detail how the military has perpetuated a self inflicted crisis The book concludes with actionable prescriptions for change and a comprehensive approach to significantly improving military mental health **Escape from Paris** Stephen Harding,2019-10-08 This thrilling

wartime adventure tells the true story of the downed American aviators who were rescued by French resistance fighters taken to Nazi occupied Paris and hidden under the very noses of the Gestapo Escape from Paris is the true story of a small group of U S aviators whose four B 17 Flying Fortresses were shot down over German occupied France on a single fateful day July 14 1943 Bastille Day They were rescued by brave French civilians and taken to Paris for eventual escape out of France In the French capital where German troops walked on every street and Gestapo agents hid around every corner the flyers met a brave Parisian resistance family living and working in the H tel des Invalides a complex of buildings and military memorials where Nazi officials had set up offices Hidden in the complex the Americans along with dozens of other downed Allied pilots and resistance operatives hatched daring escape plots The danger of discovery by the Nazis grew every day as

did an unlikely romance when one of the American airmen begins a star crossed wartime romance with the twenty two year old daughter of the family sheltering him a noir tale of war courage and desperation in the shadows of the City of Light Based on official American French and German documents histories personal memoirs and the author s interviews with several of the story s key participants *Escape from Paris* crosses the traditional lines of World War II history with tense drama of air combat over Europe the intrigue of occupied Paris and courageous American and Allied pilots and French resistance fighters pitted against Nazi thugs All of this set in one of the world s most beautiful and captivating cities **Flak** Edward B. Westermann, 2001 Air raid sirens wail searchlight beams flash across the sky and the night is aflame with tracer fire and aerial explosions as Allied bombers and German anti aircraft units duel in the thundering darkness Such cinematic scenes played out with increasing frequency as World War II ground to a close were more than mere stock material for movie melodramas As Edward Westermann reveals they point to a key but largely unappreciated aspect of the German war effort that has yet to get its full due Long the neglected stepchild in studies of World War II air campaigns German flak or anti aircraft units have been frequently dismissed by American British and German historians and by veterans of the European air war as ineffective weapons that wasted valuable materiel and personnel resources desperately needed elsewhere by the Third Reich Westermann emphatically disagrees with that view and makes a convincing case for the significant contributions made by the entire range of German anti aircraft defenses During the Allied air campaigns against the Third Reich well over a million tons of bombs were dropped upon the German homeland killing nearly 300 000 civilians wounding another 780 000 and destroying more than 3 500 000 industrial and residential structures Not surprisingly that aerial Armageddon has inspired countless studies of both the victorious Allied bombing offensive and the ultimately doomed Luftwaffe defense of its own skies By contrast flak units have virtually been ignored despite the fact that they employed more than a million men and women were responsible for more than half of all Allied aircraft losses forced Allied bombers to fly far above high accuracy altitudes and thus allowed Germany to hold out far longer than it might have otherwise Westermann s definitive study sheds new light on every facet of the development and organization of this vital defense arm including *A Study of Strategic Lessons Learned in Vietnam: The soldier*, 1981 *Dismantling Glory* Lorrie Goldensohn, 2003 *Dismantling Glory* deals with the poetry written about the honors and horrors of battle by the very soldiers who put their lives on the line Focusing on American and English poetry from World Wars I and II and the Vietnam War Lorrie Goldensohn presents the move from a poetry largely bound to trench warfare to a global war poetry dominated by air power invasion and occupation Civilians prisoners and children enter this poetry in new and compelling ways as do issues of race and gender changing and complicating the representation of war and expanding the scope of antiwar thinking **Symposium on Stress**, 1953 *The Era of World War II* Louise A. Arnold-Friend, 1979 *On Speed* Nicolas Rasmussen, 2009-11 *Medicine Dressing up for War*, 2021-11-22 From the contents Laurie KAPLAN How funny I must look with my breeches pulled down to my

knees nurses memoirs and autobiographies from the Great war Peter BUITENHUIS The perversion of motherhood the trope of the son at the front Renate PETERS The metamorphoses of Judith in literature and art war by other means Lorrie GOLDENSOHN Towards a non combatant war poetry Jarrell Moore Bishop **Masters of the Air MTI** Donald L. Miller, 2024-01-23 A history recounting the events and experiences of the World War II bomber pilots of the U S Eighth Air Force the armed forces group that conducted daytime bombing of Germany in advance of the Allied soldiers arrival on the ground I Will Tell No War Stories Howard Mansfield, 2024-04-16 When Howard Mansfield grew up World War II was omnipresent and hidden This was also true of his father s time in the Air Force Like most of his generation it was a rule not to talk about what he d experienced in war You re not getting any war stories from me he d say Cleaning up the old family house the year before his father s death Mansfield was surprised to find a short diary of the bombing missions he had flown Some of the missions were harrowing Mansfield began to fill in the details and to be surprised again this time by a history he thought he knew I Will Tell No War Stories is about undoing the forgetting in a family and in a society that has hidden the horrors and cataclysm of a world at war Some part of that forgetting was necessary for the veterans otherwise how could they come home how could they find peace I Will Tell No War Stories is also about learning to live with history a theme Mansfield explored in earlier books like In the Memory House which The New York Times called a wise and beautiful book and The Same Ax Twice said by the Times to be filled with insight and eloquence a brilliant book **Bibliography of Scientific and Industrial Reports** ,1946
