Ward,1906 The psychic factors of civilisation Lester Frank Ward,1892 *Social Darwinism in American Thought* Richard Hofstadter,2016-06-28 Social Darwinism in American Thought portrays the overall influence of Darwin on American social theory and the notable battle waged among thinkers over the implications of evolutionary theory for social thought and political action Theorists such as Herbert Spencer and William Graham Sumner adopted the idea of the struggle for existence as justification for the evils as well as the benefits of laissez faire modern industrial society Others such as William James and John Dewey argued that human planning was needed to direct social development and improve upon the natural order Hofstadter s classic study of the ramifications of Darwinism is a major analysis of the social philosophies that animated intellectual movements of the Gilded Age and the Progressive Era **The Psychic Factors of Civilisation** Lester Ward,2014-03-30 This Is A New Release Of The Original 1897 Edition A.L.A. Rego,2008-04-28 This book examines the political thought of Theodore Roosevelt specifically his ceaseless desire and effort to reconcile America s individualistic tradition with the more collectivistic ideals of his Progressive brethren Many scholars and lay people alike cast Roosevelt as either conservative or liberal but his political thought defies so simple an interpretation it was more nuanced and had a larger purpose than mere ideology A thorough study of Roosevelt s writings reveals his conviction that the concepts of personal autonomy and civic concern were not mutually exclusive In fact Roosevelt argued that it was because the principles of self reliance and personal freedom were important that it was sometimes necessary for the entire community to use its collective power and in some cases the institutions of the government to enable individuals to do what they could not do alone Moreover while Roosevelt advocated and was responsible for a great expansion in the regulatory powers of the national government he understood in contrast to many other Progressive reformers that inspirational rhetoric and positive example could be as good as institutional reform and the force of law in compelling individuals to support one another in a spirit of civic attachment In his public writings Roosevelt sought to shape the American mind in ways that he thought proper Even his writings on nature hunting ranching and military life were part of his political thought in that they were intended to teach

Americans about the importance of balancing those individualistic values that are healthy and vital to a society discipline personal responsibility and a strong work ethic with such positive collectivistic values as an appreciation for mutual support and a concern for the good of the community **Apostle of Human Progress** Edward C. Rafferty, 2003-06-11 Although Lester Frank Ward's accomplishments are not as well known today he is considered the father of American Sociology and his work profoundly influenced such important thinkers as Thorstein Veblen John Dewey Edward Ross and Charlotte Perkins Gilman In *Apostle of Human Progress* Edward C Rafferty presents the first full scale intellectual portrait of this important public thinker Rafferty shows how Ward's thought laid the foundations for the modern administrative state and explores his contributions to twentieth century American liberalism Ideal for anyone interested in the history of American intellectuals and ideas
